## Economic Development, Tourism and Environmental Affairs

Operational budget	R 2 782 501 274
MEC remuneration	R 1 901 726
Total amount to be appropriated	R 2 784 403 000
Responsible MEC	MEC for Economic Development, Tourism and Environmental Affairs
Administering department	Economic Development, Tourism and Environmental Affairs
Accounting officer	Head: Economic Development, Tourism and Environmental Affairs

### 1. Overview

#### Vision

The vision of the Department of Economic Development, Tourism and Environmental Affairs (EDTEA) is: *Leading the attainment of inclusive and sustainable economic growth for job creation.*

#### Mission statement

The department's mission is to: *Provide leadership and facilitate integrated economic planning, be a catalyst for economic transformation and sustainable development, implement strategies that drive economic growth and promote sound environmental management, create a conducive environment for trade, investment and tourism and monitor and enforce sound business and consumer regulations.*

#### Strategic goals and objectives

**Strategic policy direction:** The strategic focus for EDTEA during the 5-year period is to build a resilient KZN provincial economy that can respond to global factors, stimulating provincial economic development, alignment of functions and purpose of all economic development entities, as well as building a vibrant organisation. The key strategic goals and objectives of the department include integrated economic planning and development in the province, sustainable and inclusive economic growth for job creation, preferred tourism destination in the country, sustainable environmental management and achieve institutional excellence responsive to the needs of the country.

The department has identified the following strategic goals and objectives:

**Lead and co-ordinate integrated economic planning and development.**

- Co-ordinate social partners and other stakeholders in the province.
- Collect, process, maintain and report on economic and other social data.
- Track the implementation of economic interventions.
- Provide research on priority and strategic sectors.
- Develop and maintain an efficient regulatory and governance framework.
- Influence policy direction for economic and infrastructure development.

**Facilitate sustainable and inclusive economic growth to ensure job creation.**

- Facilitate the implementation of economic transformation strategies and policies.
- Implement existing productive and service sector strategies and plans.

- Promote SMMEs and co-operatives.
- Facilitate trade and investment.

***Provide preferred tourism destination in the country.***

- Provide guidance, support and direction in terms of tourism policies, legislation and strategies.
- Implement the KZN Tourism Master Plan.

***Implement sustainable environmental management.***

- Implement environmental management strategies and plans.
- Streamline the process of Environmental Impact Assessments (EIAs).
- Promote and facilitate integrated environmental management through capacity building and awareness raising programmes and projects.

**Core functions**

The department's core functions are summarised as follows:

- To drive the economic development strategies of the province.
- To facilitate strategies to enhance the competitiveness of priority sectors of the economy, in line with the industrial development strategy.
- To promote the development of small business and social enterprises.
- To promote and facilitate economic empowerment programmes.
- To manage the Enterprise Development and Growth Funds.
- To provide an effective and efficient consumer protection service.
- To ensure effective and prudent business regulation in the province.
- To provide effective and efficient environmental management.
- To provide conservation services.

**Legislative mandate**

The legislative mandate of the department largely stems from the following Acts and Regulations:

- Constitution of the Republic of South Africa (Act No. 108 of 1996)
- Public Service Act (Act No. 103 of 1994)
- Public Service Regulations, 2001
- Public Finance Management Act (Act No. 1 of 1999), as amended, and Treasury Regulations
- Labour Relations Act (Act No. 66 of 1995)
- Promotion of Access to Information Act (Act No. 2 of 2000)
- Employment Equity Act (Act No. 55 of 1998)
- Promotion of Administrative Justice Act (Act No. 3 of 2000)
- Basic Conditions of Employment Act (Act No. 75 of 1997)
- The Companies' Act (Act No. 20 of 2004)
- Equality and Prevention of Unfair Discrimination Act (Act No. 4 of 2000)
- KwaZulu-Natal Liquor Licensing Act (Act No. 6 of 2010)
- KwaZulu-Natal Film Commission Act (Act No. 3 of 2010)
- Trade and Investment KZN Act (Act No. 4 of 2010)
- Businesses Act (Act No. 71 of 1991)
- KwaZulu-Natal Dube TradePort Corporation Act (Act No. 2 of 2010)
- South African National Consumer Protection Act (Act No. 68 of 2008) hereafter referred to as the Consumer Protection Act

- KwaZulu-Natal Liquor Licensing Amendment Act (Act No. 3 of 2013)
- KwaZulu-Natal Consumer Protection Act (Act No. 4 of 2013)
- Tourism Act (Act No. 3 of 2014)
- Special Economic Zones Act (Act No. 16 of 2014)

The following bills have been promulgated, and notification of the respective Act numbers is awaited:

- Richards Bay Industrial Development Zone Bill
- Ithala Development Finance Corporation Bill
- Integrated Coastal Management Bill

***Specific Environmental Affairs legislation***

- Environmental Management White Paper, 1997
- Environmental Conservation Amendment Act (Act No. 50 of 2003)
- National Environmental Management Act (NEMA) (Act No. 107 of 1998)
- Atmospheric Pollution Prevention Act (Act No. 45 of 1965)
- Prevention of Environmental Pollution Ordinance (Ordinance No. 21 of 1981)
- NEMA: Air Quality Act (Act No. 39 of 2004)
- Marine Living Resources Act (Act No. 18 of 1998)
- NEMA: EIA Regulations 2006 and Amendments
- Sea Shore Act (Act No. 21 of 1935)
- Municipal Systems Act (Act No. 32 of 2000)
- Spatial Planning and Land Use Management White Paper 2001

***Specific Conservation legislation***

- KwaZulu-Natal Conservation Management Act (Act No. 9 of 1997)
- National Environmental Management Act (NEMA) (Act No. 107 of 1998)
- NEMA: Protected Areas Management Act (Act No. 57 of 2003)
- NEMA: Biodiversity Act (Act No. 10 of 2004)
- National Water Act (Act No. 36 of 1998)
- Marine Living Resources Act (Act No. 18 of 1998)
- National Heritage Resources Act (Act No. 25 of 1999)
- KwaZulu-Natal Heritage Act (Act No. 10 of 1997)
- National Forest Act (Act No. 84 of 1999)
- World Heritage Convention Act (Act No. 49 of 1999)
- Veld and Forest Fire Act (Act No. 101 of 1998)
- Natal Nature Conservation Ordinance (Act No. 15 of 1974)
- Natural Scientific Professions Act (Act No. 27 of 2003)
- Conservation of Agricultural Resources Act (Act No. 43 of 1983)
- Firearms Control Act (Act No. 60 of 2000)
- Expropriation Act (Act No. 63 of 1957)
- Restitution of Land Rights Act (Act No. 22 of 1994)
- Development Facilitation Act (Act No. 67 of 1995)
- Municipal Demarcation Act (Act No. 27 of 1998)

## **2. Review of the 2016/17 financial year**

Section 2 provides a review of 2016/17, outlining the main achievements and progress made by the department, as well as providing a brief discussion on challenges and new developments.

***Integrated economic development***

There were 2 175 youth trained and placed in different technical trades such as boiler making, diesel mechanics, welding, steel fabrication, and plumbing. Furthermore, there were 105 unemployed graduates placed for employment through the National Skills Fund (NSF). Also 155 youth, and five youth companies were exposed in the film industry and television.

The department concluded strategic partnerships with various entities and departments including the promotion of the Black Industrialists programme which enabled the department to assist by forwarding 13 KZN-based black industrialist organisations to the national programme for funding support. Additionally, a strategic partnership with the National B-BBEE Commission was finalised to focus on B-BBEE Policy compliance matters across the province. This necessitated the roll-out of B-BBEE Policy advocacy, as well as awareness and information dissemination workshops across the province. Moreover, a strategic partnership was concluded with the Durban Chamber of Commerce on women economic empowerment which led to the realisation of the KZN Women in Business Directory. Women entrepreneurs were trained in various areas such as sewing, enterprise development and business management.

In line with its purpose of supporting the development of sustainable SMMEs and co-operatives/social enterprises, the department provided support to small enterprises. EDTEA signed an agreement with the Coastal TVET College to train co-operatives. In this regard, 307 co-operatives were trained in business management skills, including management and good governance of co-operatives.

A total of 692 SMMEs were trained in business management skills, entrepreneurship, applied innovative thinking, principles of costing and pricing and business plan formulation. A total of 223 SMMEs were assisted to register with the Companies and Intellectual Property Commission (CIPC) as co-operative entities, and 364 individuals registered their businesses with the CIPC.

The department continued to offer bursaries to 70 students in respect of the Diploma in Management of Co-operatives offered by the University of Zululand (UNIZULU) and provided financial support to 62 students who were registered for a Bachelor of Commerce degree.

***Trade and sector development***

A detailed business plan, implementation and concept designs for the Ladysmith Black Mambazo Music Academy were developed. Three hectares of land were donated by the Alfred Duma Municipality, thereby providing the site where the academy will be constructed.

The department managed to acquire land for a leather processing hub at Plessislaer in the uMgungundlovu District and the Department of Trade and Industry adopted the hub as a national pilot project, and a steering committee of experts was established. Investment promotion and facilitation strategies for the Harry Gwala, uMkhanyakude and Zululand District Municipalities were completed. The province hosted the 3<sup>rd</sup> annual KZN Economic Council round-table panel discussion which was broadcast on CNBC Africa.

The regional airport rehabilitation project, which provides for fencing, upgrading of runways and renovations to terminal buildings, commenced at the Mkuze and Ladysmith Airports. The department completed a draft feasibility study for the Aerotropolis Institute.

***Business regulation and governance***

The department facilitated the enrolment of businesses into the National Department of Small Business Development's Informal and Micro Enterprises Development programme (IMEDP). This is a grant offered to provide developmental support to informal and micro businesses that are operating in townships and rural areas and are owned by historically disadvantaged individuals. A total of 1 300 informal economy traders representing all 11 districts in the province participated in this programme.

The department commissioned a Business Licensing Project Management Unit (PMU) pilot project within the uMgungundlovu District Municipality. The main objective of the project was to provide specialised and technical support to the four local municipalities within the district, namely Mkhambathini, iMpendle, uMshwathi and Mpofana in relation to the execution of the business licensing functions as provided in the Business Act. The pilot project was successful and there are plans to extend it to other municipalities in 2017/18.

The department conducted joint inspections of liquor outlets with other government agencies and departments by establishing a Joint Inspection Forum. Research in terms of the liquor industry was finalised, as well as initiatives to come up with methods of how to identify outlets within 500 metres of schools and places of worship.

#### ***Economic planning***

The department conducted a wide range of economic research studies. These included a study on the poultry industry, gas-to-power initiative and manufacturing market intelligence. The department partnered with a number of reputable tertiary and scientific bodies to implement a wide range of action research projects such as the KZN University Technology Transfer programme, bio-energy research, industrial symbiosis and innovation forums. It also formulated key economic strategies for the province such as the Innovation Strategy. The department continued to be the repository of economic data in the province. The quarterly publication of Ezomnotho was distributed and is also available online on EDTEA's website. The initiative to establish a centralised statistical database for the province was boosted by Statistics SA agreeing to partner with the department in the implementation of this initiative.

#### ***Tourism***

The department continued to focus on the implementation of the KZN Tourism MasterPlan and thus established the Tourism Masterplan Implementation and Monitoring Committee comprising various stakeholders. Community-based tourism projects remained the department's priority as these are aimed at enhancing rural tourism development. The department continued with a partnership with Africa Ignite and Ezemvelo KwaZulu-Natal Wildlife (EKZNW) in the implementation of key projects. As part of youth development, 59 unemployed graduates and in-service trainees were placed in various municipalities for a period of six to 12 months.

In compliance with the National and Provincial Tourism Act, the department continued to manage tourist guides and tourism businesses. In growing the provincial economy, the department hosted the KZN is Summer campaign, as well as the Tourism Entrepreneurship Careers Expo aimed at profiling the province as a preferred destination of choice, thereby contributing to the growth of domestic tourism and also exposing learners to career opportunities in the tourism sector.

#### ***Environmental Affairs***

The department managed to complete 98 per cent of EIAs within the legislated timeframes. In terms of waste management licences, 75 per cent of licences were finalised within targeted timeframes. All district municipalities signed implementation protocols for rolling out the Environmental Management Inspectors (EMIs) programme and this resulted in an increase in the number of EMIs designated in the province.

The department achieved 80 per cent of facilities with Atmospheric Emission Licences reporting to the National Atmospheric Emissions Inventory System (NAEIS). The Dust and Passive Sampling project for inland districts was initiated. The objective of this study is to acquire baseline air quality data for areas within KZN where no or little air quality data exists. The study is also aimed to assist in identifying problem areas where continuous monitors can be installed.

#### ***Ithala Development Finance Corporation (Ithala)***

Ithala is a provincial development finance institution that focuses on economic development through the provision of financial and non-financial services to businesses and individuals.

In line with the revised properties' strategy, market-related rentals were applied to renewal and new tenant contracts and recovery of utilities from tenants, as well as collections improved. The 2016/17 year has been a challenging year with an increase in the number of business failures. The growth in new business has proven to be slow, however, an increase in structured empowerment transactions should yield a positive outcome in the overall loan book growth.

The 'build phase' of Ithala SOC Limited's turn-around strategy has been implemented, although a key challenge remains meeting the non-interest income targets. This is largely ascribed to the current macroeconomic conditions and product implementation delays, particularly in Ithala's Insurance and Ithala Connect business units.

***KwaZulu-Natal Sharks Board (KZNSB)***

The core function of the KZNSB is the protection of bathers against shark attacks at designated protected beaches along the KZN coastline. This mandate is fulfilled through the installation and maintenance of shark safety gear deployed to prevent shark attacks at 37 protected beaches. The KZNSB maintained 22.12 km of shark netting and 107 drum-lines off the KZN coast. The KZNSB continued with research on the biodiversity of sharks and non-lethal shark repellent cable technology. The shark repellent prototype cable was successfully tested against white sharks at Mossel Bay.

The Maritime Centre of Excellence (MCOE) was established in 2012 with the mandate to facilitate maritime skills development in the province, in line with the KZN Integrated Maritime Strategy. A total of 342 learners were trained in 2016. A 100 per cent graduate placement was achieved for commercial diving and boat building students, of which 36 deaf students are being trained in boat building. There was an extension of scope of accreditation by the Transport Education Training Authority (TETA) for the Higher Certificate in Supply Chain Management (SCM), and the first group of students started in the period under review. Another new programme offered is recreational diving in support of coastal and marine tourism.

***KZN Tourism Authority (TKZN)***

Key outputs for 2016/17 included partnerships with major international tour operators in order to drive greater international tourist numbers into KZN. TKZN signed Joint Marketing Agreements (JMAs) with strategic tour operators in Europe (Germany, UK, France, Turkey, Poland, Russia), the Americas (USA, Canada, Brazil, Argentina), Asia (India, China) and Africa (Zimbabwe, Mozambique, Botswana, Zambia).

TKZN also partnered with local and regional media, such as East Coast Radio, Jacaranda FM, Star Radio (Zimbabwe) and Phoenix FM (Zambia) to promote KZN as a must-visit destination, as well as to attract more travellers from the SADC region through the Connecting Africa campaign. This campaign boasts an audience of over 13 million people, with the aim of boosting direct routes from Durban to Harare and Lusaka. Furthermore, TKZN built a stronger presence on various social media platforms to share real time information on the destination.

The entity hosted a number of key international business events, through the Durban KZN Convention Bureau (hereafter referred to as the Convention Bureau), which collectively generated over R1 billion in terms of the total macro-economic impact.

A Tourism Incubation programme saw 20 small black enterprises receive support through advisory services, training, market access through participation at domestic and international trade and consumer shows, as well as business-to-business linkages.

***Dube TradePort Corporation (DTPC)***

DTPC is mandated to facilitate economic growth by developing the Dube TradePort, attracting domestic and foreign direct investment to the province and facilitating imports and exports. The entity plays a multi-faceted role in both enabling and driving the development of air logistics businesses and creating a physical environment for the implementation of the re-industrialisation policy.

In 2016/17, the DTP IDZ was converted to a SEZ, with the adoption of the SEZ Regulations. A lease was signed with a major pharmaceutical manufacturer to locate at the Dube TradeZone, and work is underway on the design of the new facility. The road re-alignment and guardhouses at TradeZone 1 will be completed in 2016/17, along with the technical facility, such as a chemical store, cold room, three storage areas with associated loading areas, etc., at the AgriZone. The construction of the double underground basement at Dube City continued and is expected to be completed in the first half of 2017/18. Due to budget cuts in 2016/17, a number of construction projects were delayed. This included the provision of bulk infrastructure, which will slow the rate of private sector investment in the precinct, as well as construction projects such as the multi-storey parkade on blocks A and B at Dube City.

The number of passengers and air cargo volumes grew substantially due to the addition of three new air routes operating at the King Shaka International Airport (KSIA) from 2015/16. This growth is set to continue after Ethiopian Airlines increased the frequency of their flights to KSIA from July 2016, and Air Seychelles announced the introduction of new direct flights to Durban bi-weekly from March 2017.

**Trade and Investment KwaZulu-Natal (TIK)**

TIK's mandate is to attract foreign and domestic investment, and to promote exports and export capacity. TIK continued to focus on the promotion of key investment opportunities through marketing and project packaging efforts, particularly within the mining, construction, agriculture, automotive and metal sectors of the economy.

TIK set up a bridging finance facility to assist companies that have been approved for investment incentives by the DTI and National Empowerment Fund. TIK also focused on the establishment of a one-stop-shop, which is aimed at establishing a technical support centre which will advise and assist various institutions in KZN in investment matters. The entity assisted with the creation of 1 870 permanent and temporary jobs through various programmes and initiatives from companies that have invested in the province.

