Sanibonani;

Mangiqale nje nginibonge nonke bosomabhizinisi basoGwini ukuthi nikwazile ukufika lapha nizokwethamela lomcimbi esihlose ngawo ukunihlomisa ngezikhali zomnotho nolwazi ukuze amabhizinisi enu achume.

Silapha sithunywe uHulumeni waKwaZulu-Natal oholwa uBaba uKhuzeni esithunywe naye iNhlngano kaKhongolose ukuthi silethe ukukhululeka kwezomnotho kubantu bakithi.

Isikhathi esiningi sibonile ukuthi amabhizinisi aphethwe abantu bakithi abahlala ezindaweni zasemakhaya nakwimiphakathi ekude namadolobha bakuthola kunzima kakhulu ukuthi bakwazi ukufinyelela kwizidingo zokuchumisa basimamise amabhizinisi abo. Lokhu kudalwa ukugqoza kolwazi, ukungaxhaseki ngokwezimali nokungazi ngezindlela zikaHulumeni zokusebenzisana nosomabhizinisi.

Siyazi ukuthi abanye benu balapha nje abanalo nolwazi lokuthi uma befuna ukuqala ibhizinizi kumele benze njani. Sinethemba elikhulu namuhla ukuthi siyothi sinishiya niyobe senazi ukuthi yini okumele umuntu ayenze ukuqala ibhizinisi, nokuthi yini okumele uyenze uma selikhona ibhizinisi ukuze ukwazi ukuligcina limile, lidlondlobala futhi lingenisa imali lize likwazi nokuqasha abanye abantu, bese kuvele namathuba omsebenzi amaningi.

This initiative today is aimed at reversing such fortunes of these fledgling businesses. The information and knowledge to be imparted here today is sacrosanct in order to mitigate high rate of unemployment that mostly affects the youth of our country. This can only be mitigated if young people become successful entrepreneurs in their own communities.

Financial freedom means you have the means, tools, pre-requisite skills and expertise to do business in a sustainable way. We do these initiatives understanding that the role of young people in the society has changed drastically in the past 28 years. Since 1994, we have worked with the SMMEs and the youth of this country to attain our democratic breakthrough which has given us a chance to restore the dignity of our people and transform their lives.

Over the years, we have produced many more leaders and household names not just in politics, but also in business, science, education, engineering, ICT innovation, industry, medicine, social services, the creative sectors, media, and sports.

Kuyoba iphutha elikhulu ukuthi sibe namabhizinisi kanjalo nosomabhizini kodwa abangazi lutho ngokuphathwa kwamabhizinisi futhi abangazi ukuthi kumele basebenzise ubuchwepheshe besimanjemanje ukuze bakwazi ukusimamisa amabhizinisi abo akwazi ukuqhudelana kalula namanye amakhulu asezindaweni ezibukeka zingcono emadolobheni. Ukuphumelela kwebhizinisi akukhulisi nje umnotho, kodwa kukhulisa imindeni nemiphakathi kulethe ngisho uzinzo.

What is the use of having SMMEs with zero business skills in a rapidly technologically advancing business space? That will mean a bleak future for all of us. In the same vein, the

tools, knowledge and expertise that will be imparted to you today should assist you to be better business people, to be better citizens and raise sustainable families and build better communities.

Ezokuvakasha yizona ezihamba phambili futhi ngiyafisa ningene kakhulu. Siyazi ukuthi lesi siFunda saso Gwini singesinye sezihamba phambili kwimboni yezokuvakasha, kodwa ke, kumele phela nabantu abamnyama nazame indlela yokungena kuyo lemboni ngoba ingezinye zezindlela ezichumile lapha oGwini namaphethelo.

Uma ngingena kwezolimo, kuningi kakhulu esingakuzuzisa ngemikhiqizo njenge-food processing, iziqandisi (reefer warehousing) ukuze sakhe izimboni. Sifuna ningene kwezolimi, ningatshali nje kuphela kodwa kube nabazofunda ukuthi wenziwa kanjani ujamu, ujuji, uCurry powder ukudla okuhluziwe okumathinini, futhi benze nalokhu okuthiwa yipackaging and freight logistics ngoba maningi amathuba akhona adalwa ezolimo.

However, all is not lost. That small idea that often visits your mind can be a gateway to a bigger business venture. Young people and SMMEs should be in agriculture and all its downstream economic arteries.

In early March, the Executive Council or the Cabinet of KwaZulu-Natal approved the Provincial Cannabis Committee to oversee the development of the industry in the province. The decision came shortly after President Cyril Ramaphosa announced during the State of the Nation Address that KwaZulu-Natal will lead in this new frontier of economic development.

