Department: Treasury **PROVINCE OF KWAZULU-NATAL**

CONSOLIDATED MUNICIPAL BUDGETS PERFORMANCE REPORT

3rd Quarter Review 2022/23

MFQR: 31 March 2023

Compiled by: KwaZulu-Natal (KZN) Provincial Treasury

Data Source and Reliability

The information contained in this report is in summary form and is therefore intended for general guidance only. It is not intended to be a substitute for detailed research or the exercise of professional judgment. KZN Provincial Treasury hereby disclaims any and all responsibility for any loss, injury, damages, or expense directly or indirectly arising out of or relating to the use of or reliance on this publication or the material contained therein. This report has been prepared for the KZN Legislature. KZN Provincial Treasury does not accept responsibility to any other party to whom it may be shown, or who on their own volition, may decide to rely on it. This report has been compiled based on preliminary information provided by the municipalities in the form of the Annual Financial Statements (AFS), Budgets and from the National Treasury Local Government Database (NT LG Database). The information provided, accounting records or financial statements of the municipalities have not been audited and accordingly, KZN Provincial Treasury can express no assurances thereon. This report is prepared in compliance with, amongst others, Section 71(7) of the Municipal Finance Management Act, Act No. 56 of 2003 (MFMA) and is not to be used for any other purpose.

This report uses data reported by municipalities by the 10th working day of the month, as required by Section 71(1) of the MFMA. The report has been compiled based on information provided by the municipalities in the form of mSCOA data strings, Financial Management Reports (FMR) and other budget performance information for the financial period ended 31 March 2023 from the NT LG Database. Therefore, any queries on the budget, revenue or expenditure figures reflected in the report must be referred to the relevant Municipal Manager or Chief Financial Officer. The quality of the report depends on the reliability and credibility of the information and figures submitted by the municipalities. It is noted that certain municipalities experience challenges with their financial systems as well as with the capturing of financial data in accordance with the mSCOA segments. These problems cause errors in the submitted data strings as well as inaccuracies in the financial information related to misalignment, cash flow and balance sheet budgeting.

This report may not be copied in whole or in part without the written consent of KZN Provincial Treasury.

Methodology and Approach

The methodology and approach used for the compilation of this report included the following:

The data for the analysis used in this report was extracted from the <u>NT LG Database as reported by</u> <u>municipalities for the financial quarter ended 31 March 2023</u>. The non-delegated municipalities, namely, the eThekwini Metro and the Msunduzi and uMhlathuze Local Municipalities are included in the report. By the time of extracting the third quarter financial information from the NT LG Database on 19 April 2023, some municipalities may not have corrected the errors in their monthly MFMA Section 71 performance data strings. Such errors may have distorted the reporting of the budget performance as at the end of the third quarter for the respective municipalities, the district totals and the aggregated provincial total.

All municipalities should have generated and spent approximately 75 percent based on a straight line projection of their 2022/23 Adjusted Budgets as at the end of the third quarter of the 2022/23 financial year.

1. Introduction

This consolidated municipal budget performance review covers the financial performance of municipalities in KZN as at the end of the third quarter of the 2022/23 financial year ended 31 March 2023.

The consolidated statement provides the in-year financial performance of municipalities against their budgeted revenue and expenditure. It includes the operating and capital budget performances as well as the debtors, creditors and conditional grant reporting requirements.

Assessing the expenditure performance of municipalities assists in serving as a control and management tool and serves as an early warning signal for identifying financial problems.

The report is prepared using the figures from the mSCOA data strings. The mSCOA Regulations were promulgated on 22 April 2014 and prescribed the uniform recording and classification of the municipal budget and financial information at a transaction level. The mSCOA Regulations require that municipalities upload their budget and financial information in a data string format to the Local Government Database (GoMuni Upload Portal) across the six mSCOA regulated segments. The quarterly report has been prepared using the mSCOA data strings submitted by the municipalities, however the credibility of the information contained in the data strings is of concern. At the core of the challenge are the following:

- The incorrect use of the mSCOA segments and municipal accounting practices by municipalities;
- A number of municipalities are not budgeting, transacting and reporting directly in/from their core financial systems. Instead they prepare their budgets and reports on excel spreadsheets and then import the excel spreadsheets into their financial system; and
- Municipalities are not locking their Approved Budgets annually on their financial systems. Furthermore, their financial systems are not being locked at month-end to ensure prudent financial management.

Legislative Framework

In terms of Section 71(7) of the MFMA, the Provincial Treasury must, within 30 days after the end of each quarter, make public as may be prescribed, a consolidated statement in the prescribed format on the state of municipalities' budgets per municipality and per municipal entity. The MEC for Finance must submit such consolidated statement to the provincial legislature no later than 45 days after the end of each quarter.

2. District Overview

2.1 Operating Revenue

Table 1: Operating Revenue per source and per district as at the end of Quarter 3 – 2022/23

Source: NT Igdatabase, downloaded 19 April 2023.

1 Include Service charges revenue for Waste Water Management and Waste Management.

2 Include Sale of Goods and Rendering of Services, Agency services, Interest, Interest earned from Receivables, Interest earned from Current and Non Current Assets, Dividends, Rent on Land, Rental from Fixed Assets, Licence and permits and Operational Revenue.

3 Include Equitable Share, Financial Management Grant, Expanded Public Works Programme Integrated Grant, Provincial Operating Grant, 5% portion of Municipal Infrastructure Grant

4 Include Surcharges and Taxes, Fines, penalties and forfeits, Licence or permits, Interest, Fuel Levy, Operational Revenue, Gains on disposal of Assets, Other Gains and Discontinued Operations.

- In aggregate, municipalities in KwaZulu-Natal generated *Operating revenue* amounting to R66.9 billion or 79.3 percent of their Adjusted Budgets of R84.3 billion as at the end of March 2023 which is above the expected straight-line projection of 75 percent at the end of the third quarter of the 2022/23 financial year.
- The eThekwini Metro with R37.7 billion or 56.4 percent contributed the most towards the total *Operating revenue* of R66.9 billion followed by the uMgungundlovu District with R7 billion or 10.5 percent. It should be noted that the Msunduzi Local Municipality contributed R5 billion or 70.9 percent towards the total *Operating revenue* reported by the uMgungundlovu District. The King Cetshwayo District contributed R4.8 billion or 7.2 percent towards the total *Operating revenue* of R66.9 billion which is attributed to the uMhlathuze Local Municipality having reported R2.8 billion or 58.9 percent of the total *Operating revenue* reported by the district. The non-delegated municipalities are considered to be significant contributors to the total *Operating revenue* generated as they are densely populated cities with a large number of consumers.
- The uMzinyathi District with R1.4 billion or 2.1 percent contributed the least towards the total *Operating revenue*. This is due to the eNdumeni and Nquthu Local Municipalities reporting low total *Operating revenue* figures of R252.5 million (60.5 percent of the Adjusted Budget of R417 million) and R155.6 million (60.2 percent of the Adjusted Budget of R258.3 million) respectively as at the end of March 2023.
- Transfers and subsidies Operational contributed the most towards Operating revenue as at the end of the third quarter of the 2022/23 financial year with R18.2 billion or 27.3 percent followed by Service charges electricity revenue of R17.6 billion or 26.4 percent. Service charges other which comprises of Service charges waste water management and Service charges waste management contributed the least towards Operating revenue generated with R2.9 billion or 4.4 percent.