TIK assisted 71 companies to develop new international markets through various platforms, such as exhibitions, trade fairs, etc., which obtained orders worth R45 million. The entity also assisted 78 companies with obtaining export-related training. TIK participated in the World Routes programme, which was targeted at attracting airlines to the province and the entity engaged with Qatar, Ethiopian and Emirates airlines. This effort will continue in 2017/18.

**Richards Bay Industrial Development Zone (RBIDZ)**

RBIDZ is a public entity established to undertake the development of industrial land in the Richards Bay area, in line with a 50-year Master Plan. The SEZ Act and regulations were promulgated. Phase 1A was transferred to the RBIDZ. The Phase 1A Gate complex was launched and the Customs Control Area (CCA) status was granted, with more than 50 per cent of land allocated to locators. The lease for the Bayside office space was signed and construction commenced, with the office move envisaged for the fourth quarter of 2016/17. The EIA for Phase 1F was finally granted and the Alumina Allee Road, Midway Road and Indus-substation upgrades commenced. The transfer of Phase 1F into the RBIDZ is expected to be finalised by year-end.

A piping plant in Phase 1A became operational and a paint manufacturing investor is set to begin construction of its factory in 2016/17. Several agreements worth R650 million were signed with investors. These are for kraft paper, electric cables and solar panel manufacturing companies. RBIDZ (Phase 1D) was selected to host a 2 000 Megawatts gas-to-power plant.

RBIDZ continues to face several challenges, especially the onerous, protracted and often misaligned approval processes for EIAs, Water Use Licence Applications (WULA), and Spatial Planning and Land Use Management Act (SPLUMA) requirements. The acquisition of land is also a significant challenge.

**KZN Liquor Authority (KZNLA)**

The entity continued to implement the KZN Liquor Licensing Act and renewed 6 639 licence holders for trade. Two training sessions were held for local committee members on the Act, policies, as well as sharing of best practices. The process of lodging renewal applications in terms of the new legislation at district level continued. The KZNLA launched 55 blitz operations, as a result of which 148 illegal outlets were closed.

KZNLA also reviewed and upgraded educational materials and programmes to address challenges experienced by the liquor industry. Seventy nine workshops and 46 school programmes were conducted to facilitate improved interactions between traders, the public and the KZNLA.

**Ezemvelo KZN Wildlife (EKZNW)**

EKZNW is a public entity that directs the management of biodiversity conservation within KZN, including protected areas. This encompasses the development and promotion of eco-tourism facilities within protected areas, as well as establishing good relationships with various communities residing adjacent to the protected areas.

In 2016/17, 123 people were arrested for rhino poaching related crimes resulting in an increase in the number and assortment of poaching equipment confiscated, such as firearms, axes, darting equipment, etc. EKZNW implemented additional revenue generating initiatives, such as the Mahala Fridays (free entry for schools and for the first 100 visitors to protected areas). The drought had a negative impact on the budget as the entity had to procure water tankers to deliver water to resorts such as Ithala and Hluhluwe Imfolozi

Park. Due to budget cuts, the entity was not able to fill any of its critical vacancies, and this impacted negatively on service delivery. Furthermore, due to resource constraints, the entity was not able to adequately maintain and/or upgrade its facilities and tourism assets, and revenue was below target. As a result, major business development initiatives were not implemented, largely due to resource constraints and competing priorities for funding.

***KwaZulu-Natal Film Commission (KZNFC)***

In pursuing its strategic objective to promote and market KZN as a choice of film destination, the KZNFC increased its visibility through attending eight film festivals/markets and engaging with various stakeholders in the film industry. A number of filmmakers met KZNFC during the international festivals and made follow-ups with the entity on location scouting. Delegations of Nigerian and Indian producers were hosted in KZN following meetings at the international film festival. These platforms were used to sell the value proposition of KZN's unique locations, culture and history. Currently three co-production films are underway.

The KZN Film Fund funded 35 development, production and distribution projects for KZN filmmakers and awarded bursaries to 20 students studying towards various courses associated with film in tertiary institutions in KZN. KZNFC also engaged professional organisations in the film industry to assist in conducting short courses in filmmaking. The areas identified were script development, production, marketing and distribution. In addition, KZNFC hosted the Simon Mabhunu Sabela Awards to showcase the film industry in KZN and award talent within the South African film industry at large.

The KZN Film Cluster was established and launched. These facilities provide the necessary equipment so that emerging filmmakers are able to produce quality content at lower costs than would be charged by the industry.

### **3. Outlook for the 2017/18 financial year**

Section 3 looks at the key areas of 2017/18, outlining what the department is hoping to achieve, as well as briefly looking at the challenges facing the department, and proposed new developments.

The bulk of the department's budget allocation caters for transfers to its entities such as DTPC, EKZWN, TKZN, TIK, RBIDZ and KZNLA. The budget provides for the Radical Agrarian Socio-Economic Transformation (RASET) strategy, the One Village One Product Craft Enterprise, implementation of industrial economic hubs in all districts, the Umthayi Festival, the Tourism Enterprise career expo, the World Economic Forum 2017, as well as the Invasive Alien Species Programme (IASP) (which is specifically and exclusively appropriated). The department will provide support to SMMEs and co-operatives and will administer the KZN Youth Technical Short Skills Training programme, which is linked to employment placement opportunities, where youth with grade 10 and above are trained on various technical skills in the Manufacturing, Engineering and Related Services Sector Education and Training Authority and construction SETA trades covering diesel mechanics, welding, fitter and turning, steel work, bricklaying and plumbing.

***Integrated economic development***

The department will continue to prioritise research on the status of women businesses in KZN. This will assist to create a provincial women economic empowerment business baseline that will inform the future strategic direction. B-BBEE verification of provincial departments, as well as EDTEA's public entities, will be conducted. This will help give an indication of the level of B-BBEE compliance within government.

The department will pursue various specific interventions aimed at maximising implementation of radical economic transformation strategies in the province. The department will also continue providing support to small enterprises, including capacity building and training, funding, mentorship/incubation interventions and business advisory services.

In partnership with the Department of Small Business Development and the International Labour Organisation (ILO), the department will prioritise the development of the KZN Small Enterprise Data Register and Information Management System, which will be utilised as a tool for tracking the status and

contribution by the small enterprise sector to the provincial economy. Furthermore, this tool will assist in collecting and collating data and information to report against the PGDP indicators, and should lead to an increase in the number of SMMEs and co-operatives established, an increase in the survival rate of SMMEs and co-operatives, as well as an increase in the number of jobs generated by SMMEs and co-operatives.

***Trade and sector development***

The department will implement projects such as RASET, industrial economic hubs, as well as the Aerotropolis strategy, etc., so as to develop the economy and enhance skills capabilities in those areas, with a view to create employment opportunities and ensure transformation in the provincial economy.

***Business regulation and governance***

The department will continue with the establishment of the Joint Inspection Forum, in order to conduct joint inspections of businesses and enforcements along with other state agencies to ensure compliance with the Consumer Protection Act and Business Regulations. The department will continue to embark on financial literacy and consumer education workshops at primary schools, secondary schools and tertiary institutions.

***Economic planning***

The department will enter into a structured partnership with various tertiary institutions to undertake and manage research in the province. This partnership will assist to tap into research expertise possessed by local tertiary institutions and to get post graduate students interested in economic research. EDTEA will continue implementing research initiatives, such as the KZN University Technology Transfer programme and industrial symbiosis initiatives which are beginning to yield tangible outcomes. In 2017/18, innovation forums will be launched to stimulate innovation in the province. Activities such as the development of an innovation toolkit and portal will be undertaken, as well as the development of an e-Learning platform.

***Tourism***

As part of the continued implementation of the 2030 KZN Tourism Master Plan, various high priority projects will be implemented, namely completion of the hospitality tourism levy study, as well as continued implementation of community-based tourism projects through EKZNW and Africa Ignite. To determine the level of transformation in KZN, a baseline study will be undertaken in 2017/18. In driving the tourism transformation objectives, the department plans to implement programmes that promote emerging enterprises and ensure professionalisation of tourist guides. To position KZN as the preferred tourism destination in the country and grow visitor numbers, the department will commission a route development strategy and continue to host a number of provincial, national and international events. The department will also strengthen its focus on the coastal, marine and wildlife economy, with a view to open more opportunities for community participation and emerging enterprises.

***Environmental Affairs***

The department will ensure that 98 per cent of EIA applications are finalised within the legislated timeframe, and will also strive to achieve the target of 85 per cent of waste management licences to be finalised within time frames.

New facilities with Atmospheric Emission Licences will be required to report to the NAEIS. The Dust and Passive Sampling project for inland districts will continue in 2017/18. The greenhouse gas emission inventory aimed at quantifying the levels emitted by the province (between 2000 and 2010) is expected to continue in 2017/18. The department is expected to monitor and evaluate the impact of climate change responses and develop a database of all projects aimed at responding to climate change already implemented in the province.

***Ithala Development Finance Corporation (Ithala)***

The strategy for 2017/18 is to strive for future sustainability and viability *via* cost-containment, while simultaneously driving revenue growth. Due to the cash constrained environment that Ithala finds itself in, capital investment will be constrained again in 2017/18.

The focus for 2017/18 will be on new property developments and remodelling of existing retail centres to grow Ithala's investment property portfolio and enhance future revenue generation. The entity foresees challenges in the agricultural sector, due to the drought and its impact on yields. Non-performing loans are

expected to increase given the slow growth in the economy and the increase in the number of business failures and businesses voluntarily applying to be placed under business rescue. The entity expects to continue lending, but loan sizes will be substantially smaller to ensure that the risk is adequately managed.

Ithala SOC Limited's immediate focus is on building its active debit card and insurance customer base and enhancing productivity within its multi-channel distribution network.

The 2017/18 financial year will be characterised by a significant investment in people, systems and processes. The new banking, insurance and treasury systems will continue to be implemented, allowing new products and services to be introduced to the market. Simultaneously, emphasis will be placed on building human resource capabilities across all components of the business.

In the context of the turn-around strategy and the strive for profitability over the longer term, a break-even is budgeted for in 2017/18.

***KwaZulu-Natal Sharks Board (KZNSB)***

The entity will continue to protect bathers at the protected beaches in an environmentally sensitive manner. The entity will continue with research efforts in respect of producing a shark repellent prototype cable. The possibility of a joint venture with the institute which developed and manufactured the previous cable is being investigated. The aim is to take the Shark Repellent Cable development project to its next logical step, budget permitting. The KZNSB will also continue to assist provincial, national and international environmental management agencies and other interested parties through sharing of information. It will also continue to conduct awareness programmes and educational services to scholars.

The entity plans to attend local and international expos and trade shows to vigorously market the activities of KZNSB and the MCOE, while implementing the marketing strategy aimed at increasing the entity's revenue. The MCOE seeks to expand its focus in terms of accredited programmes offered and to increase the number of learners trained to 450 from 352 trained in 2016/17. MCOE will also host a maritime enterprise development seminar and an Oceans Festival under its enterprise development programme. The entity will intensify its outreach programmes, both through the MCOE and Business Development units.

***KZN Tourism Authority (TKZN)***

The entity plans to enhance its enterprise development programme for both leisure and business tourism and accelerate the campaign of driving a culture of travel within the domestic market, enhance the promotion of township and rural tourism, as well as drive an enhanced service excellence programme.

Through the Convention Bureau, TKZN will continue to be a key driver in the hosting of major international business events which include the World Economic Forum in May 2017, World News Media in June 2017, Science, Technology, Engineering and Mathematics (STEM) Festival in October 2017 and the Terminal Operations Conference and Exhibition in December 2017. The entity expects that events hosted in 2017/18 will generate approximately R458 million for the local economy.

The entity, working closely with sister entities, will continue to embark on joint marketing campaigns with airlines that have introduced new routes, including Qatar Airways, Turkish Airlines, Ethiopian Airlines and Proflight Zambia. Furthermore, the entity will engage in increased digital marketing in line with tourist information consumption trends.

In partnership with the department, TKZN will again be hosting a number of tourism leisure events to boost domestic tourism including the Durban Vodacom July 2017, the Loerie Awards in August 2017, seasonal campaigns for the Easter and June/July holidays and Tourism Month in September 2017.

***Dube TradePort Corporation (DTPC)***

After construction delays due to the budget cuts against DTPC's budget in 2016/17, construction of the mini-factories at TradeZone 1 and the multi-storey parkade on blocks A and B at Dube City are scheduled to commence in 2017/18. Construction of the Hlawe trunk sewer will begin once the environmental issues surrounding the conservation area are resolved. The bulk earthwork for TradeZone 2 is the most significant project of 2017/18. This project represents Dube TradePort's second phase of industrial development and will bring 55ha of new SEZ designated serviced sites into the market for investors. Feasibility studies for the development of an Automotive Supplier Park (ASP), in conjunction with EDTEA, will commence, and

DTPC will continue to support companies undertaking private sector developments at the Dube TradeZone and Dube City.

DTPC will continue to identify and engage with new airlines with the intention of securing additional air routes for KSIA, while providing marketing support to the new air routes secured over the past few years. This will assist in further growing cargo volumes through the Dube Cargo Terminal which, together with DTPC's status as a SEZ, should attract additional private sector investment and increase exports.

***Trade and Investment KwaZulu-Natal (TIK)***

The key strategic activities for 2017/18 include finalising the establishment of the one-stop-shop, which is aimed at establishing a technical support centre which will advise and assist various institutions in KZN in investment matters, as well as ensuring that the KZN Trade and Investment Council becomes effective in facilitating investment into the province. The entity is planning to develop 26 municipal investment profiles and to facilitate 47 interventions through the project brokering unit, which is a provincial structure that focuses on unblocking catalytic projects. TIK is also planning to host 25 round table policy discussions with all related stakeholders.

TIK aims to focus on the implementation of business intervention initiatives in support of business expansion and company retentions. The entity expects to facilitate business expansion to the value of R500 million and aims to generate 2 000 jobs through facilitating backward-business linkages, strategic partnerships, etc. The entity aims to roll out development programmes to assist municipalities to create a conducive business environment.

The entity will continue with its strategy to attract foreign direct investment, undertaking outgoing missions, hosting of incoming missions and destination marketing programmes. The entity is aiming to attract R1.800 billion in foreign direct investment, which is expected to generate about 2 500 jobs.

***Richards Bay Industrial Development Zone (RBIDZ)***

As the RBIDZ becomes more established, additional private sector investment will be targeted and additional land will be secured for future development. RBIDZ is looking into avenues to optimise economic returns from mineral wealth, the deep-water port, marine-oriented industries and agricultural produce found in the northern Zululand region, in pursuit of establishing linkages with industrial hubs and in line with Operation Phakisa.

Also on top of the agenda, is to work with the Independent Power Producers' (IPP) office to attract the right calibre of bidders for the gas-to-power plant to be located within the RBIDZ. Land remains a general challenge for the RBIDZ, however, a process to purchase land from the municipality is underway for the gas-to-power project. There is also an effort to acquire the entire Bayside site and Phase 2A and the negotiations between the RBIDZ and the landowners are underway. The Techno-hub was launched and construction of the administration block is expected to be completed in July 2017.

***KwaZulu-Natal Liquor Authority (KZNLA)***

The KZNLA has improved its call centre operations by acquiring additional call centre specialists equipped to improve in particular customer relations and dissemination of information pertinent to clients.

The KZNLA will continue to roll-out an induction programme for newly approved licences, and will conduct comprehensive research into the composition of the liquor industry and illegal trade. The entity will develop the capacity of each district office to introduce help-desks.

***Ezemvelo KZN Wildlife (EKZNW)***

EKZNW will continue to implement methods to counter the effect of the drought in areas that are still under strain. Biodiversity conservation remains the main mandate. The conservation officers will remain on high alert to rescue large distressed mammals in protected areas. The entity will continue to fund deserving community projects by using funds raised through the Community Levy Fund. The Ezemvelo Cup, which returned in 2016, will be improved by sourcing additional sponsors and improving the entity's fixtures, as the Ezemvelo Cup plays a critical role in raising conservation awareness among the community and will re-establish, and also improve co-management structures.

In an effort to reduce its dependency on government, the entity will continue to introduce initiatives aimed at increasing the entity's revenue through implementing commercialisation projects and forming strategic partnerships in eco-tourism areas, such as the management of restaurants in certain resorts. EKZNW will also continue to work with various private and public stakeholders and law enforcement agencies to ensure that poaching of endangered species, such as rhino, is minimised.

The baseline of the entity was adjusted upward from 2017/18 onward, which will assist the entity to fill critical vacancies and to address some critical programmes.

#### ***KwaZulu-Natal Film Commission (KZNFC)***

The KZNFC will continue with support programmes that are aimed at assisting filmmakers to grow, and will continue to support filmmakers from historically disadvantaged backgrounds. In 2017/18, the entity will implement human capital development support initiatives to filmmakers, and introduce the KZN Film Initiative for transformation. This model is geared to fast-track skills development in the film sector. In line with this, the entity aims to recruit 13 filmmakers from previously disadvantaged groups in a three-year skills programme. The KZNFC plans to generate revenue from the film cluster from leases of office space, editing suites, a sound room and a voice recording booth, as well as equipment (such as cameras).

In 2017/18, the KZNFC aims to fund up to 35 beneficiaries across the five categories of the KZN Film Fund namely, development, production, marketing and distribution, markets and festivals, and audience development.

The Film Industry Transformation Initiative (FITI) will be introduced in 2017/18 and will target film school graduates and take them through an apprenticeship in film. The programme is aimed at providing on-the-job training throughout the film value chain. These short-term, part-time programmes are for film practitioners in the industry who want to upgrade their skills in a particular area while continuing to work in the industry.