The Premier stated that the potential for the cannabis/hemp industry is estimated at over R28 billion in South Africa with a potential to create between 10 000 and 20 000 job opportunities across the entire value-chain.

The establishment of the Cannabis industry will lead to the diversification of the economy, create jobs, increase economic growth and contribute to poverty alleviation.

The Provincial Cannabis Committee will be responsible for growing the cannabis/hemp industry through ensuring adherence to regulatory systems, seed supply systems, research and technology development. Again this is the space that we require young people to seize and occupy. Historically, this area is known for growing a related herb to cannabis and I believe the people here have the know-how and the soil is fertile for such production.

It will also drive the sustainable producer systems, market development supplier development systems, manufacturing and product development, education and training, communication and awareness.

Before I proceed any further, I must state that we are not oblivious of the water problem confronting and facing Ugu District. This has been going on for years and it has the potential to destroy existing businesses and those that are about to start. We know businesses, like those in the tourism sector and retail need water to keep afloat. This is the same with large industries especially those in the manufacturing sector that uses bulk water.

Last year in October, we launched the Provincial Water Master Plan in Harry Gwala and we have worked hard that neighbouring district benefit from this. The issue is an ongoing agenda item at Cabinet and a Cabinet task team exists and which looks at this issue.

On business incubation and learnerships

KwaZulu-Natal prides itself to be the only province that initiated a dedicated programme to train students in the aviation industry. All our provincial departments are also actively

involved in providing much needed internships and work experience to bridge the classroom gap and the world of work. We call on the private sector to provide experiential learning and internships for our youth. We also implore them to offer business opportunities to the youth of the province and to provide business incubation so that we can grow the provincial economy faster and more equitably.

UHulumeni wasungula uhlelo lwe-Operation Vula eminyakeni edlule ukuze sihlangebezane nani ningo Somabhizini ukuthi sinethule umthwalo ngenxa yokuthi anilutholi uxhaso kwizikhungo ezinjengamaBhange ukuze nikwazi ukufukula amabhizinisi enu.

The Operation Vula Fund is a grant funding scheme spearheaded by EDTEA with the aim of ensuring that adequate support is afforded towards the development and promotion of sustainable emerging enterprises which include SMMEs and Cooperatives. OVF programme was endorsed by the Provincial Executive Council in October 2019 and was launched on the 14th September 2021 in Uthukela District.

Uhlelo lweOperation Vula wuhlelo olwaphasiswa nguHulumeni wesifundazwe njengomhlahlandlela osebenzayo ukuvulela abantu bakithi amathuba kwezomnotho.

Ake ngikhulume nge-Rural and Township Economic Revitalisation. Again, following July last year's unrest, EDTEA did a survey which led to the KZN provincial government approving an intervention aimed at providing a Relief Grant for Rural and Township shops that were affected by the looting and unrest. The Grant is an amount up to R20 000 per shop, and will assist more than 500 shops across the province with trading stock excluding alcohol and related products.

The funding intervention addresses the challenges faced by rural and township businesses which were affected but were left out due to under reportage during the July mayhem. The provincial government has since reprioritised R10 million which will be a grant funding targeting to support more than 500 shops across the province up to R20 000. The application forms are available at all EDTEA offices and will be subjected to rigorous verification processes to ensure that deserving and qualifying shops receive support.

Ladies and Gentlemen,

It did not end there, the Cabinet also approved the Zimele Traders Fund - a KZN government-led programme to uplift community-based Rural and Township shops through provision of working capital loan funding and payment automation facilities. This Fund will provide shops and general dealers with support to transform their businesses into viable shopping outlets offering a one-stop shopping experience.

The loan amounts will be anything up to R100 000 per qualifying shop, and the shops will be supported with pay-point machines at no cost to the shop owner. This support is a first of its kind toward rural and township shops. This funding initiative will be implemented under the EDTEA. It will give an opportunity to Rural and Township shops to contribute to the local economy and assist in post-Covid-19 economic recovery programme. The conditions for support under this fund are that the shop must be located in a Rural or Township area.

Before I close, I wish to reiterate the announcement made by the Premier who announced that we have disbursed R69 million towards the Youth Empowerment Fund during the first round. Currently, the Province is finalising allocations of the second round at R50 million. The third round which will be R100 million will be advertised before the end of the financial year. The Youth Chief Directorate at the Office of the Premier will dissect these funds for us.
