KZN FINANCE MEC CELEBRATES PROVINCIAL TREASURY'S 17TH CONSECUTIVE CLEAN AUDIT OUTCOME

KwaZulu-Natal Finance MEC, Mr. Francois Rodgers, welcomes the department's 17th consecutive clean audit outcome.

This incredible achievement, which has been confirmed by the Auditor-General in her 2024/25 Auditor-General's report, is a direct outcome of sound financial management and strong commitment to ethical conduct in the public service by all officials of the department.

MEC Rodgers said:

"Our resolve to put principles before politics has enabled us to succeed in managing public resources with care whilst fulfilling our mandate."

"This was a team effort, and each member of the team needs to be recognised for their role."

KZN Treasury's audit report for the 2024/25 financial year indicates that there was full compliance with policies and legislation in delivering on the mandate of the department.

Furthermore, that the Annual Financial Statements are fairly presented with no material adjustments and no unauthorised expenditure incurred during the year. The report further indicates that there were no material irregularities and therefore no emphasis of matter in the report.

In addition to managing and distributing the provincial budget, KZN Treasury supports all government departments, public entities, and municipalities in various aspects of financial management disciplines.

MEC Rodgers is committed to expanding provincial Treasury's reach within the public service as part of the mission to establish an ethical and capable state.

ENDS.