2.2 Operating Expenditure

1 Include Inventory consumed, Transfers and subsidies and Losses.

- In aggregate, municipalities in KwaZulu-Natal incurred *Operating expenditure* amounting to R55.7 billion or 66 percent of their Adjusted Budgets of R84.3 billion as at the end of March 2023 which is less than the straight-line projection of 75 percent expected at the end of the third quarter of the 2022/23 financial year.
- The eThekwini Metro with R32.1 billion or 57.8 percent contributed the most towards the total *Operating expenditure* of R55.7 billion followed by the uMgungundlovu District with R4.6 billion or 8.3 percent. It should be noted that the Msunduzi Local Municipality contributed R3.1 billion or 67.5 percent towards the total *Operating expenditure* reported by the uMgungundlovu District.
- The King Cetshwayo District contributed R4.4 billion or 7.9 percent towards the total *Operating expenditure* of R55.7 billion which can be attributed to the uMhlathuze Local Municipality having reported R2.9 billion or 67 percent of the total *Operating expenditure* reported by the district.
- The uMzinyathi District with R1.1 billion or 2 percent contributed the least to the total *Operating expenditure* of R55.7 billion. This is mainly attributable to the Nquthu Local Municipality reporting only R86.6 million or 28 percent of the Adjusted Budget of R309 million, the eNdumeni Local Municipality reporting only R185.8 million or 43.5 percent of the Adjusted Budget of R426.9 million and the uMsinga Local Municipality reporting only R130.9 million or 45.6 percent of the Adjusted Budget of R287 million.
- *Employee related costs* contributed the most towards the total *Operating expenditure* as R16.8 billion or 30.2 percent was spent as at the end of the third quarter of the 2022/23 financial year. *Debt impairment* of R142.1 million or 0.3 percent contributed the least towards the total *Operating expenditure*. The low performance of *Debt impairment* is largely due to the fact that 42 municipalities did not report any *Debt impairment* while the iNkosi Langalibalele and the Msunduzi Local Municipalities reported negative R1.4 million and negative R1.2 billion respectively. Most municipalities do not adhere to the Generally Recognised Accounting Practice (GRAP) Standard 104 on *Financial Instruments* and calculate *Debt impairment* only at year end.
- *Operating expenditure* continues to be driven by *Employee related costs* and *Bulk purchases* which contributed R16.8 billion or 30.2 percent and R14.3 billion or 25.7 percent respectively towards the total Operating expenditure.

2.3 Capital Revenue

rubio or oupital novoliao		

Source: NT Igdatabase, downloaded 19 April 2023.

1 Include National Government, Provincial Government, District Municipality and Other transfers and grants.

- Municipalities in KwaZulu-Natal generated *Capital revenue* of R5.6 billion or 38.5 percent of their Adjusted Budgets of R14.6 billion at an aggregate level to fund their *Capital expenditure* as at the end of March 2023 which is significantly below the straight-line projection of 75 percent expected at the end of the third quarter of the 2022/23 financial year. The low *Capital revenue* of R5.6 billion or 38.5 percent reported by KwaZulu-Natal municipalities is primarily attributable to delays in Supply Chain Management (SCM) processes and inaccurate reporting for a number of municipalities.
- The eThekwini Metro with R2 billion or 35.2 percent contributed the most towards the total *Capital revenue* of R5.6 billion followed by the King Cetshwayo District with R913.8 million or 16.3 percent.
- The uMkhanyakude District reported the least *Capital revenue* of R103.1 million or 1.8 percent as a result of incorrect reporting by the uMhlabuyalingana Local Municipality as at the end of the third quarter of the 2022/23 financial year.
- The highest contributor towards the total *Capital revenue* as at the end of the third quarter of the 2022/23 financial year was *Transfers recognised capital* with R4 billion or 71.3 percent followed by *Internally generated funds* with R899.7 million or 16.1 percent. *Borrowing* of R709.7 million or 12.7 percent contributed the least towards the total *Capital revenue* as at the end of third quarter of the 2022/23 financial year.
- Internally generated funds of R899.7 million were understated as the uMgungundlovu District Municipality as well as the eDumbe and uMhlabuyalingana Local Municipalities reported negative figures for *Internally generated funds* of negative R136 000, negative R1.9 million and negative R2.3 million respectively.
- It is concerning to note that the uMgungundlovu District Municipality and the uMhlabuyalingana Local Municipality reported *Capital revenue* of negative R49.7 million (negative 26.4 percent) and negative R17.6 million (negative 29.7 percent) respectively at the end of the third quarter of the 2022/23 financial year.
- The uMgungundlovu District Municipality manually processed the roll forward of the prior year opening balances for the 2022/23 financial year resulting in the system reporting negative figures for *Capital Revenue* and *Capital Expenditure*. The municipality has engaged the service provider to correct the error and the system has been corrected to perform automatic roll forwards going forward, however the resultant corrected reporting will only be seen in the 2023/24 financial year when opening balances are automatically rolled forward. The uMhlabuyalingana Local Municipality indicated that the reported performance is incorrect due to incorrect posting of the Opening balance journal when

rolling forward the 2021/22 audited opening balances, however the error is currently being attended to.

Table 4: Capital Expenditure per item and per district as at the end of Quarter 3 – 2022/23

Source: NT Igdatabase, downloaded 19 April 2023.