## **4. Reprioritisation**

The department undertook reprioritisation from Programmes 1, 2 and 6 over the 2017/18 MTEF. This reprioritisation affected various economic categories, as well as transfers to entities such as the KZN Growth Fund Trust (KZNGFT) and transfers to Ithala including the Enterprise Development Fund, Small Business Growth Enterprise (SBGE), and the KZN Property Development Holdings SOC (Ltd) (KZNPDH). The main purpose was to increase the transfer to EKZNW to allow the entity to fill critical vacancies and to address some critical programmes.

The department's baseline was reduced over the 2017/18 MTEF. In 2017/18, the cut of R51 million was part of amount which was not surrendered by the department when the 2016/17 *EPRE* was tabled. These funds were moved to assist the Department of Health (DOH) with its exchange rate pressures relating to the procurement of medicines and medical supplies. This amount was reduced from the transfer to Ithala (from the KZNPDH and SBGE) in Programme 2. Budget cuts were also effected against *Goods and services* in Programme 6, as a result of the following:

- The department's PES allocation was reduced due to data updates of the PES formula, as well as fiscal framework reductions. As such, amounts of R11.148 million, R12.745 million and R22.606 million were reduced in 2017/18, 2018/19 and 2019/20, respectively.
- Due to Presidential proclamations which determined that the *Izinduna* in KZN are to be remunerated, the department's budget was reduced by R4.211 million, R4.443 million and R4.687 million over the MTEF.

These cuts were effected against projects such as the World Pro-am Golfer Championship will be discontinued and various December tourism-related events will be scaled down.

## 5. Procurement

The department will continue to develop and implement procurement plans for 2017/18 to ensure that the needs of the department are in line with the pillars underpinning the department's strategy, as well as the budget allocated to the department. The major projects for EDTEA in 2017/18 include implementation of industrial economic hubs, Aerotropolis, Tourism Entrepreneurship Career Expo, IASP, Youth and Women skills programmes, among others.

## 6. Receipts and financing

### 6.1 Summary of receipts and financing

Table 4.1 shows the sources of funding for the department over the seven-year period 2013/14 to 2019/20. The table also compares actual and budgeted receipts against actual and budgeted payments.

**Table 4.1 : Summary of receipts and financing**

R thousand	Audited Outcome			Main Appropriation	Adjusted Appropriation	Revised Estimate	Medium-term Estimates		
	2013/14	2014/15	2015/16	2016/17			2017/18	2018/19	2019/20
Equitable share	2 621 128	2 840 316	2 951 842	2 672 140	2 573 759	2 573 759	2 769 014	2 996 316	3 180 694
Conditional grants	550	16 827	7 027	6 927	6 927	6 927	6 149	-	-

<b>Total receipts</b>	<b>2 621 678</b>	<b>2 857 143</b>	<b>2 958 869</b>	<b>2 679 067</b>	<b>2 580 686</b>	<b>2 580 686</b>	<b>2 775 163</b>	<b>2 996 316</b>	<b>3 180 694</b>
<b>Total payments</b>	<b>3 311 354</b>	<b>2 955 803</b>	<b>2 983 585</b>	<b>2 702 992</b>	<b>2 604 611</b>	<b>2 604 611</b>	<b>2 784 403</b>	<b>3 005 556</b>	<b>3 180 694</b>
Surplus/(Deficit) before financing	(689 676)	(98 660)	(24 716)	(23 925)	(23 925)	(23 925)	(9 240)	(9 240)	-
Financing									
of which									
Provincial roll-overs	-	-	14 572	-	-	-	-	-	-
Provincial cash resources	690 623	151 312	23 678	23 925	23 925	23 925	9 240	9 240	-
<b>Surplus/(Deficit) after financing</b>	<b>947</b>	<b>52 652</b>	<b>13 534</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>

The department receives a provincial allocation in the form of an equitable share, and a national conditional grant allocation in respect of the EPWP Integrated Grant for Provinces. The department's baseline has decreased from R3.311 billion to R3.181 billion over the seven-year period, and shows an erratic trend.

The department receives R6.149 million in respect of the EPWP Integrated Grant for Provinces in 2017/18. There is no allocation for the two outer years of the MTEF, at this stage.

In 2013/14, the department's allocation was increased by R690.623 million from provincial cash resources, as explained below:

- Funds of R535.120 million were returned by Ithala to the Provincial Revenue Fund, for direct transfer by Vote 4 to the KZNGFT.
- R19.003 million was allocated for EKZNW's Rhino Security Intervention plan, being the carry-through of the amounts allocated in 2012/13. EKZNW also received additional funding of R20 million for the Rhino Security Intervention plan.
- KZNSB received once-off additional funding of R10.500 million for land purchases, for erection of new offices, since its premises are not suitable for expansion, including the MCOE.
- R105 million was allocated to Ithala for the Ithala Limited capital adequacy ratio.
- The department received R1 million for spending on Operation Sukuma Sakhe (OSS) initiatives.
- The budget was under-spent by R947 000 in 2013/14. While there was over-spending of R236 000 relating to the former Department of Economic Development and Tourism (which was unauthorised expenditure), there was also under-spending incurred by Environmental Affairs. The under-spending can be ascribed to the late commencement of some environmental projects. Also contributing were unspent funds in respect of the Greenest Municipality Competition as a result of the eNdumeni Municipality not submitting the required business plan. In addition, the annual transfer to the Wildlife and Environmental Society of South Africa (WESSA) was not made due to technical problems with the banking details of the institution.

In 2014/15, provincial cash resources of R151.312 million were allocated as follows:

- R39.512 million relating to the unspent and uncommitted portion of EKZNW's road maintenance budget which was suspended from 2013/14. This amount was allocated back to the entity in 2014/15.
- R6 million was allocated to the KZNSB for MCOE operational costs.
- R7 million was allocated to TIK for the Technical Assistance Fund (TAF) and marketing.
- R2 million was allocated to KZNLA for the procurement of an IT system, as well as carry-through of previous wage agreements.
- R101.800 million, surrendered from Ithala's Equity Fund and paid into the Provincial Revenue Fund, was allocated as follows:
  - R50 million was transferred to Ithala Limited to ensure that it maintains a certain minimum capital adequacy ratio percentage.
  - R26 million was allocated for the World Routes 2015 conference. Of this amount, R4 million was transferred to TKZN, since the entity was responsible for promoting and marketing this event.
  - R25.800 million was allocated for the construction of the Ndumo retail centre and petrol filling station. A portion of R800 000 was to cater for consultants fees relating to the construction of the Ndumo taxi rank and informal stalls.
- The department under-spent by R52.652 million in 2014/15 due to delays in the establishment of the SBGE, the World Routes 2015 conference, the East3 Route Legacy project, as well as difficulties in filling vacant posts.

In 2015/16:

- The department received a roll-over of R12 million for the World Routes 2015 conference.
- Additional funds of R23.678 million were received including carry-through allocations to the KZNSB for MCOE operational costs (R6 million), TIK for TAF and marketing (R7 million) and KZNLA for the procurement of an IT system (R1.590 million). An amount of R9.088 million was allocated to cover the above-budget 2015 wage adjustment in respect of the department (R1.181 million), as well as EKZNW (R2.907 million). The balance of R5 million was for the Nelson Mandela Golf Championship event which was suspended from 2014/15 to 2015/16.
- The department under-spent by R13.534 million in 2015/16 due to the following:
  - The Digital Television in KZN project was initially assigned to the KZNFC, and later changed to a private enterprise.
  - The transfers in respect of the KZN Clothing and Textile cluster and the KZN Tooling Initiative was not made due to delays in the finalisation of SLAs.
  - Funds for the KZN Integrated Hub were not spent due to delays in the appointment of board members for the hub.
  - The Nelson Mandela Golf Tournament funds were not spent, because this event was postponed to December 2016.
  - The Tourism Enterprise partnership funding was not transferred due to failure to secure additional funding as per the agreement signed by the department and this entity.
  - The contract for the Vodacom Durban July was signed at a lower amount than budgeted for.
  - Funding for the Dundee July rural horse-racing event, whereby the transfer was not made because the municipality did not submit the close-out report before year-end.
  - The Renewable Energy project due to the fact that only half the budget was paid as anticipated in 2015/16.

In 2016/17, R23.925 million was allocated in the form of provincial cash resources, as follows:

- R9.240 million was allocated to EKZNW in respect of the rhino anti-poaching campaign for three years from 2016/17 to 2018/19.

- R6 million was allocated to the KZNSB for MCOE operational costs.
- R7 million was allocated to TIK for the TAF and marketing.
- R1.685 million was allocated to KZNLA for the procurement of an IT system.

As at the end of the third quarter, the department is anticipating to end 2016/17 with a balanced budget.

Over the 2017/18 MTEF, funds were also allocated in the form of provincial cash resources to EKZNW in respect of the rhino anti-poaching campaign for the first two years of the MTEF, as mentioned above.

## 6.2 Departmental receipts collection

Table 4.2 gives a summary of the receipts collected by the department. Details of departmental receipts are given in the *Annexure – Vote 4: Economic Development, Tourism and Environmental Affairs*.

**Table 4.2 : Summary of departmental receipts collection**

R thousand	Audited Outcome			Main Appropriation	Adjusted Appropriation	Revised Estimate	Medium-term Estimates		
	2013/14	2014/15	2015/16	2016/17			2017/18	2018/19	2019/20
Tax receipts	5 110	25 596	25 306	27 577	27 577	27 577	28 898	30 574	32 286
Casino taxes	-	-	-	-	-	-	-	-	-
Horse racing taxes	-	-	-	-	-	-	-	-	-
Liquor licences	5 110	25 596	25 306	27 577	27 577	27 577	28 898	30 574	32 286
Motor vehicle licences	-	-	-	-	-	-	-	-	-
Sale of goods and services other than capital assets	2 114	2 363	1 908	2 219	2 219	1 649	2 419	2 541	2 684
Transfers received	-	-	-	-	-	-	-	-	-
Fines, penalties and forfeits	1 279	1 195	626	500	500	1 151	525	555	587
Interest, dividends and rent on land	3	5	8	6	6	6	6	7	7
Sale of capital assets	147	302	762	-	-	600	200	200	200
Transactions in financial assets and liabilities	902	105 700	35 116	54	54	4 132	56	60	63
<b>Total</b>	<b>9 555</b>	<b>135 161</b>	<b>63 726</b>	<b>30 356</b>	<b>30 356</b>	<b>35 115</b>	<b>32 105</b>	<b>33 937</b>	<b>35 827</b>

*Liquor licences* is the major revenue source for the department. The KZNLA is responsible for the liquor licensing functions including, among others, the surveillance of the industry to ensure that rules of licences are adhered to and the collection of licence fees. The high collections in 2014/15 and 2015/16 were due to the promulgation of the KZN Liquor Licensing Amendment Act. The increase in collection over the 2017/18 MTEF is due to the new licence tariffs based on the revised licence types. Despite this, the budget against this category is conservative. The entity is striving to optimally enhance revenue collections in respect of liquor licences, while promoting growth in the industry.

Revenue from *Sale of goods and services other than capital assets* relates to state property rentals, parking fees, environmental authorisation licence application fees and commission on payroll deductions. The anticipated under-collection in the 2016/17 Revised Estimate can be attributed mainly to lower than expected fees from the sale of tender documents. The increase over the MTEF is inflationary related.

*Fines, penalties and forfeits* can be attributed to the once-off payment of fines by companies or individuals that transgress the EIA regulations. The 2016/17 Revised Estimate reflects that the department anticipates to over-collect due to higher than anticipated EIA regulation offenses reported. This category is uncertain in nature and therefore difficult to project resulting in very conservative budgeting over the MTEF.

*Interest, dividends and rent on land* relates to interest on outstanding debt, such as staff debts and is difficult to project due to its uncertain nature.

*Sale of capital assets* represents revenue collected in respect of redundant assets auctioned by the department. The revenue collected from 2013/14 to 2015/16 was due to the sale of redundant assets. In the 2016/17 Revised Estimate, the department is expecting to conduct an auction in the last quarter. The revenue budget remains constant over the MTEF due to the unpredictable nature of this item.

*Transactions in financial assets and liabilities* relates to recoveries of previous years' staff debts and expenditure, which are difficult to budget for. The substantial collection in 2014/15 relates to, among others, funds from Ithala's Equity Fund paid into the Provincial Revenue Fund, relating to the unallocated balance of the Equity Fund. In addition, a significant amount was transferred to Umzamo Wethu Bricks

Manufacturing co-operative in 2011/12. These funds were returned to the department due to the beneficiary not utilising them as per agreement. The high collection in 2015/16 can be ascribed to funds returned from Ithala which were earmarked in 2014/15 for the construction of a retail centre and a petrol filling station at Ndumo. The funds were returned to the Provincial Revenue Fund pending approval from the Ingonyama Trust to occupy the land, with an understanding that the funds would be allocated back to the department once the approval process is finalised. Revenue grows gradually over the MTEF.

### 6.3 Donor funding – Nil

## 7. Payment summary

This section provides information pertaining to the vote as a whole at an aggregated level, including payments and budgeted estimates in terms of programmes and economic classification. Further details are given in Section 8, as well as in the *Annexure – Vote 4: Economic Development, Tourism and Environmental Affairs*.

### 7.1 Key assumptions

The department applied the following broad assumptions when compiling the budget:

- National Treasury instructed departments to provide for the annual wage increase at 7.2, 6.9 and 6.6 per cent for each of the three years of the MTEF, respectively, as well as the 1.5 per cent annual pay progression each year. However, the department made provision for 13.6 per cent for 2017/18, 6.8 per cent for 2018/19 and 6.8 per cent for 2019/20. The high growth in 2017/18 relates to the filling of critical posts. The growth of 6.8 per cent in the two outer years of the MTEF will be reviewed in-year.
- All inflation related increases are based on CPI projections.
- The expanded cost-cutting measures, as reissued by Provincial Treasury in 2016/17, will continue to be adhered to over the 2017/18 MTEF, in conjunction with National Treasury Instructions 02 and 03 of 2016/17: Cost-containment measures.

### 7.2 Additional allocations for the 2015/16 to 2017/18 MTEF

Table 4.3 shows the additional funding received by the department over the three MTEF periods: 2015/16, 2016/17 and 2017/18.

**Table 4.3 : Summary of additional provincial allocations for the 2015/16 to 2017/18 MTEF**

R thousand	2015/16	2016/17	2017/18	2018/19	2019/20
<b>2015/16 MTEF period</b>	<b>4 259</b>	<b>4 228</b>	<b>(10 380)</b>	<b>(10 981)</b>	<b>(11 596)</b>
Removal of KZNSB - MCOE in 2017/18	-	-	(6 300)	(6 665)	(7 038)
Removal of TIK - TAF and marketing in 2017/18	-	-	(7 350)	(7 776)	(8 211)
Removal of KZN Liquor Authority - IT system in 2017/18	-	-	(1 769)	(1 872)	(1 977)

Cutting transfer to various entities		(354 106)	(360 356)	(366 918)	(387 465)
<b>2017/18 MTEF period</b>			<b>(66 359)</b>	<b>(17 188)</b>	<b>(7 593)</b>
EKZNW - Rhino anti-poaching			-	-	(9 757)
Susp. of balance of funds from SBGE to V7 for exchange rate pressures			(51 000)	-	-
PES and Provincial Own Revenue reductions			(11 148)	(12 745)	(22 606)
Budget cuts to fund the remuneration of <i>Izinduna</i>			(4 211)	(4 443)	(4 687)
Additional funding from National Treasury			-	-	29 457
<b>Total</b>	<b>4 259</b>	<b>(380 235)</b>	<b>(451 860)</b>	<b>(411 904)</b>	<b>(424 413)</b>

The purpose of the table is two-fold. Firstly, it shows the quantum of additional funding allocated to the department in the past and current MTEF periods. Secondly, it indicates the policies and purposes for which the additional funding was allocated.

The carry-through allocations for the 2015/16, 2016/17 and 2017/18 MTEF periods (i.e. for the financial year 2019/20) are based on the incremental percentage used in the 2017/18 MTEF. In the 2015/16 MTEF, additional funding was received in respect of the Environmental Affairs function shift, and decentralisation of external bursaries budget to the department from OTP. KZNLA received an increased transfer to provide for the entity's operational costs, which were funded from increased liquor licences revenue collected by this entity. This was reduced by shifting PMB Bike City funds to the Department of Sport and Recreation (DOSR) because it is a sport-related event. Also, funding for the KZN Music House was shifted to the Department of Arts and Culture (DAC) as a result of a directive from the Premier. Note, in 2017/18, the additional allocations for KZNSB for MCOE operational costs, TIK for the TAF and marketing and KZNLA for the procurement of an IT system were removed from the department's baseline. These funds were only made available from 2014/15 to 2016/17.

In the 2016/17 MTEF, due to data updates of the PES formula, a declining Provincial Own Revenue, as well as cuts implemented by National Treasury as a result of the need to lower the expenditure ceiling across the country and to reprioritise to fund various national priorities, the funding available to the province was reduced. Provinces were also instructed that the baselines of provincial DOH be protected in view of the impact that the exchange rate has had on the affordability of medicines, which are largely imported. In order to effect these cuts in the province, expenditure on *Compensation of employees* was lowered by freezing all vacant non-OSD posts, and departments' equitable share funded *Goods and services* budgets were cut by 2 per cent over the MTEF. The effect of this on the department was a substantial reduction by R403.617 million, R394.968 million and R404.347 million over the period. The major impact of the baseline cuts was effected by the department against the allocation of DTPC, Ithala (for the Enterprise Development Fund, SBGE and KZNPDPH), EKZNW, TKZN, TIK, MKI, KZNSB, KZNFC and the KZNGFT. The department also undertook a major reprioritisation exercise between its entities at the time. Expenditure on *Compensation of employees* was reduced by freezing vacant non-critical posts, while ensuring that funds are available to fill critical posts. The equitable share funded *Goods and services* budget was cut by 2 per cent.

