1. **Definitions**

"Bid" includes an advertised competitive bid, limited bid or request for bid.

"Bid rigging (or collusive bidding)" occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors.

"business interest" means —

- (a) a right or entitlement to share in profits, revenue or assets of an entity;
- (b) a real or personal right in property; and
- (c) a right to remuneration or any other private gain or benefit, and includes any interest contemplated in paragraphs (a), (b) or (c) acquired through an intermediary and any potential interest in terms of any of those paragraphs.
- "Consortium or Joint Venture" means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.

"employee" means a person employed by the KZN-GFSP, whether permanently or temporarily.

"entity" means any -

- (a) association of persons, whether or not incorporated or registered in terms of any law, including a company, corporation, trust, partnership, close corporation, joint venture or consortium; or
- (b) sole proprietorship.
- "entity conducting business with the Institution" means an entity that contracts or applies or tenders for the sale, lease or supply of goods or services to the KZN-GFSP.

"Family member" means a person's —

- (a) spouse; or
- (b) child, parent, brother or sister, whether such a relationship results from birth, marriage or adoption.
- "intermediary" means a person through whom an interest is acquired, and includes—
 - (a) a person to whom is granted or from whom is received a general power of attorney; and
 - (b) a representative or agent.

[&]quot;Institution" means — KZN-GFSP.

"RWOPS" means —

Remunerative Work Outside the Public Service

"RFP" means —

Request For Proposal

"spouse" means a person's —

- (a) partner in marriage;
- (b) partner in a customary union according to indigenous law; or
- (c) partner in a relationship in which the parties live together in a manner resembling a marital partnership or customary union.
- Any legal person, including persons employed by the Institution, or their family members, may make an offer or offers in terms of this invitation to proposal. In view of possible allegations of favouritism, should the resulting proposal, or part thereof, be awarded to persons employed by the
 - KZN-GFSP, or to their family member, it is required that the bidder or his/her authorised representative declare his/her position in relation to the evaluating/adjudicating authority where the bidder is employed by the Institution.
- 3. The proposal of any bidder may be disregarded if that bidder or any of its directors, members, employees have abused the institution's supply chain management system, committed fraud or any other improper conduct in relation to such system, or failed to perform on any previous contract.
- 4. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or proposal rigging). Collusive bidding is a *per se* prohibition meaning that it cannot be justified under any grounds.
- 5. Communication between partners in a joint venture or consortium will not be construed as collusive bidding.
- 6. In addition and without prejudice to any other remedy provided to combat any restrictive practices related to proposals and contracts, proposals that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.

SECTION L: TERMS OF REFERENCE

1. Background

The Global Fund is the largest financier of HIV and AIDS, Tuberculosis (TB) and Malaria programmes in the world. In 2016, it approved the South Africa country concept note for HIV/TB. The approval allowed the country to access funding, known as a grant, over three years i.e. 2016-2019, to implement specific programmes as stipulated in the concept note. The overall goal of the programmes is to reduce new HIV infections among key populations and to improve the quality of life.

The grant is spread across eight recipients known as Principal Recipients (PRs), three of which three are government departments and five non-governmental organisations. In KwaZulu-Natal (KZN), the PR for the grant is the provincial government department of Provincial Treasury. To manage the grant on behalf of the KZN Provincial government, the KZN Provincial Treasury established the KZN Global Fund Supported Programme (KZN-GFSP).

2. Introduction

2.1 The HIV and TB Situation

The high burden of HIV in South Africa is demonstrated by the estimated 7 million people living with HIV (PLHIV) as shown by the 2016 estimates from the Thembisa Model. KwaZulu-Natal is home to 1.9 million PLHIV which represents 27% of the national burden of the disease. The 2016 estimated prevalence for the province was 18% compared to the national average at 12.6%. 2017 districts estimates indicate that all districts in the province have prevalence rates higher than 16%. KZN's HIV burden thus has a large bearing on the country's burden.

South Africa also bears one of the highest TB burdens in the world and TB is one of the top five underlying causes of death in the country. As with HIV, KZN has the greatest TB burden in the country.