1 Include Executive & Council, Finance and administration and Internal audit.

2 Include Community & Social Services, Sports and Recreation and Public Safety.

3 Include Planning and development and Environmental protection.

- Municipalities in KwaZulu-Natal incurred *Capital expenditure* of R5.6 billion or 38.6 percent in aggregate against their Adjusted Budgets of R14.6 billion as at the end of March 2023 which is significantly below the straight-line projection of 75 percent expected at the end of the third quarter of the 2022/23 financial year. The low *Capital expenditure* of R5.6 billion or 38.6 percent reported by KwaZulu-Natal municipalities is primarily attributable to delays in SCM processes and inaccurate reporting for a number of municipalities.
- The eThekwini Metro with R2 billion or 35.1 percent contributed the most towards the total *Capital expenditure* of R5.6 billion followed by the King Cetshwayo District with *Capital expenditure* of R913.8 million or 16.3 percent.
- The uMkhanyakude District reported the least *Capital expenditure* of R104.7 million or 1.9 percent as a result of incorrect reporting by the uMhlabuyalingana Local Municipality as at the end of third quarter of the 2022/23 financial year. The error has contributed to the distortion of the provincial average as at the end of the first quarter of the 2022/23 financial year.
- The bulk of the total *Capital expenditure* as at the end of the third quarter of the 2022/23 financial year was spent on *Water* and *Waste water management* with R2.2 billion or 38.7 percent with the King Cetshwayo District contributing the most in this category with R571.5 million or 26.2 percent followed closely by the eThekwini Metro with R566.3 million or 26 percent. The second highest contributor towards *Capital expenditure* was *Road transport* with R1.5 billion or 26 percent. It should be noted that *Road transport* was understated as a result of the uMhlabuyalingana Local Municipality incorrectly reporting negative R18.3 million.
- The lowest contributor towards the total *Capital expenditure* was *Health* at R4 million or 0.1 percent with the eThekwini Metro being the only municipality reporting expenditure in this category.
- Five municipalities reported negative *Capital expenditure* in the *Finance and administration* expenditure category. The uMgungundlovu District Municipality reported negative R136 000, the eDumbe, uMhlabuyalingana and Msunduzi Local Municipalities reported negative R1.9 million, negative R2 million and negative R17.6 million respectively and the eThekwini Metro reported negative R33.6 million. These errors have also distorted the provincial average as at the end of the third quarter of the 2022/23 financial year.

1 Include Property rates debtors (Agricultural, Ingonyama Trust, Municipal Properties, Protected Area, Vacant Land, Public Benefiting Organisations, Place of Worship), Sundry debtors (Rentals, Garden refuse, Cemetery and burial, Application fees for land usage, Building plan approval), and Misclassifications.

- The total debt owed to municipalities at the end of the third quarter of the 2022/23 financial year was R36 billion which represents a decrease of R4.7 billion or 11.6 percent from R40.8 billion reported by municipalities as at the end of the second quarter of the 2022/23 financial year. However, the *Debtors* balance of R36 billion could be significantly understated as the Msunduzi and uMhlathuze Local Municipalities did not submit their Month 09 Debtors data strings as at the end of the third quarter of the 2022/23 financial year. Additionally, the eNdumeni Local Municipality incorrectly reported no Debtors as at the end of the third quarter of the 2022/23 financial year.
- At the end of the third quarter of the 2022/23 financial year, a substantial amount of debt totalling R30.4 billion or 84.4 percent was outstanding in the *Over 90 Days* category which represents a decrease of R3.5 billion or 10.5 percent from R33.9 billion reported in the same age category as at the end of the second quarter of the 2022/23 financial year. As at 31 March 2023, the remaining Debtors per age category were as follows: *0-30 Days*: R3.3 billion or 9 percent; *30-60 Days*: R1.4 billion or 3.7 percent; and *60-90 Days*: R1 billion or 2.8 percent.
- The Dr. Nkosazana Dlamini-Zuma Local Municipality reported *Debtors* of negative R847 000 in the *0-30 Days* category, while the Nkandla Local Municipality reported negative R10.3 million in the *60-90 Days* category and the Maphumulo Local Municipality reported negative R23 000 in the *0-30 Days* category and negative R6.1 million in the *30-60 Days* category.
- The Debtors Age Analysis by *Customer group* indicates that a considerable portion of debt is owed by *Households* at R25.5 billion or 70.8 percent followed by *Commercial* at R7.3 billion or 20.2 percent.

- The total owed by *Organs of State* Debtors *Customer group* is R2.7 billion which represents a decrease of R390.1 million or 12.6 percent from R3.1 billion reported by municipalities as at the end of the second quarter of the 2022/23 financial year. Similarly, the *Commercial* Debtors *Customer group* decreased by R870 million or 10.7 percent from R8.2 billion to R7.3 billion, and the *Households* Debtors *Customer group* decreased by R3.3 billion or 11.5 percent from R28.8 billion to R25.5 billion from the second quarter to the third quarter of the 2022/23 financial year. As noted above, the decrease in Debtors may be attributed to the Msunduzi and uMhlathuze Local Municipalities that have not submitted their Debtors data string as at the end of Month 09 for the 2022/23 financial year. Additionally, eNdumeni Local Municipality incorrectly reported no Debtors as at the end of the third quarter of the 2022/23 financial year.
- Debt collection efforts must focus on these long outstanding debts, however some of these Debtors may still need to be written off as they may have arisen as a result of the incorrect billing of Indigent customers, amongst others. Municipalities are encouraged to update their Indigent registers to determine households that qualify for rebates and discounts with the aim of ensuring that Debtors are accurately billed and reported. Municipalities should continue to implement effective debt management and credit control measures in order to improve their Debtors collection rates, which in turn will have a positive impact on their cash flows.

Source: NT Igdatabase, downloaded 19 April 2023.

- The total debt owed by municipalities at the end of the third quarter of the 2022/23 financial year was R3.6 billion which represents an increase of R868.5 million or 32 percent from R2.7 billion owed by municipalities as at end of the second quarter of the 2022/23 financial year.
- At the end of the third quarter of the 2022/23 financial year, a substantial amount of debt totalling R2.1 billion or 59.1 percent was outstanding in the *Over 90 Days* category representing an increase of R777.2 million or 58 percent from R1.3 billion reported in the same category as at the end of the second quarter of the 2022/23 financial year. It is concerning that R2.6 billion or 73.5 percent of the debt owed by municipalities was outstanding for longer than 30 days in contravention of Section 65(2)(e) of the MFMA.
- The uMhlathuze, eNdumeni and Nongoma Local Municipalities did not submit their *Creditors* data string for Month 09 while the iMpendle and uMzimkhulu Local Municipalities reported no *Creditors* for Month 09 of the 2022/23 financial year. Furthermore, the uMhlabuyalingana Local Municipality reported total *Creditors* of negative R6.8 million and fourteen other municipalities reflected negative amounts for *Creditors* in at least one of the age categories, while the total Creditors for each of these municipalities at the end of the third quarter remained positive.
- The majority of the outstanding *Creditors* relate to *Bulk electricity* of R1.2 billion or 32.4 percent followed by *Bulk Water* of R995.6 million or 27.8 percent.
- Of the *Bulk electricity* outstanding *Creditors* balance of R1.2 billion, R705.9 million was in the *Over 90 Days category*. This was mainly due to the fact that the Mpofana, Msunduzi and Ulundi Local Municipalities reported amounts in the *Over 90 Days* category owing to Eskom of R378.3 million, R179.4 million and R143.3 million respectively for unpaid electricity. Due to the poor collection of outstanding Debtors, the municipalities experienced cash flow challenges and were therefore unable to make full payment on invoices owed to Eskom. A repayment plan is still being negotiated between the Mpofana Local Municipality and Eskom. Additionally, as per the MFMA Section 41 Report for March