Mitigating these cuts, to some extent, was additional funding of R19.154 million, R19.847 million and R20.612 million over the 2016/17 MTEF to cater for the Rhino anti-poaching activities and for the carry-through cost of the above-budget 2015 wage adjustment for both the department and EKZNW.

In the 2017/18 MTEF, the department's budget was reduced by R51 million (in 2017/18 only), and moved to assist DOH with its exchange rate pressures relating to the procurement of medicines and medical supplies. This reduction was part of the funds not surrendered by the department when the 2016/17 *EPRE* was tabled. The amount was cut from the SBGE (R22.864 million) and the KZNPDPH (R28.136 million).

The department's PES allocation is cut due to data updates of the PES formula, as well as the Provincial Own Revenue reductions. The budget cuts amount to R11.148 million, R12.745 million and R22.606 million over the 2017/18 MTEF, and were effected against *Goods and services* in Programme 6.

In addition, the Executive Council determined that the *Izinduna* in KZN must be remunerated, in line with Presidential proclamations in this regard. As such, Vote 11: COGTA is providing 50 per cent of the required amount through reprioritisation of their budget, while the remaining 50 per cent is sourced by proportionately reducing all remaining Votes' budgets. The department's baseline is therefore reduced by R4.211 million, R4.443 million and R4.687 million, over the MTEF. This cut was effected against *Goods and services* in Programme 6.

The allocation to EKZNW for Rhino anti-poaching funding was given for three years only, and the carry-through costs are therefore removed from the department's baseline in 2019/20.

Offsetting these cuts to some extent, is funding of R29.457 million provided by National Treasury in the outer year.

### 7.3 Summary by programme and economic classification

Tables 4.4 and 4.5 provide a summary of payments and budgeted estimates by programme and economic classification, respectively, for the period 2013/14 to 2019/20. The department has seven programmes and is made up of two sectors, as explained below.

The budget structure, in particular the Economic Development and Tourism sector, largely conforms to the uniform budget and programme structure for the sector and is made up of six programmes that are directly linked to the department's core functions, namely Administration, Integrated Economic Development Services, Trade and Sector Development, Business Regulation and Governance, Economic Planning and Tourism. The main difference to the budget and programme structure for the sector is that, in KZN, Gambling and Betting falls under Vote 1: Office of the Premier.

The seventh programme is Environmental Affairs which largely conforms to the uniform programme structure for the Environmental Affairs sector, giving the required information by sub-programme and sub-sub-programme, because of the level of detail required by the sector.

**Table 4.4 : Summary of payments and estimates by programme: Economic Development, Tourism and Environmental Affairs**

R thousand	Audited Outcome			Main Appropriation	Adjusted Appropriation	Revised Estimate	Medium-term Estimates		
	2013/14	2014/15	2015/16				2016/17	2017/18	2018/19
1. Administration	226 097	195 975	185 577	226 179	250 177	253 791	243 655	247 930	262 374

<b>Baseline available for spending after 1st charge</b>	<b>3 311 354</b>	<b>2 955 803</b>	<b>2 983 349</b>	<b>2 702 992</b>	<b>2 604 611</b>	<b>2 604 611</b>	<b>2 784 403</b>	<b>3 005 556</b>	<b>3 180 694</b>

The department reflects a fluctuating trend over the seven years, mainly relating to once-off additional funding shown in the peak in 2013/14. The high spending in 2013/14 can be ascribed to once-off additional funding for increased transfers to entities such as KZNSB, TKZN, Ithala and the KZNGFT, as well as funding from the Strategic Cabinet Initiatives Fund for events such as the SA Women's Golf Championship, Metro FM Awards and the Nelson Mandela Golf Tournament, among others. This explains

the decrease in 2014/15. The increase in 2015/16 relates to once-off spending in respect of the World Routes 2015 conference, explaining the decrease in 2016/17.

During the 2016/17 Adjustments Estimate, R100 million was reduced from the department's budget and moved to DOH. This was part of the funds not surrendered by the department when the 2016/17 *EPRE* was tabled. These funds were moved to assist DOH with its exchange rate pressures relating to the procurement of medicines and medical supplies. This amount was reduced from the transfer to Ithala (from the KZNPDH and SBGE). Despite the reduction in the department's baseline, there is steady growth over the MTEF. The budget cuts of R66.359 million, R17.188 million and R27.293 million were effected against Programmes 2 and 6. Of this amount, R51 million was effected against *Transfers and subsidies to: Public corporations and private enterprises* in 2017/18 only, and amounts of R15.359 million, R17.188 million and R27.293 million were reduced from *Goods and services* in Programme 6 over the MTEF.

The high spending in 2013/14 against Programme 1: Administration was largely due to funding reprioritised from other programmes to fund events such as the Top Gear Festival, the Industrial Economic Hubs, the Royalty Soapie Awards, Ithala Repositioning strategy and the Aerotropolis strategy under the office of the HOD, explaining the decrease in 2014/15. The further decrease in 2015/16 was caused by delays in the filling of posts, and the moratorium on the filling of non-critical posts. The increase in the 2016/17 Adjusted Appropriation and Revised Estimate relates to additional funding to cover the above-budget 2016 wage adjustment, as well as funds moved from Programmes 4 and 7 to cater for the Specialised Investment Advisory Team whose services are used as and when they are required by the department in terms of a SLA, the printing of the budget speech, resettlement costs for the relocation of the Ministry from Durban to Pietermaritzburg, legal costs, as well as consultants assisting in the department's SCM unit under the sub-programme Financial Management. This explains the decrease in 2017/18. An amount of R10 million in each year of the MTEF was reprioritised from this programme, in particular the Office of the HOD sub-programme, to assist EKZNW to fill critical vacancies and to address some of the entity's critical programmes over the MTEF. Despite these cuts, there is steady growth over the MTEF.

The high amount in 2013/14 against Programme 2: Integrated Economic Development Services was attributed to funds reallocated in respect of the KZNGFT which were previously held by Ithala, as mentioned. Furthermore, Ithala Limited received once-off additional funding to assist with its capital adequacy ratio, as prescribed by the SA Reserve Bank. Additionally, funds were reprioritised from other programmes to provide for the Ndumo Regeneration programme. Spending in 2014/15 includes an additional transfer to ensure Ithala Limited maintains a certain minimum capital adequacy ratio percentage, as well as to provide for the Ndumo Regeneration programme, the Ithala turn-around strategy, and set-up costs for the SBGE. This explains the decrease in 2015/16. However, in 2015/16 additional funding was transferred to Ithala Limited again to ensure that it maintains the minimum capital adequacy ratio, and to enable it to settle a loan that was taken by DAC from Ithala to fund a portion of the Royalty Soapie Awards. This explains the reduction in the 2016/17 Main Appropriation. The further reduction in the 2016/17 Adjusted Appropriation is mainly ascribed to the cuts effected and moved to DOH. In 2017/18, the budget cut of R51 million was effected against the transfers to the SBGE and KZNPDH. In addition, the department undertook a reprioritisation exercise from the KZNGFT, Ithala (Enterprise Development Fund), the SBGE and KZNPDH allocations, where R76.140 million per year over the 2017/18 MTEF was moved to EKZNW to assist with the filling of critical vacancies and to address some of the entity's critical programmes. On the other hand, a major reprioritisation exercise was undertaken from other programmes to this programme to fund various projects, such as the Black Industrialists programme and the Revitalisation of Townships and Rural Economies, and this explains the strong growth over the outer years of the MTEF.

The trend against Programme 3: Trade and Sector Development is mainly influenced by the capital requirements of DTPC, RBIDZ, as well as the Industrial Economic Hubs. There is an increasing trend from 2013/14 to 2015/16. The spending for 2013/14 included additional funding allocated to DTPC for infrastructure development. The increase in 2014/15 was mainly due to spending relating to the Industrial Economic Hubs and additional funding to TIK for the TAF and marketing. The peak in 2015/16 was driven by once-off additional funding to RBIDZ for infrastructure development. This explains the dip in the 2016/17 Main Appropriation. The increase in the 2016/17 Adjusted Appropriation and Revised Estimate is mainly ascribed to the Moses Kotane Institute (MKI) in respect of the STEM fund and to set up an ICT

institute for Software Engineering and Business Process Outsourcing in eight identified TVET colleges across the province, as well as for the ICT Hub. Also contributing were various projects including the Industrial Economic Hubs, Wifi Hotspots, the Film Strategy, the Amakha Essential Co-operative, the Aerotropolis Institute, Durban Aerotropolis Master Plan, the Aerotropolis PMU, where the department appointed consultants to assist with the implementation of the Aerotropolis project, the KZN Craft Hub and the KZN Integrated Maritime Strategy Implementation. There is healthy growth over the MTEF. The 2017/18 projects include RASET, Industrial Economic Hubs, implementation of the Integrated Maritime Strategy, KZN Exporter Strategy implementation, marine manufacturing, the Durban Aerotropolis MasterPlan, and the One-Village-One-Product Craft Enterprise. The MTEF also includes transfers to DTPC and RBIDZ.

Programme 4: Business Regulation and Governance shows an erratic trend from 2013/14 to 2015/16. The significantly low spending in 2013/14 was caused by reprioritisation undertaken, whereby funds were moved to offset pressures in other programmes. The spike in 2014/15 was linked to once-off additional funding to cater for KZNLA's operational costs, as well as the carry-through allocation for the procurement of an IT system. This explains the decline in 2015/16, which was also exacerbated by the non-filling of vacant posts, as well as savings realised as a result of cost-cutting. The reduction in the 2016/17 Adjusted Appropriation and Revised Estimate was due to lengthy recruitment processes, consumer awareness campaigns which were cancelled, as well as cost-cutting. These funds were moved to offset pressures in Programme 1, as mentioned. The programme maintains inflationary growth over the MTEF.

Programme 5: Economic Planning reflects an increasing trend over the seven years. The spending from 2013/14 to 2015/16 was mainly for various research projects including the socio-economic impact of DTPC and inner-city regeneration projects, Green Economy Research, the development of an industrial development strategy, among others. Also contributing was the purchase of the General Algebraic Modelling System for policy analysis. The minimal decline in the 2016/17 Adjusted Appropriation was mainly attributed to the Forward Keys project which was moved to TKZN since it was assigned for the implementation of this project. The further decrease in the Revised Estimate is largely due to delays in the filling of posts, and this accounts for the significant increase in 2017/18. The budget for this programme shows steady growth over the MTEF and provides for research projects such as the Industrial Symbiosis, the KZN University Technology Transfer programme, the Solar PV Rooftop project, provincial innovation forums, the Renewable Energy project, the Integrated Statistical database and Green Economy Research.

Programme 6's spending trend from 2013/14 to 2015/16 was driven by various events funded from the Strategic Cabinet Initiatives Fund, including the Volvo European Golf Championship, the Metro FM Awards, among others. The spending in 2013/14 includes the once-off additional funding transferred to the KZNSB for land purchases relating to the construction of new offices in Durban, as well as for events funded from the Strategic Cabinet Initiatives Fund, namely the SA Women's Golf Championship, the Nelson Mandela Golf Tournament, among others. Also contributing was reprioritisation undertaken to fund events such as the MTV Awards, the uMphithi Spring Music Festival, the Umlazi Festival and Expo, Urban Music Tour and the SMME conference. The increase in 2014/15 can largely be ascribed to the Strategic Cabinet Initiatives Fund allocated for events such as World Pro-am Golfers Tournament, World Amateur Golf Tournament and the Metro FM Awards. The further increase in 2015/16 is due to once-off spending in respect of the World Routes 2015 conference and increased transfers to TKZN for tourism-related services relating to the Vodacom Durban July. This accounts for the reduction in the 2016/17 Main Appropriation. The further decrease in the 2016/17 Adjusted Appropriation and Revised Estimate was due to delays in the filling of posts, and funds that were reprioritised from events such as the Metro FM Awards and the East3 Route Expedition. These funds were utilised to fund various events including the South African Music Conference, the launch of the Essence Festival, the Future Leaders Awards, the Youth Business Campaign, the KZN Youth Expo 2016, the uThungulu Women Business Conference, Career and Business Skills and the Youth Technical Skills programme. Reprioritisation of funds was undertaken from this programme over the MTEF to provide for projects such as the Black Industrialists programme, the Revitalisation of Townships and Rural Economies, the SMME Academy and RASET in Programmes 2 and 3. Also, the budget cuts were effected against *Goods and services* in this programme over the MTEF resulting in discontinuation and scaling down some events, including the World Pro-am Golfer Championship and various December tourism-related events. Despite the cuts, the budget increases steadily over the MTEF.

Programme 7: Environmental Affairs shows a fluctuating trend from 2013/14 to 2016/17. The increase in 2014/15 was driven by the EPWP Integrated Grant for Provinces, where the department received a lower amount as a result of an error in allocation made by the National Department of Public Works (NDOPW) in 2013/14, and this was rectified in 2014/15. The decrease in 2015/16 was mainly attributed to delays in the implementation of IASP. The decrease in the 2016/17 Adjusted Appropriation can be ascribed to delays in the implementation of IASP and these funds were moved to Programme 1 to offset spending pressures. This programme reflects strong growth over the MTEF as EKZNW receives additional funding as a result of the reprioritisation exercise undertaken within the department where funds were moved from *Goods and services*, as well as Ithala (Enterprise Development Fund, the SBGE and the KZNPDH) to this programme. As such, allocations to EKZNW are increased by R76.140 million per year over the MTEF. On the other hand, the additional funds for the Rhino Anti-poaching campaign are reduced from the baseline in 2019/20.

*Compensation of employees* are linked to the various wage agreements. In 2016/17, the department budgeted to fill vacant critical posts, but these were not filled, due to delays in the recruitment processes, accounting for the reduction in the 2016/17 Adjusted Appropriation and Revised Estimate. These funds were moved to other categories to defray spending pressures. The high growth from 2016/17 to 2017/18 is linked to the planned filling of critical posts in 2017/18. The growth is adequate in 2017/18, but not in the outer years and that will be reviewed.

*Goods and services* shows high spending in 2013/14 attributed to tourism-related events including the Metro FM Awards, the Volvo European Golf Championship and the David Tlale Fashion Show. The significant decrease in 2014/15 can be ascribed to delays in respect of the establishment of the SBGE, and late submission of the invoice for the World Routes 2015 conference. Furthermore, the expenditure for tourism-related events such as the MTV Awards, and the X-Factor production, European Volvo Golf and the SA India Film Awards was moved from this category to *Transfers and subsidies to: Public corporations and private enterprises*, since the department appointed private enterprises as the event promoters. The amount in 2015/16 included once-off funding for tourism-related events such as the World Routes 2015 conference. The decrease in the 2016/17 Adjusted Appropriation relates to funds for various events that were moved from this category to be correctly placed against *Transfers and subsidies*. These events include Ugu Jazz Festival 2016, the Metro FM Awards, the Loeries Creative Week event and the Vodacom Durban July. The Revised Estimate shows a decrease which is ascribed to delays in the implementation of projects such as the Eco-Cycle, Incubation and Mentorship programme. In spite of the budget cuts, the allocation against this category increases at a steady rate over the 2017/18 MTEF.

*Transfers and subsidies to: Provinces and municipalities* relates to motor vehicle licences, transfers to municipalities for the development of trading centres, rehabilitation and revitalisation of beaches, as well as for the Greenest Municipality Competition. The spending in 2013/14 relates to rehabilitating beach structures which were damaged by storms in the uMhlatuze and Hibiscus Coast Municipalities, as well as for finalisation of joint project funding in the Mandeni Municipality. The spike in 2014/15 was due to once-off spending for events such as the Africa Bike Week, the SMME Fair and Exhibition, Drakensberg cable car consultations and the Tourism Route Strategy, which were administered by various municipalities, accounting for the decrease in 2015/16. The increase in the 2016/17 Adjusted Appropriation relates to the transfer to the eThekweni Metro for various events including the South African Music Conference, the Durban Fashion Fair, the launch of the Essence Festival and Woza Durban New Year's Picnic. Also contributing were transfers relating to the Ladysmith Airport, Richards Bay Airport, as well as the Ladysmith Black Mambazo Academy. The 2017/18 allocation caters for the Ingodini study in uMkhanyakude, and for motor vehicle licences.

The spending against *Transfers and subsidies to: Departmental agencies and accounts* relates to entities, such as TIK, KZNSB, TKZN, KZNLA, DTPC and EKZNW. The substantial increase in 2014/15 was due to the additional allocation to TIK for TAF and marketing, as well as funding to KZNSB for MCOE operational costs. In addition, KZNLA received carry-through funding for the procurement of an IT system and substantial once-off funding for its operational costs. Also contributing was the unspent uncommitted portion of EKZNW's road maintenance budget which was suspended from 2013/14. Furthermore, an increased transfer was paid to EKZNW for the Sakha Isibaya project. TIK received an increased transfer in respect of TAF for the Renewable Energy project as the entity was responsible for this project. TKZN

received additional funding for the costs incurred through the participation in the 2014 Carnival International De Victoria at the Seychelles. In addition, the transfer to KZNSB was increased to cater for the once-off hosting of the Sharks International conference. The decrease in 2015/16 was caused by a reduction in the DTPC transfer due to the entity's healthy positive cash balance. These funds were utilised to address pressures in other entities, such as RBIDZ and the KZNFC. The dip in the 2016/17 Main Appropriation was due to a major reprioritisation exercise undertaken by the department which resulted in the reduction of the transfers to DTPC and EKZNW to fund other entities such as the establishment of the SBGE and the KZNPDH, as well as additional funding requirements of the KZNFC, MKI and RBIDZ. The increase in the 2016/17 Adjusted Appropriation is attributable to increased transfers to DTPC to fund the development of a framework for the Automotive Supplier Park and cutflower projects, TKZN for the STEM Festival Conference, MKI in respect of the STEM Fund, to setup an ICT institute for Software Engineering and Business Process Outsourcing in eight TVET colleges across the province, as well as the Council for Scientific and Industrial Research (CSIR) for the biogas pilot/bio-energy Research project. The allocation over the MTEF increases at a steady rate. The department has undertaken a reprioritisation exercise to fund additional funding requirements of EKZNW over the MTEF, explaining the increase in this category.