2.2 Other Vulnerable Populations Programme

The grant allocated to the KZN Treasury is aimed at funding interventions for several programmes one of which is the prevention programme for other vulnerable populations. The province intends to implement high impact interventions that are tailored and targeted to reach the right people (people with the greatest HIV and TB prevention needs). This is in line with the National Strategic Plan's (NSP 2017-2022) emphasis on the need for extensive HIV, Tuberculosis (TB) and Sexually Transmitted Infections (STI) response interventions for vulnerable populations (VP) as part of contributing to curbing the high HIV and TB infections in South Africa, where the province of KwaZulu-Natal is severely affected. Equally it is expected that these interventions will produce high impact results.

The project will be implemented in ten local municipalities located in five districts identified as high burden HIV and/or TB through a new innovative approach known as focus for impact. These local municipalities are Newcastle and Dannhauser (Amajuba District); KwaDukuza (ILembe District); Alfred Duma and Okhahlamba (uThukela District); Richmond, uMshwati, uMngeni and uMkhambathini (uMgungundlovu) and the four informal settlements of Amaoti, Amatikwe, Cato Crest and Malukazi (eThekwini).

Adolescent Girls and Young Women (AGYW) will be targeted in the four out of the five District Municipalities while, people living in informal settlements will be targeted in eThekwini. In uMgungundlovu District, farm workers and their families will be targeted.

The objectives of the programme are:

- Increase knowledge on HIV and AIDS, TB and STIs among selected vulnerable populations and locations by the 31 March 2019.
- To increase uptake of HIV, TB and STI testing services by 30% among selected vulnerable populations and locations by 31 March 2019.
- To successfully initiate 90% of all TB positive target population on TB treatment according to the National TB guidelines among selected vulnerable populations and locations by 31 March 2019.
- To successfully initiate 90% of all HIV positive target population on ART treatment (as per the National Department of Health Universal Test and Treat guidelines) among selected vulnerable populations and locations by 31 March 2019.
- To retain at least 80% of newly initiated on ART HIV positive project beneficiaries on ART treatment among selected vulnerable populations and locations by 31 March 2019.
- To increase dual protection (that includes self-reported condom usage) among selected vulnerable populations and locations by 31 March 2019.

All the districts will be subjected to high impact interventions to prevent sexual transmission of HIV through implementation of tailored evidence based interventions as follows:

- Condoms, lubricants and related behavioural change programmes
- Community based HIV Testing and TB/STI screening Services including homebased testing, index testing and mobile testing.
- HIV, TB and STI Treatment
- Social Behaviour Change Communication (SBCC)

In addition eThekwini will be targeted with specific TB interventions as follows:

- TB screening including use of chest radiography
- Active TB Case finding
- Condom promotion and distribution

Community based organisations working under the leadership of a larger experienced NGO will take lead in implementation of the above interventions.

3. Scope of Work

The KZN Global Funded Supported Programme considers documenting implementation processes, practices, lessons learnt, good practices and experiences of the vulnerable population programme critical to expanding learning, contributing to knowledge and in improving implementation and/or expanding potential future programmes. Documenting can also be used as marketing collateral to gather interest from stakeholders including the leadership, development partners, communities, and civil society among others. It can further lead to unearthing innovations that can be useful to future implementation.

At the same time, there is recognition of a general lack of capacity/training in documenting and more specifically within the locations the other vulnerable programmes will be implemented. Towards this end, there is need to build capacity/carry out training in documenting to impart writing skills and ensure that the imparted skill is used to document. This can also cultivate ownership and sustainability of documenting and the programme in the long term.

The KwaZulu-Natal Provincial Global Fund Supported Programme is seeking to procure a consultant

to support the documentation of best practices by training identified individuals from the field teams on writing skills and support documenting work being done at district level under the other vulnerable populations programme and AGYW. The capacity building/training will develop writing and strengthen scholarly writing skills among the selected team. In addition, capacitated/trained teams will contribute to the planned documenting. The KwaZulu-Natal Provincial Global Fund Supported Programme envisages that products arising from the exercise will ultimately lead to a manuscript that will be peer reviewed and published in appropriate publications such as journals and other scientific publications.

4. Tasks of the Assignment

- Train identified individuals from the field teams, PR, SR and develop their writing skills to
 document implementation processes, practices and experiences of the other vulnerable
 populations in the respective locations.