2023, the Mpofana Local Municipality agreed to enter into an active partnering agreement with Eskom, the Memorandum of Understanding was signed and a technical evaluation meeting was conducted. According to the MFMA Section 41 Report for March 2023, a disconnection notice was issued to the Msunduzi Local Municipality for the non-bulk account and the Intergovernmental Relations Framework Act (IRFA) process is continuing. As per the MFMA Section 41 Report for March 2023, Eskom is currently engaging the Ulundi Local Municipality regarding Active Partnering, however, Eskom is still experiencing challenges in securing a payment arrangement with the municipality.

- The eNdumeni and Newcastle Local Municipalities did not report the balances owed to Eskom in their MFMA Section 71 data string, however as per the MFMA Section 41 Report for March 2023, it was noted that the eNdumeni and Newcastle Local Municipalities owed Eskom R97 million and R99.6 million for unpaid Bulk electricity respectively as at the end of March 2023. Both municipalities have signed repayment plans with Eskom on the bulk account and are honouring the agreement according to the MFMA Section 41 Report for March 2023.
- Of the *Bulk water* outstanding *Creditors* balance of R995.6 million, R704.2 million was in the *Over 90 Days category*. This was mainly due to the fact that the Msunduzi Local Municipality and the Ugu and King Cetshwayo District Municipalities reported amounts owing to the Umgeni Water Board of R393.1 million, R181 million and R87.1 million respectively for unpaid *Bulk water* in the *Over 90 Days* category.
- According to the MFMA Section 41 Report for March 2023 from Umgeni Water, the Msunduzi Local Municipality defaulted on the payment plan therefore the Water Board intends to restrict the water to the municipality by 5 percent as per the Bulk Water Agreement.
- The amounts owed by the Ugu and King Cetshwayo District Municipalities for *Bulk water* as at the end of the third quarter has decreased from the second quarter of the 2022/23 financial year. As per the MFMA Section 71 data strings, the Ugu District Municipality reflected R181 million in the *Over 90 Days* category, which is a decrease of R12 million from the second quarter of R192 million. Similarly, the King Cetshwayo District Municipality reflected R87.1 million in the *Over 90 Days* category, which is a decrease of R22.9 million from the second quarter of R110 million.
- The Umgeni Water Board indicated in the MFMA Section 41 report for March 2023 that the Ugu District Municipality has been complying with the payment plan from 01 July 2022, however they are only paying half their current invoices. The King Cetshwayo reported a total of R125.6 million in their MFMA Section 71 data string for *Bulk water* as at 31 March 2023, while the Umgeni Water Board reported R409.9 million outstanding from the municipality in the MFMA Section 41 report for March 2023 and indicated that reminders for payment were sent to the municipality on 04 April 2023.
- The uThukela District Municipality did not report the balance owed to the Umgeni Water Board in their MFMA Section 71 data string, however as per the MFMA Section 41 Report for March 2023, it was noted that the uThukela District Municipality owed the water board R188.5 million for unpaid *Bulk water*. The overdue amounts are subject to the mediation process in terms of the IRFA. The uThukela District Municipality agreed to pay Umgeni Water Board R2 million per month, of which a payment was made on 30 March 2023.

Source: NT Igdatabase, downloaded 19 April 2023.

- In terms of the Division of Revenue Act, Act No. 4 of 2022 (DoRA), direct allocations to all 54 municipalities in KwaZulu-Natal, including the eThekwini Metro amounted to R8.6 billion, while allocations in-kind amounted to R821.7 million, totalling R9.4 billion. Municipalities have reflected spending of only R4 billion or 47.1 percent against the total direct allocation of R8.6 billion which is primarily attributable to delays in SCM processes and inaccurate reporting for a number of municipalities.
- The total Municipal Infrastructure Grant (MIG) allocation to all the municipalities within the province was R3.7 billion, excluding allocations to the uMhlathuze and Ray Nkonyeni Local Municipalities as well as the eThekwini Metro. The eThekwini Metro receives the Programme and Project Preparation Support Grant (PPPSG) while the uMhlathuze and Ray Nkonyeni Local Municipalities receive the Integrated Urban Development Grant (IUDG), therefore none of these municipalities receive the MIG allocation.
- As at the end of the third quarter of the 2022/23 financial year, a total of R1.9 billion or 52.7 percent was spent of the total MIG allocations by the municipalities.
- The total IUDG allocation to the Ray Nkonyeni and uMhlathuze Local Municipalities was R228.5 million of which, R57.7 million or 25.2 percent was spent as at the end of the third quarter of the 2022/23 financial year.
- According to the 2022 DoRA, the Integrated City Development Grant (ICDG) has been repurposed into the PPPSG allocation. The eThekwini Metro was allocated R61.3 million for this grant for the 2022/23 financial year but has not reported any spending against the allocation as at the end of the third quarter of the 2022/23 financial year.

- A total of 14 municipalities reported expenditure of less than 60 percent against their MIG allocations for the 2022/23 financial year as at the end of March 2023. A further 4 municipalities reported no expenditure against their MIG allocations. The uMhlabuyalingana and Mtubatuba Local Municipalities reported expenditure of negative R8.5 million and negative R22.1 million respectively due to challenges with their financial systems. The uMhlabuyalingana Local Municipality indicated that the negative performance is due to the incorrect accounting on opening balances and they are currently engaging the service provider to correct the opening balance journal. According to the municipality, they have spent R26.1 million or 66 percent of their MIG allocation. The Mtubatuba Local Municipality is still experiencing challenges in the use of grants module, amongst others on the financial system which has resulted in the MFMA Section 71 reports reflecting inaccurate information for grants, amongst others. The Mtubatuba Local Municipality is in the process of correcting the reporting with the assistance of their service provider and has indicated that they have spent R29.5 million or 82.3 percent of their MIG allocation.
- The total Water Services Infrastructure Grant (WSIG) allocation to the municipalities within the province was R939.4 million. As at the end of the third quarter, a total of R278.2 million or 29.6 percent was reported against the allocations to municipalities. This is despite negative R58.7 million or negative 68.6 percent reported by the uMgungundlovu District Municipality due to incorrect reporting.