The transfer payment made in 2014/15 against *Transfers and subsidies to: Higher education institutions* relates to the Manufacturing Survey done by UKZN to analyse the rate of survival within the sector, as well as challenges that manufacturing firms are facing. The spending in 2015/16 relates to funding for the KZN University Technology Transfer programme which was transferred to UKZN, Mangosuthu University of Technology (MUT) and the Durban University of Technology (DUT). The increase in the 2016/17 Adjusted Appropriation was due to higher than anticipated costs for implementation of the Solar PV Rooftop project assigned to MUT and DUT. This explains the decline in 2017/18. The budget over the 2017/18 MTEF provides for the UKZN RLED initiative and Solar PV Rooftop project. There is positive growth over the MTEF.

*Transfers and subsidies to: Public corporations and private enterprises* consists of transfers to the Enterprise Development Fund under Ithala, which includes allocations for the establishment of the KZNPDH, RBIDZ and various other entities. In 2013/14, Ithala received once-off funding for its capital adequacy ratio. The increase in 2014/15 relates to once-off funding to Ithala to maintain a certain minimum capital adequacy ratio percentage and for the construction of the Ndumo retail centre, petrol filling station, taxi rank and informal stalls, as well as for the Ithala turnaround strategy. Furthermore, the spending included events that were funded from the Strategic Cabinet Initiatives Fund such as MTV Awards, and X-Factor production, European Volvo Golf and the SA India Film Awards. These events were hosted by various private enterprises and were classified under this category. These account for the decrease in 2015/16. However, in 2015/16 the RBIDZ received once-off additional funding for the acquisition of land. This accounts for the significant decrease in the 2016/17 Main Appropriation. The decrease in the 2016/17 Adjusted Appropriation can be ascribed to funds that were reduced from Ithala's Enterprise Development Fund, taking into account the entity's healthy positive cash balance. These funds were moved to other entities including DTPC, KZNSB, MKI and TKZN. In addition, funds were reduced from the department's budget and moved to DOH. This was part of the funds not surrendered by the department when the 2016/17 *EPRE* was tabled, as mentioned. The department has undertaken a reprioritisation exercise over the MTEF, where funds were reduced from entities under Ithala and added to EKZNW. Provision is made for various projects including the KZN Fashion Council, KZN Clothing Textile Cluster, Music Cluster, the Ugu ICT Incubator and the Maritime Cluster, only in 2017/18, at this stage.

*Transfers and subsidies to: Non-profit institutions* relates to funding for the KZNGFT, KZNFC, and MKI, as well as a number of transfers to NGOs. The peak in 2013/14 is attributed to the KZNGFT which was reclassified against this category, since the entity is in the process of being registered as a separate entity. It is noted that prior years were not adjusted, since transfers were made *via* Ithala. Also contributing to this increase was a reallocation to the KZNGFT of all unspent and committed funds relating to prior years that were previously held by Ithala. This explains the decrease in 2014/15. The increase in 2015/16 largely relates to the increased transfer to MKI for the STEM Fund, as well as to provide for security services costs for the entity, and to the KZNFC to fund the KZN Film Hub. There is a decrease in the 2016/17 Adjusted Appropriation which relates to the transfer to the SBGE which was erroneously shown as R69.040 million

in the 2016/17 EPRE, with an over-provision of R37 million. The transfer to the SBGE was moved to Ithala and this shift was required because the SBGE is being incubated under Ithala as a business unit. The MTEF budget caters for transfers to KZNGFT, KZNFC and MKI, and these are discussed in more detail in Sections 7.7 and 7.8.

*Transfers and subsidies to: Households* relates to staff exit costs and external bursaries. This category shows an erratic trend. The spending from 2013/14 to 2014/15 relates to external bursaries to students at UKZN who are studying toward their Post-graduate Diplomas and Masters in LED, and for the Co-operative Management Diploma at UNIZULU, as well as for bursary funds for people with disabilities, which are transferred through the Indumezulu Trust. The increase in 2014/15 was driven by higher than anticipated staff exit costs, explaining the decrease in 2015/16. The external bursaries for the Co-operative Management Diploma were reduced from 2015/16 onward, as some students dropped out of the programme. The contract to offer these bursaries expires in 2018/19 and, as a result, no provision is made for these bursaries in 2019/20, explaining the declining growth over the MTEF. The MTEF budget provides for 147 external bursaries, as well as staff exit costs.

*Buildings and other fixed structures* reflects amounts in 2014/15 and 2015/16 which relate to security guard houses procured for the Dundee and Vryheid district offices, as well as the head office in Pietermaritzburg.

*Machinery and equipment* fluctuates over the period, largely due to the department's actual requirements. The spike in 2014/15 was linked to reprioritisation from other categories to provide for the upgrading of the department's servers that was expected to be finalised in 2015/16, accounting for the decrease in 2016/17. The increase in the 2016/17 Adjusted Appropriation and Revised Estimate was mainly to provide for the procurement of water tanks for head office and district offices, in line with the department's drought relief initiative. The further increase in the Revised Estimate is ascribed to the procurement of computer equipment and the replacement of computers which was higher than anticipated. The budget in 2017/18 provides for relocation of the Ministry office from the Marine building in Durban to Pietermaritzburg. This explains the decrease in 2018/19.

Spending in 2014/15 against *Land and sub-soil assets* relates to the purchasing of land for the Industrial Economic Hubs at Ugu for perishable products, and uMgungundlovu in respect of a leather processing hub.

The spending against *Software and other intangible assets* in 2013/14 includes Sabinet software subscriptions relating to the department's library information database and new server software and workstation software licences procured. The high amount in the 2016/17 Main Appropriation was to cater for the Gijima LED website. However, there is a decrease in the 2016/17 Adjusted Appropriation due to challenges in finding a suitable supplier for the Integrated Statistical database project. The increase in the Revised Estimate relate to the purchase of Microsoft licences. No provision is made over the MTEF.

*Payments for financial assets* reflects various losses which were written-off from 2014/15 to 2016/17. The amount in 2015/16 includes the first charge of R236 000.

## 7.4 Summary of conditional grant payments and estimates

Table 4.6 relates to the summary of conditional grant payments, by grant name and economic classification. Further details are provided in the *Annexure – Vote 4: Economic Development, Tourism and Environmental Affairs*.

Note that the historical figures set out in Table 4.6 reflect actual expenditure per grant, and should not be compared to the figures reflected in Table 4.1 which represent the actual receipts for the grant.

**Table 4.6 : Summary of conditional grants payments and estimates by name**

R thousand	Audited Outcome			Main Appropriation	Adjusted Appropriation	Revised Estimate	Medium-term Estimates		
	2013/14	2014/15	2015/16				2016/17		
EPWP Integrated Grant for Provinces	550	13 120	10 734	6 927	6 927	6 927	6 149	-	-
<b>Total</b>	<b>550</b>	<b>13 120</b>	<b>10 734</b>	<b>6 927</b>	<b>6 927</b>	<b>6 927</b>	<b>6 149</b>	<b>-</b>	<b>-</b>

The EPWP Integrated Grant for Provinces is allocated entirely against *Goods and services*. The bulk of this grant is used by Environmental Affairs for IASP and the KZN Greening programme. The peak in 2014/15 relates to an incorrect allocation of only R550 000 in 2013/14 by NDOPW, which was rectified in 2014/15, thus an amount of R13.120 million was allocated in 2014/15. The department receives R6.149 million for this grant in 2017/18 to be used on IASP, with no allocation for the two outer years, at this stage. The 2017/18 amount is lower than the 2016/17 amount, and this is attributed to National Treasury's fiscal consolidation programme.

## 7.5 Summary of infrastructure payments and estimates

Table 4.7 summarises the infrastructure payments and estimates by category for the department. A more detailed listing of infrastructure projects to be undertaken by the department can be found in the *2017/18 Estimates of Capital Expenditure*.

**Table 4.7 : Summary of infrastructure payments and estimates by category**

R thousand	Audited Outcome			Main Appropriation	Adjusted Appropriation	Revised Estimate	Medium-term Estimates		
	2013/14	2014/15	2015/16	2016/17			2017/18	2018/19	2019/20
<b>Existing infrastructure assets</b>	-	-	-	-	-	-	-	-	-

<b>New infrastructure assets</b>	-	28	17	-	-	-	-	-	-
<b>Infrastructure transfers</b>	<b>559 655</b>	<b>540 747</b>	<b>632 186</b>	<b>463 691</b>	<b>463 691</b>	<b>463 691</b>	<b>493 524</b>	<b>530 513</b>	<b>560 222</b>
Infrastructure transfers: Current	-	-	-	-	-	-	-	-	-
Infrastructure transfers: Capital	559 655	540 747	632 186	463 691	463 691	463 691	493 524	530 513	560 222
<b>Infrastructure: Payments for financial assets</b>	-	-	-	-	-	-	-	-	-
<b>Infrastructure: Leases</b>	-	-	-	-	-	-	-	-	-
<b>Non infrastructure</b>	-	-	-	-	-	-	-	-	-
<b>Total</b>	<b>559 655</b>	<b>540 775</b>	<b>632 203</b>	<b>463 691</b>	<b>463 691</b>	<b>463 691</b>	<b>493 524</b>	<b>530 513</b>	<b>560 222</b>
Capital infrastructure	559 655	540 775	632 203	463 691	463 691	463 691	493 524	530 513	560 222
Current infrastructure	-	-	-	-	-	-	-	-	-

The department's infrastructure funding is mainly allocated against *Infrastructure transfers* and relates to the capital development projects of the DTPC and RBIDZ. The amounts against *New infrastructure assets: Capital* in 2014/15 and 2015/16 relate to the purchase of security guard houses for the Dundee and Vryheid district offices, as well as the head office in Pietermaritzburg.

The decrease in 2014/15 was attributed to a carried-through reduction in the DTPC allocation, due to the entity's healthy positive cash balance. The increase in 2015/16 was due to once-off additional funding of R40 million allocated to RBIDZ for infrastructure projects, as well as for the acquisition of land which formed part of the first phase of the proposed RBIDZ expansion area as defined in the 50-year MasterPlan. This explains the decrease in 2016/17. The budget over the MTEF grows at an inflationary rate and it caters for both DTPC and RBIDZ capital projects, in line with their MasterPlans. The DTPC capital projects include the construction of the Hlawe trunk sewer and phase 2 industrial development. The purchasing of land from the municipality is underway for the RBIDZ, and the construction of the administration block is expected to be completed in July 2017.

## 7.6 Summary of Public Private Partnerships – Nil

## 7.7 Transfers to public entities listed in terms of Schedule 3 of the PFMA

Table 4.8 provides a summary of departmental transfers to the public entities that fall under the auspices of the department, as explained above and below the table. The financial summaries of the public entities are presented in the *Annexure – Vote 4: Economic Development, Tourism and Environmental Affairs*.

### *DTPC*

The transfers to DTPC were reduced in 2014/15 and 2015/16 due to the entity's positive cash balance. The significant decrease in 2016/17 was mainly caused by the reprioritisation undertaken within the department to fund various priorities, in particular toward drought relief for EKZNW and the acquisition of land by the

RBIDZ. This reprioritisation was possible as some key projects implemented by DTPC were delayed as a result of outstanding EIA and water use licences. The entity received once-off additional funding in the 2016/17 Adjusted Appropriation for the development of a framework plan for the ASP project and the cutflower project which were both assigned to DTPC. The budget over the MTEF shows inflationary growth and is mainly for capital projects, in line with the entity's 60-year MasterPlan.

Table 4.8 : Summary of departmental transfers to public entities

R thousand	Audited Outcome			Main Appropriation	Adjusted Appropriation	Revised Estimate	Medium-term Estimates		
	2013/14	2014/15	2015/16				2017/18	2018/19	2019/20

### EKZMW

The transfers to EKZMW are largely to subsidise the entity's efforts in respect of nature conservation. The peak in 2014/15 is ascribed to the suspension of the unspent and uncommitted road maintenance budget relating to 2013/14. Furthermore, the entity received once-off funding relating to suspension of parts of the road maintenance funds, as well as funding for the Sakha Isibaya project, which is geared at fencing Hluhluwe Imfolozi Park and building cattle kraals for the adjacent communities. The increase in 2015/16 was due to an agreement between the department and the entity to be the implementing agent for projects, such as Sakha Isibaya, Nkululeko Development, IASP, East3 Route Legacy and the Parthenium Weed Clearing project, including the construction of three vehicle wash-down facilities at three main gates entering Hluhluwe Imfolozi Park, as well as additional funding for the above-budget 2015 wage agreement. The allocation over the 2017/18 MTEF provides for the continuation of projects such as the Sakha Isibaya project and road maintenance in various camps. The entity catered for upgrading its staff accommodation at Umfolozi and upgrading the Busingatha Lodge, among others. EKZMW received additional funding toward the Rhino Anti-poaching effort from 2016/17 to 2018/19. The entity receives additional funding of R76.140 million for each year of the MTEF as a result of reprioritisation undertaken by the department to fund the filling of critical vacancies and to address some of the entity's critical programmes.

### Ithala

The department transfers funds to Ithala on a project-specific basis and Ithala then oversees the financing and control of the projects, as well as the recovery of the loans. The transfers to Ithala reflect a declining trend from 2013/14 to the 2016/17 Adjusted Appropriation. In 2013/14 to 2015/16, Ithala received substantial funding in respect of Ithala share capital, to assist it with its capital adequacy ratio, and for the Ndumo Regeneration programme, whereby the entity is commissioned to champion this integrated multi-purpose and multi-sectoral project to revitalise the Ndumo area, as well as funding to cover the loan taken by DAC for the Royalty Soapie Awards, KZNPDH, and once-off funding for conducting an EIA in respect

of the Drakensberg cable car. Due to budget cuts effected and the internal reprioritisation exercise undertaken by the department to protect some of the departmental priorities, decreases were effected against the transfer to the Enterprise Development Fund totalling R41 million in each year of the MTEF, with this funding being reprioritised to fund EKZNW, as mentioned.

KZNPDPH is a subsidiary of Ithala aimed at facilitating strategic investment in fixed property in the province. The department previously reprioritised funds from other entities to fund the establishment of this newly established entity. Provincial Treasury advised the department to ensure that correct procedures are followed in terms of receiving National Treasury approval for the establishment of this new entity, as required by the PFMA. The decrease in the 2016/17 Adjusted Appropriation and 2017/18 is ascribed to the budget cut relating to the amounts moved to DOH to assist with the exchange rate and pressures. A reprioritisation exercise was undertaken by the department to fund EKZNW over the MTEF. As such, an amount of R28.136 million was cut from the KZNPDPH and moved to DOH, while R9.140 million in each year of the MTEF was reprioritised to EKZNW.

The SBGE was incubated under Ithala as a business unit, with funding of R3.155 million in this regard moved in the 2016/17 Adjusted Appropriation. The transfer to the SBGE was affected by budget cuts in 2016/17 and 2017/18, as well as the reprioritisation undertaken by the department to fund EKZNW. An amount of R22.864 million is cut from the SBGE and moved to DOH, while R6 million was cut from this entity over the MTEF and reprioritised to EKZNW, as mentioned.

#### ***KZNLA***

KZNLA was established to administer the collection of liquor licence fees, as well as the issuing of liquor licences. The increase in 2014/15 relates to once-off additional funding for operational costs, and carry-through funding from 2014/15 to 2016/17 for the procurement of an IT system. The former explains the substantial decrease in 2015/16. There is inflationary growth over the MTEF, to cater for an increase in operational costs, in line with an anticipated increase in liquor licence applications.

#### ***TKZN***

The increased transfer to TKZN in 2014/15 is largely due to costs incurred through the participation in the 2014 Carnival International De Victoria in the Seychelles, promotion and marketing of the East3 Route and organising the KZN is Summer campaign. The significant increase in 2015/16 was attributed to additional funding for the Tourism Indaba debt from previous years, Loeries Creative Week and the 2015 Vodacom Durban July, which explains the decrease in the 2016/17 Main Appropriation. The increase in the 2016/17 Adjusted Appropriation was due to additional funding for the Loeries Creative Week, the Vodacom Durban July event, Metro FM Awards and the Forward Keys project, since TKZN was responsible for co-ordinating these events on behalf of the department. The allocations increase at an inflationary rate over the MTEF and provides for hosting of major international business events including the World Economic Forum, World News Media, STEM Festival and the Terminal Operations Conference and Exhibition.

#### ***KZNSB***

The transfer to KZNSB was high in 2013/14 due to once-off additional funding for critical roof repairs at the entity's headquarters and the purchase and installation of a biometric access control system. In addition, KZNSB received funding to investigate more environmentally friendly shark repellent technology and to fill critical vacancies in its SCM unit. The entity also received additional funding to provide for activities of MCOE, including learning material, accreditation of courses, conversion of workshops to classrooms, etc., accounting for the decrease in 2014/15. The transfer in 2014/15 included once-off funding for hosting the Sharks International conference in June 2014, to promote the organisation as an internationally acclaimed centre for shark research. The increase in 2015/16 was attributed to once-off funding for hosting the 9<sup>th</sup> Western Indian Ocean Marine Science Association. There is steady growth over the MTEF.

#### ***RBIDZ***

The substantial low transfer to RBIDZ in 2013/14 was due to a reduction in allocation as a result of the entity's positive cash balance. Funds were reprioritised from this entity to projects such as the Co-operatives Incubator programme and the Ndumo Regeneration programme, and this therefore explains the substantial increase in 2014/15. The significant increase in 2015/16 was attributed to a once-off additional transfer for infrastructure and the acquisition of land which forms part of the first phase of the proposed

RBIDZ expansion area, as defined in the 50-year MasterPlan. This explains the decrease in 2016/17. However, the entity received an additional allocation in 2016/17 toward the acquisition of land, funded through the department's internal reprioritisation exercise. The allocations to RBIDZ grow steadily over the MTEF and provide for completion of construction of the administration block.

#### **TIK**

TIK shows an increasing trend from 2013/14 to 2015/16. The amount in 2013/14 includes once-off funding for the Makhaya Arts and Culture Development project, and for investment seminars. The entity also received once-off funding in 2014/15 for investment seminars associated with the East3 Route Legacy project. The entity was also responsible for the TAF and Renewable Energy project. The further increase in 2015/16 was due to once-off funding in respect of the East3 Route conference, as well as the Malaysian Investors Tour, accounting for the decrease in 2016/17. The further decrease in 2017/18 is linked to funding for the TAF and marketing, which was allocated from 2014/15 to 2016/17, and these funds were not carried through beyond 2016/17. There is steady growth over the MTEF.

#### **KZNFC**

The KZNFC is a listed public entity and its purpose is to promote the film industry in KZN. This entity was established in 2013/14, hence the spending in this year was for set-up costs. The spike in 2014/15 is ascribed to funding allocated to assist the KZNFC with its operational costs and to cover the shortfall for the purchase of computer servers. The increase in 2015/16 is attributed to additional funding for the establishment of the KZN Film Hub. The transfers to KZNFC include funding for yearly events, such as the Durban International Film Festival and Simon Mabhunu Sabela Film Awards which are hosted by this entity from 2015/16. The transfer in 2016/17 included costs to set-up a KZN Film Fund. The MTEF budget funds operational costs and the entity's projects, and reflects inflationary growth over the MTEF.

### **7.8 Transfers to other entities**

Table 4.9 gives a summary of departmental transfers to other entities, which are explained above and below the table.

The MKI was established to enhance economic development through STEM skills. The entity provides various interventions and support to schools, educators, learners and students in these areas for the economic growth and development needs of the province. MKI received once-off funding in 2015/16 in respect of the STEM Fund and security services costs for the entity. This explains the decrease in 2016/17, while the increase in the 2016/17 Adjusted Appropriation was attributed to the STEM Fund, as well as for the set-up of the ICT Institute for Software Engineering and Business Process Outsourcing in eight TVET colleges in the province and for the ICT Hub. This explains the decrease in 2017/18. MKI will continue to provide STEM academic development and support programmes through a range of recognised interventions to enhance participation and success. The institute will introduce marketing programmes to improve awareness of and access to STEM careers, occupations and research. A key focus area is enhancing the knowledge and skills of educators in the areas of STEM, in order to ensure better performance by historically disadvantaged learners. MKI will also solicit funding and render financial assistance to youth and students seeking access to tertiary education in the areas of STEM, and will provide resources to schools responsible for the delivery of the STEM curriculum. The allocations grow steadily over the MTEF.

The KZNGFT was established to lend funds to commercially viable projects. In 2013/14, the Growth Fund was restructured, and the KZNGFT was established. Prior to the KZNGFT, the funding was routed *via* Ithala. The KZNGFT's unspent funding relating to previous years and the 2013/14 allocation were moved from Ithala, since the KZNGFT was in the process of being registered as a separate entity at the time. In 2014/15, a net amount of R40 million was reduced from the entity's transfer due to its healthy positive cash balance. The budget for KZNGFT is reduced by R10 million in each year of the MTEF as part of the department's reprioritisation exercise and these funds were moved to fund EKZNW's pressures. This explains the decrease over the MTEF.

Estimates of Provincial Revenue and Expenditure

Table 4.9 : Summary of departmental transfers to other entities

R thousand		Audited Outcome			Main Appropriation	Adjusted Appropriation	Revised Estimate	Medium-term Estimates

Transfers to various entities were made relating to partnership funding and for major events, as reflected in Table 4.9. The increase in 2013/14 and in 2014/15 included the transfers paid to various private enterprises, mainly for events hosted by these enterprises in partnership with the department. During 2015/16, funding was allocated for KZN Tooling, KZN Craft Hub, continuation of the Ugu ICT incubator, and Tourism Enterprise partnership. The increase in the 2016/17 Adjusted Appropriation is attributed to a number of events such as the MTV Awards, Durban Vodacom July and Metro FM Awards, where the department appointed private enterprises as the event promoters. The budget over the MTEF includes transfers to the KZN Fashion Council, KZN Clothing Textile Cluster, Music Cluster, the Ugu and Richards Bay ICT Incubator, Mkuze Airport upgrades and the Maritime Cluster, Ingodini study, KZN tourism Sustaining Competitive and Responsible Enterprises (SCORE), South African Association for Marine Biological Research (SAAMBR) and WESSA.

## 7.9 Transfers to local government

Tables 4.10 and 4.11 indicate transfers to local government per category. Details of these transfers are given in *Annexure – Vote 4: Economic Development, Tourism and Environmental Affairs*.

It is also noted that, although the payment of motor vehicle licences falls under *Transfers and subsidies to: Provinces and municipalities*, these funds will not be transferred to any municipality, and hence these are excluded from the table below.

**Table 4.10 : Summary of departmental transfers to local government by category**

R thousand	Audited Outcome			Main Appropriation	Adjusted Appropriation 2016/17	Revised Estimate	Medium-term Estimates

<b>Total</b>		<b>11 076</b>	<b>17 005</b>	<b>9 500</b>	<b>6 000</b>	<b>8 500</b>	<b>8 500</b>	<b>500</b>	<b>-</b>	<b>-</b>

Regarding Category A:

- In 2014/15, Category A received funds for the SMME Fair and Exhibition that was hosted by the department in partnership with the eThekweni Metro. Also included in Category A was once-off funding of R4.425 million that was transferred to the eThekweni Metro which was responsible for constructing infrastructure relating to the Top Gear Festival.
- In 2015/16, transfers were paid to the eThekweni Metro in respect of the South African Music Conference, the Durban Fashion Fair, the launch of the Essence Festival and Woza Durban New Year's Picnic.

- The increase in the 2016/17 Adjusted Appropriation relates to R4.500 million that was allocated to eThekweni Metro to fund the South African Music Conference (R1.500 million), R500 000 to cater for the Durban Fashion Fair, R500 000 for the launch of the Essence Festival and R1.500 million for Woza Durban New Year's Picnic. The eThekweni Metro was appointed by the department to facilitate these events. An amount of R500 000 for the Innovation Forums initiatives was transferred to Innovate Durban (an entity under the eThekweni Metro) assigned to co-ordinate the Techno-hubs forums.

With regard to Category B:

- The Greenest Municipality Competition falls under Environmental Affairs, and transfers were made from 2012/13 to 2014/15 to municipalities that participated and won the competition. This competition was based on business plans submitted by municipalities. The department reviewed the historic spending of these funds by municipalities that won the competition. It was discovered that municipalities do not spend these funds as indicated in their business plans, and a decision was therefore taken that the department will no longer transfer funds directly to municipalities, but will appoint and pay service providers to procure the necessary goods or services for the implementation of projects as per the municipalities' business plans. Hence, there is no allocation from 2015/16 onward.
- In 2013/14, transfers relate to the construction of trading centres in the Mandeni Municipality.
- Also, in 2013/14 and 2014/15, transfers were made for the Drakensberg cable car consultations in respect of the Okhahlamba Municipality.
- Transfers were paid for the revitalisation of Alkantstrand Beach in the uMhlathuze Municipality in 2013/14, the revitalisation of Dokodweni Beach in the Mandeni Municipality in 2014/15, as well as the rehabilitation of South Port Beach in the Ray Nkonyeni Municipality from 2013/14 to 2014/15. The transfer made in 2015/16 relates to the beaches in the KwaDukuza Municipality.
- In 2014/15, the department transferred R6 million for the Africa Bike Week event that was hosted by the Hibiscus Coast Municipality.
- The increase in the 2016/17 Adjusted Appropriation is ascribed to transfers for the Ladysmith Airport for assisting with the development of an integrated MasterPlan and infrastructure upgrades and the Ladysmith Black Mambazo Academy in the Alfred Duma Municipality. In addition, transfers to the uMhlathuze Municipality were made for the Richards Bay Airport, mainly for a feasibility study.

Regarding Category C:

- In 2013/14 and 2015/16, transfers were paid in respect of the Dundee July rural horse racing event which was held in the uMzinyathi District Municipality.
- In 2014/15, a transfer of R1 million was made to the uMzinyathi District Municipality for the development of EMFs and Strategic Environmental Assessments (SEAs). In 2015/16, a transfer of R4.500 million was made to the Amajuba, Zululand, King Cetshwayo and Harry Gwala District Municipalities for the development of EMFs and SEAs.
- In 2014/15, a transfer was made for the Tourism Route Strategy in respect of the Harry Gwala District Municipality.
- The department made provision of R500 000 for an Ingodini study for transfer to the uMkhanyakude District Municipality in 2017/18.

## **7.10 Transfers and subsidies**

Table 4.12 is a summary of spending on *Transfers and subsidies* by programme and main category.

Transfers against *Households* in all programmes are mainly for staff exit costs, as well as external bursaries for non-employees. Allocations for external bursaries are mainly in Programmes 1, 2 and 3.

Table 4.12 : Summary of transfers and subsidies by programme and main category

The *Transfers and subsidies* under Programme 1 are as follows:

- *Provinces and municipalities* provides mainly for motor vehicle licences.
- *Departmental agencies and accounts* caters for transfers to SABC for TV licences and transfers to the Public Service Sector Education and Training Authority (PSETA) for training. Departments do not have to transfer funds to PSETA from 2015/16 onward, hence there is no budget in this regard over the MTEF. The allocation provides for TV licences over the MTEF.
- *Public corporations and private enterprises* makes provision for donations made for the “Stop Killing the Rhino campaign” which was conducted by the Sakhisizwe Management Agency in the Mtubatuba area, a donation for the Annual #Durban and Fun Youth leadership training and exhibition held at Umlazi, Durban, as well as a donation made to the Amantungwa Kholwa Annual event. There is no allocation made for this over the MTEF.
- *Non-profit institutions* in 2014/15 relates to a donation to Destiny House, where the department purchased computers and provided for transport and meals for Grade 12 learners in various districts to be exposed in the tourism and hospitality field. In addition, a donation was made in respect of the Durban SAPS widows and orphans fund, toward fundraising for a golf day event.
- *Households* relates to bursaries for people with disabilities, which are transferred through the Indumezulu Trust. Provision is also made for bursary funds over the MTEF.

The category *Transfers and subsidies* under Programme 2 provides for the following:

- *Provinces and municipalities* in 2013/14 relates to joint project funding for the construction of trading centres in the Mandeni Municipality. In 2014/15, a once-off transfer was made to the eThekweni Metro for the SMME Fair and Exhibition. The Essence Festival and the South African Music Conference were both hosted by the eThekweni Metro on behalf of the department from 2015/16 to 2016/17. There are no allocations in this regard over the MTEF.
- The 2014/15 amount against *Higher education institutions* relates to once-off funding transferred to MUT to facilitate and provide training to small enterprises in the chemical manufacturing sector. The allocation from 2016/17 onward caters for the RLED initiative programme assigned to UKZN.
- *Public corporations and private enterprises* mainly caters for transfers to Ithala which is discussed in more detail in Section 7.7. In 2013/14 and 2014/15, once-off funding was allocated to private enterprises for the co-operative funding and KZN Youth and Women Co-operatives Business Indaba, SEDA eThekweni, and Operation Vuselela. In 2015/16, transfer payments were made to various enterprises including iLembe Chamber of Business, and Durban Chamber of Business. Provision is made for the Enterprise Development Fund, the SBGE and the KZNPDPH over the MTEF, which are all transfers to Ithala. As mentioned previously, the transfers to these entities were reduced in the form of reprioritisation to increase funding to EKZNW over the MTEF.
- *Non-profit institutions* relates to the KZNGFT only. In the 2016/17 Adjusted Appropriation, the SBGE was incubated under Ithala as a business unit. The KZNGFT is explained in more detail in Section 7.8.
- *Households* largely relates to external bursaries to students who are studying toward the Co-operative Management Diploma offered at UNIZULU. The budget for these external bursaries were reduced from 2015/16 onward, as some students dropped out of the programme. No allocation is made in 2019/20 as the contract for these bursaries comes to an end in 2018/19.

The category *Transfers and subsidies* under Programme 3 provides for the following:

- *Provinces and municipalities* relates to partnerships the department enters into with municipalities that will be implementing various projects. These funds were transferred to the eThekweni Metro for the hosting of the Durban Fashion Fair from 2015/16 to 2016/17. The increase in the 2016/17 Adjusted Appropriation relates to funds that were transferred to uMhlathuze in respect of the Richards Bay Airport toward a feasibility study to be undertaken, as well as the Alfred Duma Municipality for the Ladysmith Airport in assisting with the development of an integrated MasterPlan and infrastructure upgrades, and for the Ladysmith Black Mambazo Academy.

- *Departmental agencies and accounts* covers transfer payments made to TIK and DTPC. Both these entities are discussed in detail under Section 7.7.
- *Public corporations and private enterprises* largely caters for the RBIDZ transfers, which is discussed in detail in Section 7.7. Also included against this category are transfers to private enterprises relating to various projects such as the KZN Fashion Council, KZN Clothing Textile Cluster, Music Cluster, the Ugu and Richards Bay ICT Incubator, Mkuze Airport upgrades and the Maritime Cluster. These projects are catered for only in 2017/18, at this stage.
- *Non-profit institutions* includes transfers to various entities, as follows:
  - KZNFC which is discussed in detail in Section 7.7.
  - MKI which is discussed in detail in Section 7.8.
  - The allocation for the Durban Film Festival is budgeted for under the KZNFC from 2014/15.

Programme 4 caters for transfers to the KZNLA under *Departmental agencies and accounts* and this is discussed in detail in Section 7.8.

With regard to Programme 5:

- *Provinces and municipalities* relates to a transfer to the eThekweni Metro in 2016/17, since the department appointed Innovate Durban (an entity of the eThekweni Metro) to co-ordinate the Techno-hubs forums.
- *Departmental agencies and accounts* provides for transfers to CSIR which is responsible for Industrial Symbiosis and the biogas pilot/bio-energy research project. Provision is made for both projects over the 2017/18 MTEF.
- The transfer to UKZN in 2014/15 against *Higher education institutions* was to co-ordinate the Manufacturing Survey, which is a follow-up from a survey that was conducted in 2002/03 to profile the state of the manufacturing sector. This survey was conducted to analyse the rate of survival within the sector, as well as challenges that firms face. The increase in 2015/16 was due to transfers made to various universities for the KZN University Technology Transfer programme. The increase in the 2016/17 Adjusted Appropriation relates to transfers made to various universities for the Solar PV Rooftop project and the KZN University Technology Transfer programme. The 2017/18 MTEF allocations cater for both the Solar PV Rooftop project and the KZN University Technology Transfer programme to be conducted by MUT.
- *Public corporations and private enterprises* caters for the Provincial Innovation Forums support to stimulate and instil a culture of innovation in the communities around the innovation parks or hubs, also known as Techno-hubs.

The category *Transfers and subsidies* under Programme 6 provides for the following:

- *Provinces and municipalities* relates to funding in 2013/14 for a number of projects, such as the revitalisation of Alkantstrand Beach, and rehabilitation of South Port Beach in the uMhlathuze and Hibiscus Coast Municipalities, respectively. Also contributing is the funding for the Dundee July rural horse-racing event held in the uMzinyathi District Municipality. The increase in 2014/15 can be ascribed to the Drakensberg cable car consultations in respect of the Okhahlamba Municipality, the Africa Bike Week event, the Tourism Route Strategy for the Harry Gwala District Municipality, revitalisation and rehabilitation of Dokodweni, as well as South Port Beach in Mandeni and Hibiscus Coast Municipalities. The transfers in 2015/16 relate to the revitalisation of beaches in the KwaDukuza Municipality and Woza Durban New Year's Picnic. The latter also took place in 2016/17. Provision is only made for the Ingodini study in 2017/18.
- *Departmental agencies and accounts* caters for transfers to TKZN and KZNSB, which are both discussed in detail under Section 7.7.
- Various once-off projects are funded under *Public corporations and private enterprises*. In 2013/14, the increase can be ascribed to partnership funding for events such as the uMphithi Spring Music Festival, Umlazi Festival and Expo, Urban Music Tour and the SMME conference that the department

hosts in partnership with various private enterprises. The increase in 2014/15 is largely ascribed to additional funding from the Strategic Cabinet Initiatives Fund for various events such as the Nelson Mandela Golf Tournament and the SA Women's Golf Championship events, among others. The Strategic Cabinet Initiatives Fund was stopped from 2015/16, and this explains the declining trend from 2015/16 onward. However, in 2015/16 and 2016/17 the department hosted tourism-related events including the World Pro-am Golfers Championship, KwaDukuza Festival, Fact Durban Rocks, Indlamu Sakhisizwe Cultural Tour, Durban Summer Festival, Kasi Tours and the Richards Bay Imbizo. Provision is only made for Tourism SCORE in 2017/18.