2.7 Criteria for determining serious financial problems

Section 71(1) of the MFMA requires that the Accounting Officer of a municipality must by no later than 10 working days after the end of each month submit to the Mayor of the municipality and the relevant Provincial treasury a statement in the prescribed format on the state of the municipality's budget reflecting the following particulars for that month and for the financial year up to the end of that month.

The purpose of the MFMA Section 71 report is amongst others, to serve as an early warning system to identify and assist municipalities facing financial problems, including any emerging or impending financial problems.

Section 138 of the MFMA specifies criteria for determining serious financial problems at municipalities. As per Section 138 of the MFMA, the following factors, singly or in combination, may indicate a serious financial problem:

- (a) The municipality has failed to make payments as and when due;
- (b) the municipality has defaulted on financial obligations for financial reasons;
- (c) the actual current expenditure of the municipality has exceeded the sum of its actual current revenue plus available surpluses for at least two consecutive financial years;
- (d) the municipality had an operating deficit in excess of five per cent of revenue in the most recent financial year for which financial information is available;
- (e) the municipality is more than 60 days late in submitting its annual financial statements to the Auditor-General in accordance with Section 126 [of the MFMA];
- (f) the Auditor-General has withheld an opinion or issued a disclaimer due to inadequacies in the financial statements or records of the municipality, or has issued an opinion which identifies a serious financial problem in the municipality;
- (g) any of the above conditions exists in a municipal entity under the municipality's sole control, or in a municipal entity for whose debts the municipality may be responsible, and the municipality has failed to intervene effectively; or
- (h) any other material condition exists which indicates that the municipality, or a municipal entity under the municipality's sole control, is likely to be unable for financial reasons to meet its obligations.

Additionally, Section 140 of the MFMA specifies criteria for determining serious or persistent breach of financial commitments. As per Section 140(2) of the MFMA, the following factors, singly or in combination, may indicate that a municipality is in serious material breach of its obligations to meet its financial commitments:

- (a) The municipality has failed to make any payment to a lender or investor as and when due;
- (b) the municipality has failed to meet a contractual obligation which provides security in terms of Section 48 [of the MFMA];

- (c) the municipality has failed to make any other payment as and when due, which individually or in the aggregate is more than an amount as may be prescribed or, if none is prescribed, more than two per cent of the municipality's budgeted operating expenditure; or
- (d) the municipality's failure to meet its financial commitments has impacted, or is likely to impact, on the availability or price of credit to other municipalities.

In this regard, the National and Provincial Treasuries are utilising the criteria as per Sections 138 and 140 of the MFMA to identify and monitor municipalities that display <u>one or more</u> of the indicators of serious financial problems on a quarterly basis based on the MFMA Section 71 (data string) reports.

The results of the assessment against the above criteria are set out in Annexure J. However, the reliability and credibility of the MFMA Section 71 reports are a serious concern for KZN Provincial Treasury due to the quality of the data strings submitted by municipalities. It is noted that certain municipalities experience challenges with their financial systems as well as with the capturing of financial data in accordance with the mSCOA segments. These problems cause errors in the data strings submitted by municipalities as well as inaccuracies in the financial information relating to cash flow (reflecting unrealistic Cash and cash equivalents balances) and balance sheet budgeting. As a result, some of the municipalities identified as having serious financial problems based on the MFMA Section 71 reports are questionable. For example, 32 municipalities in the province have been flagged as meeting the criteria for having serious financial problems based on the AFMA Section 71 figures, however, upon further scrutiny, 19 of the municipalities (list and details as reflected in Annexure J) do not appear to have financial problems due to the following:

- The data strings of eight (8) of the 32 municipalities are incorrect due to inaccurate reporting by the municipalities;
- The existence of Creditors over R1 million that are owed for more than 90 days are due to Retentions and/or disputes with service providers for seven (7) of the 32 municipalities;
- The Operating deficit in excess of 5 percent for one (1) municipality was in line with the municipality's budget but is not a sign of financial distress; and
- The negative audit opinion was the only criteria displayed for three (3) municipalities however, these municipalities do not display any other signs of financial problems as at the end of the first quarter of the 2022/23 financial year.

The remaining 13 municipalities have been identified as meeting the criteria for having serious financial problems as shown in Table 10.

Included in the list of the 13 municipalities identified as meeting the criteria for having financial problems are seven (7) municipalities which are listed in Table 11 that have also been identified by National Treasury as being in financial distress. In addition, six (6) of the seven (7) municipalities listed in Table 11 are also under intervention in terms of Section 139(1)(b) of the Constitution.

Provincial Treasury is supporting five (5) of the seven (7) municipalities in financial distress whilst the Msunduzi Local Municipality, is being supported by National Treasury. Finance experts have been deployed to the uMkhanyakude, uThukela and uMzinyathi District Municipalities as well as the Mpofana Local Municipality. Financial management support continued at the Mtubatuba Local Municipality during the 2022/23 financial year. Support from the deployed Finance experts commenced during the latter part of 2021/22 and continued during the 2022/23 financial year. The AbaQulusi Local Municipality declined the financial management support offered to them for the 2022/23 financial year as the municipality has appointed their own consultants.

The remaining six (6) municipalities shown in Table 12 also meet the criteria for having financial problems based on the financial performance as at the end of quarter three of the 2022/23 financial year and will need to be closely monitored going forward.

During the second quarter of the 2022/23 financial year, letters were sent from Provincial Treasury to 28 municipalities that met the criteria of having financial problems. Municipalities were requested to table the letters to their Councils. Fifteen (15) of the 28 municipalities complied with this request and submitted the relevant Council resolutions, however despite all the efforts made by the PT team to convince them, the remaining 13 municipalities in Table 13 did not table their letters to their Councils.

2.8 Non Compliance with the MFMA Reporting Requirements

KZN Provincial Treasury uses the monthly In-Year reports, creditors, debtors and conditional grants reports to produce the MFMA Section 71(7) Consolidated Municipal Budgets Performance Report.