- *Non-profit institutions* in 2014/15 and 2015/16 relates to Africa Ignite for the Dukuduku resettlement project. During 2015/16, the WowZulu Production in respect of the Ndumo Lodge upgrade was reduced to fund the eKasi Tour 2016, which is a tourism-related event.

The category *Transfers and subsidies* under Programme 7 provides for the following:

- *Provinces and municipalities* reflects transfers to various municipalities in respect of the Greenest Municipality Competition from 2013/14 to 2014/15. The budget was moved and reclassified as *Goods and services* from 2015/16, as mentioned. Transfers were made in 2014/15 in respect of the development of EMFs and SEAs in respect of the uMzinyathi District Municipality and to the Amajuba, Zululand, King Cetshwayo and Harry Gwala District Municipalities in 2015/16.
- *Departmental agencies and accounts* comprises the subsidy paid to EKZNW. This is discussed in more detail in Section 7.7.
- *Public corporations and private enterprises* catered for a transfer made in respect of the Greenville Renewable Energy project in 2014/15.
- *Non-profit institutions* consists of transfers to WESSA for environmental education programmes, and the grant-in-aid to SAAMBR. The department also transferred funds for the Integrated Greening programme undertaken by the Wildlands Conservation Trust from 2014/15 to 2016/17. This category shows inflationary growth over the MTEF.

## 8. Programme description

The services rendered by this department are categorised under seven programmes. The programme structure largely conforms to the uniform budget and programme structure for the Economic Development and Tourism sector, and the Environmental Affairs sector.

The payments and budgeted estimates for each programme are summarised in terms of sub-programmes and economic classification, details of which are given in *Annexure – Vote 4: Economic Development, Tourism and Environmental Affairs*.

### 8.1 Programme 1: Administration

The main purpose of Programme 1 is to provide for the overall management of the department, and to render a support service to the other programmes in respect of transversal functions. This programme consists of four sub-programmes, namely Office of the MEC, Office of the HOD, Financial Management and Corporate Services. Tables 4.13 and 4.14 illustrate the payments and estimates of this programme over the seven-year period 2013/14 to 2019/20.

**Table 4.13 : Summary of payments and estimates by sub-programme: Administration**

R thousand	Audited Outcome			Main Appropriation	Adjusted Appropriation	Revised Estimate	Medium-term Estimates		
	2013/14	2014/15	2015/16				2016/17	2017/18	2018/19

The sub-programme: Office of the MEC oversees the management of the executive office and renders executive support including administration, operations, protocol, security, parliamentary liaison and communication to ensure that the Executive Authority is able to fulfill his mandate as prescribed by legislation. The 2017/18 MTEF provides for the MEC's programmes, relocation of the Ministry office from the Marine building in Durban to Pietermaritzburg, filling of critical posts such as Directors: Strategic Interventions and Partnerships, Policy Determinations, as well as Speechwriter and Researcher positions, as well as operational costs. Provision is made for *Machinery and equipment* in 2017/18 only in line with the anticipated filling of posts. This sub-programme increases steadily over the MTEF.

The sub-programme: Office of the HOD's objective is to effectively manage and direct the department and to ensure delivery of the departmental mandate and objectives. Other than providing for salaries and operational expenditure, the 2017/18 budget includes projects such as the KZN Tourism Ambassadors programme, Nkululeko 2 uMsinga, Dukuduku Monitoring Unit project aimed at co-ordinating various projects implemented by different departments in Dukuduku, as well as OSS programmes. The MTEF budget was reduced by R10 million in each year following a major reprioritisation exercise undertaken by the department to fund EKZWN. This explains the fluctuating trend over the MTEF.

The sub-programme: Financial Management includes the Financial Support Services and SCM components, which ensure the implementation of the PFMA and other related financial regulations and policies. The critical functions of budgeting, procurement, processing of expenditure, and recording of financial transactions are key deliverables of this sub-programme. The budget increases at an inflationary rate over the 2017/18 MTEF, and provides for salaries and operational costs.

The Corporate Services sub-programme comprises four units, namely Human Resources Management, Information Technology, Legal Services and Auxiliary Services. This sub-programme provides strategic direction, manages and drives strategy implementation, creates an enabling environment through deployment of human resources, business management processes, systems and support services. The significant growth in the two outer years of the MTEF is mainly ascribed to the anticipated increases in costs relating to operating leases for machinery, buildings leases, as well as anticipated maintenance costs of the head office and district offices.

*Compensation of employees* increases significantly in 2017/18 and this is linked to the anticipated filling of critical posts including Deputy Director-General: Administration, Chief Director: Public Entities, Director: Legal services, Director: Strategic Planning, Director: Human Resource Management and Development and Deputy Director: Demand Management. The growth of 26.3 per cent in 2017/18 will be able to cater for the planned filling of posts and 6.8 per cent in outer years is below what National Treasury has prescribed, and this will be reviewed by the department.

*Goods and services* included the budget for projects such as the KZN Tourism Ambassador programme, Project Planning and Performance Management, the Dukuduku Monitoring Unit project, as well as the department holding Business Excellence Awards aimed at recognising the best performing businesses in various sectors, to encourage entrepreneurship and innovation. A reprioritisation exercise was undertaken from this category to fund EKZNW over the MTEF. The bulk of the operational expenditure comprises operating leases mainly for photocopy machines utilised by the department, buildings leases, as well as maintenance costs, stationery, etc., for the head office and district offices.

*Transfers and subsidies to: Provinces and municipalities* largely relates to motor vehicle licence fees.

*Transfers and subsidies to: Departmental agencies and accounts* was mainly for the skills development levy to PSETA and payment of TV licences. The MTEF budget caters mainly for TV licences.

*Transfers and subsidies to: Households* provides for external bursaries and staff exit costs. The budget caters for 15 external bursaries for people with disabilities, which are transferred through the Indumezulu Trust over the MTEF. No provision is made for staff exit costs due to its unpredictable nature. The budget for external bursaries shows a steady growth over the MTEF.

*Machinery and equipment* fluctuates largely due to actual requirements for equipment. The 2017/18 amount includes provision for the purchase of computers in line with the anticipated filling of posts.

No provision is made for *Software and other intangible assets*.

## 8.2 Programme 2: Integrated Economic Development Services

The main purpose of this programme is the provision of strategic leadership, direction and co-ordination of economic empowerment initiatives in KZN. Programme 2 consists of three sub-programmes, namely: Enterprise Development, Regional and Local Economic Development, and Economic Empowerment. Tables 4.15 and 4.16 illustrate payments and estimates for the period 2013/14 to 2019/20.

**Table 4.15 : Summary of payments and estimates by sub-programme: Integrated Economic Development Services**

<b>Payments for financial assets</b>	<b>-</b>	<b>-</b>	<b>110</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>
<b>Total</b>	<b>1 073 730</b>	<b>502 886</b>	<b>427 599</b>	<b>414 345</b>	<b>320 394</b>	<b>321 983</b>	<b>358 053</b>	<b>420 571</b>	<b>447 827</b>

The sub-programme: Enterprise Development comprises two aspects, namely small business development and co-operatives development. These provide integrated business support services to small enterprises, both existing and start-ups, to improve their capacity to contribute to economic growth in the province. The 2017/18 budget includes allocations to entities such as Ithala, the KZNGFT, as well as for various co-operatives, women and youth-related projects, such as the Co-operative train-a-trainer, Co-operatives mentorship and International Day of Co-operatives, among others. A reprioritisation exercise was undertaken from the transfers to KZNGFT, Ithala, SBGE and KZNPDPH to address EKZNW pressures over the MTEF. Allocations for the SBGE and KZNPDPH were also cut to assist DOH with its exchange rate pressures relating to the procurement of medicines and medical supplies, as mentioned. Despite this reprioritisation and the budget cuts effected, the budget increases at a steady rate over the MTEF.

The sub-programme: Regional and Local Economic Development provides a range of services to enterprises, municipalities and other LED stakeholders in order to address unemployment, poverty and to broaden participation of vulnerable groups in the mainstream economy. The allocation over the MTEF mainly caters for projects including the Local Competitiveness Fund (LCF) Sihleza, LCF Automotive, as well as the forestry-related CFP activities and the sugar industry CFP. The sub-programme increases steadily over the 2017/18 MTEF.

The sub-programme: Economic Empowerment focuses on youth and women programmes. The department provides for the Youth Short Skills programme, and a number of women development programmes, including the women incubation and mentorship programme. The increase in the 2016/17 Adjusted Appropriation relates to the Youth Business Campaign, KZN Youth Expo 2016, Career and Business Skills Development and King Cetshwayo Women in Business Conference Awards. These events took place in 2015/16 and payments were only made in 2016/17. This explains the decrease in 2017/18. The budget increases at an inflationary rate over the MTEF, and include the Youth Short Skills programme.

*Compensation of employees* reflects high growth when compared to the 2016/17 Revised Estimate. This is ascribed to the Director: Co-operative and three Deputy Director positions, which the department is planning to fill in 2017/18. The growth of 15.3 per cent in 2017/18 is adequate for the filling of posts, but 6.8 per cent in the outer is below what National Treasury has prescribed, and this will be reviewed by the department.

*Goods and services* largely caters for co-operative, SMME and LED projects. A major reprioritisation was undertaken by the department to fund the Black Industrialists programme, the Revitalisation of Townships and Rural Economies, the SMME Academy and the Black Industrialist scale industries. Also, the budget caters for co-operatives, the Youth Short Skills programme, as well as LED projects including the sugar value chain programme, among others.

*Transfers and subsidies to: Provinces and municipalities* in 2015/16 and 2016/17 relates to the Essence Festival and the South African Music Conference, which were hosted by the eThekweni Metro on behalf of the department. There are no allocations in this regard over the MTEF at this stage.

*Transfers and subsidies to: Higher education institutions* provides for the RLED initiatives assigned to UKZN. The budget grows at an inflationary rate over the MTEF.

*Transfers and subsidies to: Public corporations and private enterprises* comprises transfers to Ithala including the Enterprise Development Fund, SBGE and KZNPDPH. The substantial decline in 2017/18 is due to the budget cuts implemented against the SBGE and KZNPDPH, as well as reprioritisation undertaken by the department to cater for pressures in EKZNW.

*Transfers and subsidies to: Non-profit institutions* largely relates to the KZNGFT, which was affected by reprioritisation of funds to provide for EKZNW over the MTEF. This explains the decrease in 2017/18. The budget remains constant over the MTEF.

*Transfers and subsidies to: Households* pertains to 70 external bursaries for the Diploma in the Management of Co-operative, as well as, staff exit costs. The allocations for these external bursaries were reduced from 2015/16 onward, as some students dropped out of the programme. The contractual agreements for these bursaries expire in 2018/19 and, as a result, no provision is made in 2019/20.

The fluctuations in *Machinery and equipment* relate to the provision of the necessary equipment for new appointments, as well as the replacement of redundant equipment.

### Service delivery measures – Programme 2: Integrated Economic Development Services

Table 4.17 shows the main service delivery measures pertaining to Programme 2. There are no current generic measures for this sector.

The department reviewed its service delivery measures for 2017/18, and hence a number of new targets are included, indicated by “New” in the 2016/17 column.

**Table 4.17 : Service delivery measures – Programme 2: Integrated Economic Development Services**

Outputs	Performance indicators	Estimated performance		Medium-term targets		
		2016/17	2017/18	2018/19	2019/20

### 8.3 Programme 3: Trade and Sector Development

The main purpose of this programme is to stimulate economic growth through industry development, trade and investment promotion.

This programme comprises three sub-programmes, namely Trade and Investment Promotion, Sector Development and Strategic Initiatives.

Tables 4.18 and 4.19 give a summary of payments and estimates relating to Programme 3 for the period 2013/14 to 2019/20. A large portion of the budget against this programme is for the public entities such as, DTPC, RBIDZ and the MKI, as well as transfers to TIK and the KZNFC.

**Table 4.18 : Summary of payments and estimates by sub-programme: Trade and Sector Development**

R thousand	Audited Outcome			Main Appropriation	Adjusted Appropriation	Revised Estimate	Medium-term Estimates

<b>Total</b>	<b>753 992</b>	<b>832 777</b>	<b>939 786</b>	<b>769 338</b>	<b>798 632</b>	<b>799 665</b>	<b>842 563</b>	<b>911 736</b>	<b>962 791</b>

The sub-programme: Trade and Investment Promotion comprises transfers to TIK and DTPC. This sub-programme provides trade and logistics support services to economic role players to strengthen the provincial economy's international competitiveness. Over the MTEF, the department has made provision for projects such as the development of the Aerotropolis Institute Africa, which EDTEA is implementing in collaboration with the UKZN, and for co-ordinating and facilitating the implementation of strategies to support Industrial Economic Hubs. Also receiving focus is RASET and an oil-gas study, marine manufacturing, and the KZN Exporter Strategy. The budget shows healthy growth over the MTEF. The transfers to TIK and DTPC are discussed in more detail in Section 7.7.

The sub-programme: Sector Development provides customised support services to the priority sectors of the provincial economy, with a view to meeting its strategic objective, which is to strengthen the international competitiveness of these sectors and position them as key contributors to economic growth and development. The bulk of the budget over the 2017/18 MTEF caters for transfers to MKI and KZNFC, as well as various projects such as the KZN Clothing and Textile Cluster, KZN Tooling initiative, Ugu and Richards Bay incubators and the KZN Music Cluster.

The sub-programme: Strategic Initiatives provides for SEZs and the budget reflects the transfers made to the RBIDZ only. The substantial growth over the MTEF can be ascribed to funds reprioritised to RBIDZ for the acquisition of land for expansion purposes as defined in the 50-year MasterPlan. This sub-programme increases steadily over the MTEF.

Increases to *Compensation of employees* in 2017/18 can be ascribed to the anticipated filling of three Directors posts such as Industrial Economic Hubs, Aerotropolis and Maritime. The growth of 47 per cent in 2017/18 is sufficient for the planned filling of posts, but 6.8 per cent in the outer is below what National Treasury has prescribed, and this will be reviewed by the department.

The budget against *Goods and services* provides for a number of projects to be implemented from 2017/18 onward. A reprioritisation exercise was undertaken from other programmes to fund RASET. In addition, the budget caters for the continuation of Industrial Economic Hubs and the development of the Aerotropolis Institute Africa, as well as the Durban Aerotropolis MasterPlan.

*Transfers and subsidies to: Departmental agencies and accounts* relates to the transfers to TIK and DTPC.

*Transfers and subsidies to: Public corporations and private enterprises* relates to transfers to RBIDZ and a number of smaller transfers to private enterprises responsible for hosting various events. These include the KZN Music Cluster, the fencing project at Mkuze Airport, the Ugu ICT Incubator, the Maritime Cluster and

the KZN Fashion Council. The transfers for the smaller projects are catered for in 2017/18 only, explaining the decrease in 2018/19. Allocations in the outer years relate to the RBIDZ only.

*Transfers and subsidies to: Non-profit institutions* pertains to transfers to the MKI and KZNFC. These are discussed in more detail in Sections 7.7 and 7.8.

*Transfers and subsidies to: Households* relates to Durban Aerotropolis learnerships aimed at encouraging students with Science and Mathematics to undergo studies in Aeronautical Engineering, Aviation Economics, Aerotropolis Master Planning, Aviation Marketing, as well as Aviation Maintenance and Repair.

### Service delivery measures – Programme 3: Trade and Sector Development

Table 4.20 shows the main service delivery measures pertaining to Programme 3. There are no current generic measures for this sector. The department reviewed its service delivery measures for 2017/18, and hence a number of new targets are included, indicated by “New” in 2016/17.

**Table 4.20 : Service delivery measures – Programme 3: Trade and Sector Development**

Outputs	Performance indicators	Estimated performance		Medium-term targets	
		2016/17	2017/18	2018/19	2019/20
<b>1. Trade and Investment Promotion</b>					
1.1 To stimulate inclusive growth through trade and investment promotion	• Rand value of exports and investment facilitated	New	R1.5bn	R1.5bn	R1.5bn
	• Companies supported through strategic interventions	New	6	6	6
	• No. of investment and export (trade) strategies developed	4	-	-	4
<b>2. Sector Development</b>					
2.1 To implement existing productive and service sector strategies and plans	• No. of employment opportunities created	60	75	90	110
	• No. of business plans completed	2	5	3	2
	• No. of strategic interventions implemented	20	11	20	22
	• No. of people trained	300	165	300	400
	• No. of clusters supported (KZN Music Cluster, KZN Clothing and Textile Cluster & KZN Fashion Council)	5	3	4	3
<b>3. Strategic Initiatives</b>					
3.1 To facilitate the development of strategic industrial interventions	• No. of Infrastructure projects facilitated to support Aerotropolis, SEZ and Industrial Economic Hubs	3	2	2	4
	• No. of job opportunities facilitated through the Aerotropolis, Maritime, and Industrial Economic Hubs Initiative	130	150	280	1 882
	• No. of people trained within Aerotropolis, Maritime, Industrial Economic Hubs and Special Economic Zones	70	104	150	182
	• No. of incubators established within the Aerotropolis and Industrial Economic Hubs	-	1	1	2
	• No. of business plans or master plans completed	4	4	2	3

### 8.4 Programme 4: Business Regulation and Governance

The aim of this programme is to enable an equitable and socially responsible business environment. The programme consists of three sub-programmes, namely Regulation Services, Consumer Protection and Liquor Regulation. The main difference to this programme, when compared to the generic structure for the sector, is that Gambling and Betting falls under Vote 1: OTP in this province, and the sub-programme: Governance is not yet incorporated in the department’s structure. Tables 4.21 and 4.22 summarise the payments and estimates for the seven years from 2013/14 to 2019/20.