As at 14 February 2023, only one (1) municipality did not submit their data strings for Month 07 within 10 working days after the end of January 2023 as required by Section 71(1) of the MFMA and was therefore issued a non-compliance letter. Subsequent to Provincial Treasury officials engaging the non-compliant municipality, the outstanding data string was submitted.

As at 14 March 2023, two (2) municipalities did not submit their data strings for Month 08 within 10 working days after the end of February 2023 as required by Section 71(1) of the MFMA and were therefore issued the municipalities with non-compliance letters. Subsequent to Provincial Treasury officials engaging the non-compliant municipalities, both the municipalities submitted their data strings submitted their outstanding data strings.

As at 18 April 2023, three (3) municipalities did not submit their data strings for Month 09 within 10 working days after the end of March 2023 as required by Section 71(1) of the MFMA and were therefore issued with the municipalities with non-compliance letters. Subsequent to Provincial Treasury officials engaging the non-compliant municipalities, all three municipalities submitted their outstanding data strings.

Name of data strings	Period	Non-compliant municipalities
In Year Reporting - Monthly Data strings	January 2023 Outstanding submissions as at 14 February 2023	Jozini
In Year Reporting - Monthly Data strings	February 2023 Outstanding submissions as at 14 March 2023	Nongoma
Age Creditors	February 2023 Outstanding submissions as at 14 March 2023	Nongoma, Nkandla
Age Debtors	February 2023 Outstanding submissions as at 14 March 2023	Nongoma, Nkandla
In Year Reporting - Monthly Data strings	March 2023 Outstanding submissions as at 18 April 2023	eMadlangeni, Maphumulo
Age Creditors	March 2023 Outstanding submissions as at 18 April 2023	Nongoma
Age Debtors	March 2023 Outstanding submissions as at 18 April 2023	Nongoma

Source: NT Igdatabase

2.9 Conclusion

Whilst Provincial Treasury would continue supporting municipalities, the primary responsibility to avoid, identify and resolve financial problems in a municipality rests with the municipality itself as per Sections 61, 62, 63, 64, 65, 81 and 135 of the MFMA. It is therefore incumbent upon the political and administrative leadership at the municipalities to be vigilant with regard to early identification of financial problems that would threaten their service delivery obligations

		Municipality meting Comments one or more critria for financial problems
KZN2000	eThekwini	The outstanding Creditors are attributable to: (1) Retentions; (2) Disputes with suppliers; (3) Rejected payments attributable to discrepancies between details on the Central Supplier Database (CSD) and the payment details as per the invoices. Therefore, there are no financial problems at the municipality.
	uMdoni uMzumbe	. TRUE While the municipality reported Creditors outstanding for more than 90 days, there are no apparent financial problems at the municipality as the long outstanding Creditors are due to Retentions and Disputes with the suppliers. Furthermore, the municipality reported negative balances for cash cash equivalents balance of NIL at the begining of the year. These are therefore not signs of financial distress in the municipality.
	uMuziwabantu Ray Nkonyeni	TRUE The municipality reported an Operating deficit of R32.4 million or 22.9 percent of Revenue which is in excess of 5 percent, however the municipality had budgeted for an Operating deficit of R57.3 million however the municipality has indicated that they are currently underspending certain line it do not anticipate having an Operating deficit of R57.3 million as at the end of the financial year.
	Ugu DM	Register of the operating and the operating and the operating and the operating and the operating expenditure that resulted in the deficit is a non-cash expenditure of R212.6 million for Umgeni Water Board debt. The municipality reported an Operating deficit amounting to R68.4 million or 6.8 percent of Revenue which is in excess of 5 percent, however included in the Operating expenditure that resulted in the deficit is a non-cash expenditure of R212.6 million for Depreciation and amortisation.
	uMshwathi uMngeni	TRUE The municipality has indicated that the R2.7 million reported as Creditors outstanding for more than 90 days are due to disputes with the suppliers and is not a sign of financial distress in the municipality.
KZN223	Mpofana	The Mpofana Local Municipality is one of the municipalities identified by National Treasury to be in financial distress. The municipality is currently under intervention in terms of Section 139(1)(b) of the Constitution. The municipality has a long outstanding debt from Eskom which is reported as C over 90 days and is still negotiating a payment plan with Eskom for the outstanding debt. The municipality is suil not monitoring and controlling expenditure which has resulted in a significant Operating deficit.
KZN225	iMpendle Msunduzi Mkhambathini	. The Msunduzi Local Municipality is one of the municipalities identified by National Treasury to be in financial distress. The municipality is currently under intervention in terms of Section 139(1)(b) of the Constitution. The municipality is currently experiencing cash flow changes as they have noted decreased cash inflows within the past year which they believe is attributable to the effect of the COVID-19 pandemic. The municipality is Electricity and Water debts have grown in the meantime to significant amounts therefore contributing to a significant Creditor total which is evidence of the of serious financial problems at the municipality. The municipality has defaulted on their repayment plan with Umgeri Water Board while Eskom has indicated its intention to start legal processes regarding the outstanding debt.
KZN227	Mknambatnini Richmond uMgungundlovu DM	TRUE The municipality has indicated that the R4.2 million reported as Creditors outstanding for more than 90 days are due to disputes with the suppliers and is not a sign of financial distress in the municipality.
	Okňahľamba	The municipality indicated that the MFMA Section 71 report submitted incorrectly reflected negative R3.1 million as at 31 March 2023 as opposed to R59.6 million and R45 million as per the Bank reconciliation and Investment register respectively. Therefore, the correct Cash and cash equival balance is R104.6 million as at the end of the third quarter of the 2022/23 financial year. The MFMA Section 71 report as at 31 December 2022 reflected negative R1.2 million as opposed to R59.3 million and R45.1 million as per the reviewed Bank reconciliation and Investment register respectively. Therefore, the correct Cash and cash equival balance is R104.6 million as at the end of the third quarter of the 2022/23 financial year. The WFMA Section 71 report as at 31 December 2022 reflected negative R1.2 million as opposed to R59.3 million and R45.1 million as per the reviewed Bank reconciliation and Investment register respectively. Therefore, the correct Cash and cash equival the correct Cash and cash equival to the correct Cash and cash equivalents balance is R97.4 million as at the end of the second quarter of the 2022/23 financial year. There are thus no financial problems at the municipality indicated that they are engaging with their system vendor to ensure accurate r going forward.
KZN237	iNkosi Langalibalele	TRUE The municipality received a qualified audit opinion in the 2021/22 financial year as the municipality did not correctly record all items of Property, Plant and Equipment in accordance with GRAP 17, Property, Plant and Equipment. The municipality has an audit action plan which includes a plan to the qualification issue. Thus, the qualification matter is not an indication of financial distress.
	Alfred Duma uThukela DM	TRUE The uThukela District Municipality is one of the municipalities identified by National Treasury to be in financial distress. The municipality is currently under intervention in terms of Section 139(1)(b) of the Constitution. The Creditors over 90 days are attributed to the unfavourable cash position at municipality. The municipality indicated that the process of finalising the new repayment plans with Umgeni water and the Department of Water and Sanitation is in progress. It should however be noted that the Creditors over 90 days of R14.4 million is significantly understated in relation to the
KZN241	eNdumeni	outstanding balance of R185 million in the vorm 120 days category as per the MFMA Section 41 report at the end of March 2023. The minispanse in regulation of the MFMA Section 41 report at the end of March 2023. The minispanse in regulation of the MFMA Section 41 report at the end of March 2023. The minispanse in regulation of the MFMA Section 41 report at the end of March 2023.
		The municipality further approved an unfunded Adjustments Budget for the 2022/23 financial year which was not accompanied by an updated Budget funding plan. The municipality appears to facing cash flow challenges.
KZN244	Nquthu uMsinga uMvoti	TRUE The only criteria met by the municipality is a Negative Audit Opinion for 2021/22. The municipality does not appear to be facing any cash flow challenges.
DC24	uMzinyathi DM	TRUE The municipality indicated that the Creditors balance of R195.4 million in the over 90 days' category is due to the financial difficulties currently being faced by the municipality. The municipality is also currently under intervention in terms of Section 139(1)(b) of the Constitution and has an Interin Committee in place to assist with the management of the payment of its Creditors.
1/71/252	Newcastle	The municipality further approved an unfunded Adjustments Budget for the 2022/23 financial year which was not accompanied by an updated Budget funding plan. The municipality is currently facing cash flow challenges.
KZN252	NewCastle	payment agreement with Eskom to pay the arrear amount over a period of time with the final instalment being due in August 2023. The municipality has further confirmed that even though they owe uThukela Water for bulk water supply, there is however no payment arrangement in place to s debt. The municipality has indicated that the discussions between the Newcastle Local Municipality and uThukela Water regarding the payment agreement with respect to the arrear debt are still underway and have not been finalised. The municipality has understated their Trade creditors total as their MFMA Section 71 Creditors Quarter three data string does not include the aged Bulk electricity debt owed to Eskom and the aged Bulk water owed to uThukela Water as at 31 March 2023.
(ZN253	eMadlangeni	The municipality further approved an unfunded Adjustments Budget for the 2022/23 financial year together with an updated Budget funding plan which was assessed as being credible by Provincial Treasury. The municipality is currently facing cash flow challenges.
79.054	De la construcción de la	The municipality further approved an unfunded Adjustments Budget for the 2022/23 financial year which was not accompanied by an updated Budget funding plan. The municipality appears to be facing cash flow challenges.
	Dannhauser Amajuba DM	TWUE The municipality has attributed the Creditors in the over 90 days category to the Bulk water owed to uThukela Water which has been outstanding from prior years and has been carried over to the current financial year. The municipality currently has a payment arrangement of R520 000 per n uThukela Water which commenced from 31 August 2022 in this regard, however they have indicated that they have not made payment, whilst the current account is being paid.
		The municipality further approved an unfunded Adjustments Budget for the 2022/23 financial year which was not accompanied by an updated Budget funding plan. The municipality appears to be currently facing cash flow challenges.
KZN261	eDumbe	The indicated that they had Cash and cash equivalents of R22.6 million as at the end of March 2023 as per their Bank statements. The municipality attributed the negative Cash and cash equivalents of R96.6 million and R133.7 million reported at the end of Quarter two and Quarter three res
KZN262	uPhongolo	TRUE The municipality indicated that the Creditors outstanding for greater than 90 Days is attributable to incorrect reporting. The municipality will review the Creditors reported and amend accordingly. The municipality is investigating the accuracy of the amount outstanding in greater than 90 Days of The indicated that they had Cash and cash equivalents of R67.4 million as at the end of Manch 2023 as per their Bank Reconciliation Statements. The municipality attributed the negative Cash and cash equivalents of R62.1 million and R130.4 million reported at the end of Quarter two and Quarter two and Quarter two the Creditors vertively to challenges with cash flow reporting. Any verporting. Any changed required will be implemented in the nex reporting period.
KZN263	AbaQulusi	TRUE The municipality has indicated that the R1.4 million of the Creditors outstanding as at 31 March 2023 in the over 90 days' category is attributable to that the municipality financial system does not process payments to suppliers that have issues on the Central Supplier Database (CSD) such as matters. In addition, the municipality is one of the municipality is identified by National Treasury to be in financial distress. The municipality appears to be facing financial problems as it has approved an unfunded 2022/23 Adjustments Budget together with an updated Budget funding plan which
KZN265	Nongoma	assessed as not being credible by Provincial Treasury. TRUE The indicated that they had Cash and cash equivalents of R38.7 million as at the end of March 2023 as per their Bank Reconciliation Statements. The municipality attributed the negative Cash and cash equivalents of R225 000 and R255 000 million reported at the end of Quarter two and Qu
KZN266	Ulundi	three respectively to challenges with cash flow reporting. TRUE The municipality has a long outstanding debt with Eskom and the municipality is unable to meet its payment obligations due to financial challenges. The Ulundi Local Municipality defaulted on the repayment plan and a breach notice was issued by Eskom on 10 March 2022. As a result, the
DC26	Zululand DM	Intergovernmental Relations Framework Act, Act 13 of 2005 (IRFA) process was initiated which is now at the mediation stage with the KZN Department of Co-Operative Governance and Traditional Affairs (CoGTA) acting as mediator. The municipality was advised to engage with Eskom with requesting the Eskom to revise and extend the payment period from 3 to 5 years, which appears to be a reasonable period based on the financial constraints faced by Ulundi Local Municipality. However, to date, Eskom as not responded to the municipality's request to revise a payment plant Therefore, since the beginning of 2022, there has been no engagement between Eskom and Ulundi.
KZN271	uMhlabuyalingana Jozini	TRUE The Jozini Local Municipality is still experiencing challenges in the reporting of cash flow information which the municipality attributed to mapping challenges within the financial system. As per the municipality the negative closing cash and equivalents balance of R10.6 million reflected in the M
	Mtubatuba	Section 71 is inaccurate with the municipality ending Quarter 3 with a closing cash and cash equivalents balance of R98.7 million. The municipality submitted bank statements to support the balance of R98.7 million. TRUE The Mtubatuba Local Municipality is one of the municipalities identified by National Treasury to be in financial distress. The municipality is currently under intervention in terms of Section 139(1)(b) of the Constitution. As part of the intervention process, all payments to Creditors are first approve Interim Finance Committee which has resulted in some delays in payments. The municipality further indicated that Creditors outstanding for a period of greater than 30 days are due to: > The current cash position of the municipality therefore Creditors are priorited on a priority basis.
		> According to the municipality. Creditors outstanding for a period of greater than 90 days are mainly due to disputes where work performed before the commencement of the Section 139 Intervention could not be verified and will therefore remain on the Creditors list until disputes are resolve. The Mtubatuba Local Municipality is still experiencing challenges in the use of various modules on the financial system mainly with the grants, liabilities and cash flow reporting where extracted reports from the financial system reflecting inaccurate information to resolve and information. This has resulted in the var MFMA Section 71 reports in the form the form grants, capital, debtors, creditors and cash flows. As per the municipality the system service provider is on site to rectify the MFMA Section 71 reports in the for the quartery werflection.
		MHMA Section /1 reports relecting inaccurate information for grants, capital, debtors, creations and cash nows. As per the municipality the system service provider is on site to receitly the MHMA Section /1 reports in time for the quarterly vertication process. The negative Cash and cash equivalent balance of R182 000 as at 31 March 2023 is clearly inaccurate. As per the municipality prepared Schedule C and accompanying narrative report submitted for March 2023, the municipality has R45.1 million as Cash and cash equivalent balance and F million for Creditors as at the end of March 2023. Of the total outstanding Creditors balance of R23.2 million, an amount of R18.5 million or 79 percent is outstanding for a period of greater than 90 days.
KZN276	Big Five Hlabisa	TRUE It should be noted that the Creditors balance reported by the Big Five Hiabias Local Municipality of R4.7 million in the MFMA Section 71 reporting is incorrect due to incorrect mSCOA data string. The correct creditors balance over 90 days amounts to R459 849 as per the Creditors Age analy 31 March 2023 drawn from the financial system on 21 April 2023. Amended data strings for the 3rd quarter will be re-uploaded to the Go-Muni. NT LG Portal during the National Treasury's quarterly verification process.
		According to the municipality, the creditors balance over the 90 days category are due to delays in the capturing of transactions relating to capital projects funded through MIG and also due to the fact that some of the invoices received in previous months had queries that needed to be resolv payment could be made such as differences between information on the Central Supplier Database (CSD) and information from the supplier as reflected on the invoices. These invoices are only paid once the differences are resolved.
DC27	uMkhanyakude DM	TRUE The uMkhanyakude District Municipality is one of the municipalities identified by National Treasury to be in financial distress. The municipality is currently under intervention in terms of Section 139(1)(b) and Section 139(4) of the Constitution due to the fact that the district municipality failed to their 2022/23 Annual Budget before the start of the financial year. The municipality is facing cash flow challenges and as a result, the municipality has included payments of long outstanding Creditors over the next few financial years as a priority as part of their 2022/23 MTREF Budget, 2022/Adjustments Budget and Budget Funding Plan approved by Council.
		The amount reflected in the Over 90 days category for Creditors as at the end of March 2023 is mainly attributable to the bulk water amount owed to Mhiathuze Water and Department of Water and Sanitation (DWS). As part of the Section 139(1)(b) intervention process, all payments to Cre first approved by an Interim Finance Committee (FC), which is chared by the Ministerial Representations. The municipality has a signed memory that the Ministerial Representation. The municipality has a signed the tabulato water amount owed to Mhiathuze Water and Department arear amount with the Ministerial Representations. The municipality sill indicated that they have been able to fully honour the payment agreement as they have been struggling with payment of current invoices, however historical debt has been settled and in the process of catcing up with the current invoices. While the mur has not been making regular payments in regard to Bulk expenditure, the amounts reflected as Over 90 days for Bulk Water and the total Creditors do not present a true reflection of the Creditors balance.
(ZN281 (ZN282	uMfolozi uMhlathuze	TRUE The indicated that they had Cash and cash equivalents of R448.1 million as at the end of March 2023 as per their Bank and Investment Statements. The municipality attributed the negative Cash and cash equivalents of R566.2 million and R494.7 million reported at the end of Quarter two an three respectively to incorrect reporting.
(ZN284 (ZN285	uMlalazi Mthonjaneni	TRUE The municipality indicated that they are experiencing data strings mapping issues when it comes to Cash flow Statement reporting, there is R25 million actual cash available as at 31 March 2023 as per the reviewed Bank reconciliation Statement. The municipality is currently working on resolv
	Nkandla King Cetshwayo DM	system reporting issues for future IYM reporting purpose. The municipality is also working on the Eskom debt relief application for the outstanding R3.3 million as per MFMA circular 123. TRUE The amount reflected in the Over 90 days category for Creditors as at the end of March 2023 of R91.5 million is mainly attributable to the Bulk water amount owed to the uMhiathuze Local Municipality, Umgeni Water and the Department of Water and Sanitation (DWS) which has inflated the treported, due to disputes with the service providers over tariffs charged, as well as the iack of supporting documentation and abstraction amount for quantities by DWS which still need to be resolved. The disputes and negotiations are still in progress. There is no apparent indication of a finan at the municipality. The municipality providers over tariffs charged, as well as the iack of supporting documentation and abstraction amount for quantities by DWS which still need to be resolved. The disputes and negotiations are still in progress. There is no apparent indication of a finan at the municipality. The municipality providers over tariffs charged, as well as the letter set to the min Quantities to puter 1 and Quarter 1 and Quar
KZN293	Mandeni KwaDukuza Ndwedwe	
DC29	Maphumulo iLembe DM Greater Kokstad	
KZN434 KZN435	uBuhlebezwe uMzimkhulu	TRUE The municipality attributed the Creditors balance over 90 days to Retentions where payments have to be withheld until all criteria in relation to each project are met. There are thus no financial problems at the municipality.
	Dr. Nkosazana Dlamini Zuma Harry Gwala DM	The municipality received a qualified audit opinion in the 2021/22 financial year as the Auditor-General could not obtain sufficient appropriate audit evidence that payments made for outsourced business and advisory services included in Contracted services were received, as internal controls adequate to confirm receipt of these services. The municipality provided an audit action plan that includes a plan to address the qualification issue. The municipality reported attributed the the Creditors balance over 90 days to incorrect reporting. The municipality will correct the incorrect report future periods. There are thus no financial problems at the municipality.