**Table 4.21 : Summary of payments and estimates by sub-programme: Business Regulation and Governance**

R thousand	Audited Outcome			Main Appropriation	Adjusted Appropriation	Revised Estimate	Medium-term Estimates		
	2013/14	2014/15	2015/16	2016/17			2017/18	2018/19	2019/20

Regulation Services provides a regulatory framework for the functioning of both formal and informal trade to advance economic development and growth, and includes projects such as the Business Licensing PMU and Informal Economy Electronic Database. The MTEF budget increases at a steady rate.

The sub-programme: Consumer Protection established in terms of the KZN Consumer Protection Act aims to protect and promote consumer rights and to receive, investigate and dispose of cases of alleged unfair business practices, to initiate investigations and to publish the findings in a provincial gazette, and also to advise consumers on consumer related issues. The purpose is also to educate the consumers about their rights by conducting workshops and community outreach programmes, as well as to conduct inspection blitzes of businesses to ensure compliance with the Consumer Protection Act. The bulk of the budget is utilised to host consumer awareness campaigns, to provide for the Case Management System and to conduct research on consumer activities. The budget increases at an inflationary rate over the MTEF, largely to cater for projects such as research on consumer activities and the development of a composite consumer index for KZN consumers.

The Liquor Regulation sub-programme pertains to transfers to the KZNLA, discussed in Section 7.7.

*Compensation of employees* shows high growth in 2017/18 and this relates to the filling of four posts including Director: Business Regulations, two Deputy Directors: Consumer Education, and Assistant Director: Complaint Handler and Education officer. The high growth of 22.2 per cent in 2017/18 caters for the planned filling of posts, but the outer years growth of 6.8 per cent is below what National Treasury has prescribed, and this will be reviewed by the department.

*Goods and services* includes costs relating to conducting workshops and community outreach programmes across the province, the Business Licensing PMU and Informal Economy Electronic Database. There is a steady increase over the 2017/18 MTEF.

*Transfers and subsidies to: Departmental agencies and accounts* comprises transfers to the KZNLA which are discussed in more detail in Section 7.7.

*Transfers and subsidies to: Households* provides for staff exit costs.

*Machinery and equipment* relates to capital equipment requirements.

#### **Service delivery measures – Programme 4: Business Regulation and Governance**

Table 4.23 provides the main service delivery measures pertaining to Programme 4. There are no current generic measures for this sector. The department reviewed its service delivery measures for 2017/18, and hence a number of new targets are included, indicated by “New” in 2016/17.

Table 4.23 : Service delivery measures – Programme 4: Business Regulation and Governance

Outputs	Performance indicators	Estimated performance		Medium-term targets		
		2016/17	2017/18	2018/19	2019/20	
<b>1. Regulation Services</b>

## 8.5 Programme 5: Economic Planning

The main purpose of this programme is to develop provincial economic policies and strategies to achieve and measure sustainable economic development. The purpose is also to conduct research proposals relating to changing global trends, and to provide a wide range of information and knowledge that serve as key drivers and to regularly assess the performance of the economy. The sub-programmes consist of Policy and Planning, Research and Development, Knowledge Management and Monitoring and Evaluation. Tables 4.24 and 4.25 summarise payments and budgeted estimates for the period 2013/14 to 2019/20.

Table 4.24 : Summary of payments and estimates by sub-programme: Economic Planning

R thousand	Audited Outcome			Main Appropriation	Adjusted Appropriation	Revised Estimate	Medium-term Estimates

<b>Total</b>	<b>20 566</b>	<b>23 186</b>	<b>29 492</b>	<b>38 525</b>	<b>38 225</b>	<b>37 193</b>	<b>39 507</b>	<b>41 787</b>	<b>44 126</b>

The Policy and Planning sub-programme is responsible for gathering economic data, conducting analyses and building models to inform economic development policy interventions. Furthermore, policy research ensures that the province's economic policy direction adequately responds to global factors and national policy directives. Key outputs from this sub-programme include integrated economic development strategies, economic intelligence reports and economic models. The budget is mainly for operational costs and staff for this sub-programme. There is inflationary growth over the MTEF.

The Research and Development sub-programme largely relates to research projects such as Industrial Symbiosis, KZN University Technology Transfer programme, Solar PV Rooftop project, provincial innovation forums, bio-energy action and biogas research. The budget grows steadily over the MTEF.

The Knowledge Management sub-programme ensures that information relevant to the execution of the departmental economic development mandate is made available timeously to departmental users by using properly designed sourcing, storage and dissemination technologies. The information should be relevant to the development of the provincial economy within the national agenda. Allocations include operational costs relating to the department's internal resource centre and the printing and publication of reports, as well as a fog water harvesting pilot project which will be valuable in rural households and for farmers that desperately need water in KZN, which has almost nine months of fog season. The allocations over the 2017/18 MTEF grows at an inflationary rate.

The Monitoring and Evaluation sub-programme ensures continuous performance improvement and effectiveness in the implementation of economic development and environmental policies, strategies and projects, through monitoring and evaluation of outputs, outcomes and impact. Monitoring and evaluation provides an opportunity for assessing, reflecting, learning and improving in the delivery of services. The budget for the 2017/18 MTEF includes compilation of the provincial integrated statistical database.

*Compensation of employees* increases from 2016/17 to 2017/18 and this is linked to the planned filling of 15 posts planned to take place in 2017/18. These posts include the Director: Research and Development, Deputy Directors: Policy and Planning, and Research and Development (Green Economy Specialist). The growth of 12.5 per cent in 2017/18 provides for the filling of posts and 6.8 per cent in the outer years is below what National Treasury has prescribed, and this will be reviewed by the department.

*Goods and services* largely caters for projects such as the Industrial Development Strategy, the Renewable Energy project, the provincial integrated statistical database and Green Economy Research. The budget grows steadily over the MTEF.

*Transfers and subsidies to: Departmental agencies and accounts* provides for transfers to CSIR for the Industrial Symbiosis and the biogas pilot/bio-energy research project.

*Transfers and subsidies to: Higher education institutions* relates to a transfer to MUT for the Solar PV Rooftop project and the KZN University Technology Transfer programme, which focusses on the process of transferring skills, knowledge, technologies, methods of manufacturing, samples of manufacturing and facilities among government or universities and other institutions to ensure that scientific and technological developments are accessible to a wider range of users who can then further develop and expand the technology into new products, processes, applications, materials or services. These programmes are funded over the 2017/18 MTEF.

*Transfers and subsidies to: Public corporations and private enterprises* caters for the Provincial Innovation Forums support and aims to stimulate and instil a culture of innovation in the communities around the innovation parks or hubs, also known as Techno-hubs. The allocations increase at an inflationary rate over the MTEF.

### **Service delivery measures – Programme 5: Economic Planning**

Table 4.26 illustrates the main service delivery measures pertaining to Programme 5: Economic Planning. There are no current generic measures for this sector.

The department reviewed its service delivery measures for 2017/18, and hence a new target is included, indicated by "New" in 2016/17.

Table 4.26 : Service delivery measures – Programme 5: Economic Planning

## 8.6 Programme 6: Tourism

The main purpose of this programme is to stimulate economic growth through tourism development. This programme comprises three sub-programmes, namely Tourism Planning, Tourism Growth and Development and Tourism Sector Transformation. The objectives are to create an enabling tourism environment through legislation, policy and strategy development, to create demand and supply tourism, as well as to ensure sustainability and tourism sector transformation.

Tables 4.27 and 4.28 summarise payments and estimates relating to Programme 6 for the period 2013/14 to 2019/20. This programme includes transfers to KZNSB and TKZN.

The sub-programme: Tourism Planning provides guidance, support and direction in terms of policies, legislation and strategies aimed at promoting tourism. The aim is to clearly guide spatial development of tourism and define a clear role of the private sector at all levels in tourism planning. The continuous development of the tourism sector will assist in diversifying South Africa's economy and will contribute immensely towards achieving the overall objectives of the National Tourism Sector Strategy and the Provincial Tourism Master Plan. The MTEF budget includes the KZN is Summer campaign, the tourism conference aimed at creating a platform for stakeholders within the tourism sector to share information and open up a platform for interaction among all in an effort for the betterment of the tourism sector within KZN, Tourism Route aimed at promoting a wide range of activities which contribute towards an exciting and quality tourism experience for visitors and ultimately resulting in pleasant memories of the destination visited and Tourism levy study (Hospitality levy study) which seeks to investigate the viability and the different modalities that could be considered for implementation by the province to establish a fund to support the bidding process for major events or exhibitions.

The sub-programme: Tourism Growth and Development aims to provide sustainable tourism growth and development through identification and stimulation of demand-led products, developing appropriate tourism infrastructure, and inspiring innovation to guide development of tourism over time to achieve geographic and rural spread. In addition, the sub-programme is responsible for registration of tourist guides and tourism businesses in the province to ensure that the tourism industry is regulated and enforces compliance with legislation. This sub-programme includes transfers to KZNSB and TKZN. The department budgeted for the Africa Business Council expected to take place in 2017/18, and other programmes, including a tourism registration system which entails the registration of tourist guides and tourism businesses within the province to ensure compliance with relevant tourism legislation and regulations. The department needs to upgrade the current registration system to be able to cater for categories and required fields to be able to generate required reports. The tourism signage and professionalisation of tourist guide programme is also budgeted for in 2017/18. The budget cuts were effected against this sub-programme and amounts of R15.359 million, R17.188 million and R27.293 million were cut over the MTEF, respectively. The cuts were effected against *Goods and services* on projects such as the World Pro-am Golfer Championship, and various December tourism-related events will be discontinued or scaled down. Despite the cuts, the budget in the outer years grows steadily.

The Tourism Sector Transformation sub-programme funds tourism interventions and drives key development initiatives to improve the contribution that this sector makes to the KZN economy. In addition, the sub-programme is responsible for enhancing and marketing the attractiveness of KZN as a tourism destination, and for driving transformation of the sector. The budget provides for the Tourism sector transformation study and Tourism and Entrepreneurship Careers Expo. This sub-programme shows an increasing trend over the 2017/18 MTEF.

The growth in *Compensation of employees* from 2017/18 is high as the department is planning to fill critical posts in 2017/18. The posts include the Chief Director: Tourism, and the allocation over the 2017/18 MTEF grows at a steady rate. The growth of 45 per cent in 2017/18 is to cater for the filling of posts, but 6.8 per cent in 2018/19 and 2019/20 is below what National Treasury has prescribed, and this will be reviewed by the department.

*Goods and services* provides for the tourism registration system, tourism signage, as well as the professionalisation of tourist guide programme. Despite the budget cuts effected and the reprioritisation undertaken against this category, the allocations over the MTEF reflect strong growth, and cater for tourism-related projects such as Umthayi Festival, the World Economic Forum 2017 and the Tourism Enterprise career expo.

In 2017/18, the department has budgeted R500 000 for the Ingodini study against *Transfers and subsidies to: Provinces and municipalities*. These funds will be transferred to the uMkhanyakude District Municipality to conduct a study aimed at ascertaining the viability of packaging tourism activities and facilities to jointly market the Ingodini Border Caves and Cecil Marks Project.

*Transfers and subsidies to: Departmental agencies and accounts* consists of transfers to TKZN and KZNSB under the Tourism Growth and Development sub-programme. The entities are discussed in more detail in Section 7.7.

*Transfers and subsidies to: Public corporations and private enterprises* consists of once-off transfers to private enterprises relating to various partnership agreements. The 2017/18 budget provides for the Tourism SCORE conducted by the department in partnership with International Labour Organisation.

*Machinery and equipment* caters for the replacement of computers over the 2017/18 MTEF.

### Service delivery measures – Programme 6: Tourism

Table 4.29 illustrates the main service delivery measures pertaining to Programme 6: Tourism. There are no current generic measures for this sector.

The department reviewed its service delivery measures for 2017/18, and hence on new target is included, indicated by ‘New’ 2016/17.

**Table 4.29 : Service delivery measures – Programme: Tourism**

### 8.7 Programme 7: Environmental Affairs

Programme 7 largely conforms to the budget and programme structure for the Environmental Affairs sector. However, the information is given at sub-programme and sub-sub-programme level because of the level of detail required by the sector. This programme aims to ensure effective compliance and governance in respect of environmental management. The strategic objectives are as follows:

- To ensure integrated sustainable environmental planning.
- To mitigate the impact of and manage waste and pollutants.
- To empower communities with regard to sustainable resource utilisation.
- To prevent and control the spread of invasive alien species.

This programme also includes the transfers to EKZNW and SAAMBR. These entities are included in the Environmental Affairs sector structure, specifically under the sub-programme: Biodiversity Management.

Tables 4.30 and 4.31 summarise payments and estimates for Programme 7.

**Table 4.30 : Summary of payments and estimates by sub-programme: Environmental Affairs**

The sub-programmes: Environmental Policy Planning and Co-ordination is responsible for the development of instruments, mechanisms and institutions to ensure sound co-operative environmental governance in the implementation of sustainable development frameworks. The sub-programme also conducts environmental research in order to generate knowledge to support sound decision making resulting in innovative approaches to the management of the environment. Furthermore, the sub-programme ensures provincial sustainability monitoring and reporting through generation, management and dissemination of environmental information for improved decision making and on-going strategy development.

The purpose of the sub-programme: Compliance and Enforcement is to achieve effective, integrated and co-ordinated compliance monitoring and enforcement of environmental legislation in the province.

The sub-programme: Environmental Quality Management promotes and regulates the application of appropriate environmental management instruments to ensure integrated environmental management in all media (land, coast and atmosphere) and facilitates the management and mitigation of impacts associated with air emissions, climate change, pollution and listed activities.

The sub-programme: Biodiversity Management is responsible for controlling the spread of invasive alien plants in communal, public and private areas, develop and implement community-based natural resource

management and action projects for sustainable development. This programme houses EKZWN, the EPWP Integrated Grant for Provinces and IASP under the sub-sub-programme: Biodiversity and Protected Area Planning and Management, and the additional funding allocated in this regard (with carry-through costs) accounts for the fluctuation in this sub-programme. Note that funding allocated for IASP of R52.530 million, R55.156 million and R58.247 million will remain ring-fenced for this purpose.

The sub-programme: Environmental Empowerment Services includes grant-in-aid to SAAMBR for marine biological research.

*Compensation of employees* indicates a steady increase over the MTEF which is sufficient to fund critical posts. The department plans to fill 29 critical vacancies including OSD posts in 2017/18 such as the Chief Director: Environmental Services, Directors for the Southern Region and IASP and 18 Control Environmental Officers in various districts. Hence, growth is high from 2016/17 to 2017/18. There is steady growth over the MTEF.

The bulk of the budget against *Goods and services* relates to IASP which is specifically and exclusively appropriated funding. The budget includes the EPWP Integrated Grant for Provinces for 2017/18 only, explaining the fluctuating trend over the MTEF against this category.

*Transfers and subsidies to: Departmental agencies and accounts* comprises the subsidy paid to EKZWN, which is discussed in more detail in Section 7.7.

*Transfers and subsidies to: Non-profit institutions* consists of transfers to WESSA for environmental education programmes and the grant-in-aid to SAAMBR.

The 2017/18 budget against *Machinery and equipment* is linked to the planned filling of vacant posts and the related purchase of equipment and computers. There is no allocation in the outer years, at this stage.

### Service delivery measures: Programme 7: Environmental Affairs

Table 4.32 shows the service delivery measures pertaining to Programme 7 which are standardised in terms of the sector. The performance indicators provided largely conform to the customised measures for the Environmental Affairs sector. The department reviewed its service delivery measures for 2017/18, and hence a number of new targets are included. The performance targets “New” in the 2016/17 Estimated performance illustrates that the indicator did not exist in 2016/17, and that these are new indicators from 2016/17 onward.

**Table 4.32 : Service delivery measures – Programme 7: Environmental Affairs**

## 9. Other programme information

### 9.1 Personnel numbers and costs

Table 4.33 illustrates the detail of the department’s approved establishment and personnel numbers. The table also gives a breakdown of employee dispensation classification which includes *Public Service Act appointees not covered by OSDs*, and *Other such as interns, EPWP, learnership, etc.*, although not completed by the department.

The department employs only full-time personnel in 2013/14. Due to the lengthy process of reviewing its organisational structure, the department appointed contract workers from 2014/15, and the posts are expected to be filled by the department in 2017/18. Hence, there are no contract workers over the MTEF.

The low personnel numbers in 2016/17 are mainly due to high staff turn-over, the moratorium on the filling of non-critical posts, and also the difficulty in recruiting suitably qualified candidates. Personnel numbers and costs increase in 2017/18 as the department plans to fill critical vacant posts, and the department has provided for the filling of 103 critical posts in 2017/18.

Table 4.33 : Summary of departmental personnel numbers and costs by component

## 9.2 Training

Table 4.34 reflects the payments and estimates on training for the seven-year period. The table also illustrates the number of staff, volunteers/contract employees and external role players that are affected by the various training programmes and initiatives. It also includes a gender breakdown, an indication of the types of training, as well as details of the number of bursaries and learnerships.

The amounts reflected pertain to capacitating and improving the skills of the staff of the department. The training budget is under Programmes 1, 2, 3, 5 and 7 for capacitating and improving the skills of staff. Table 4.34 reflects costs as per the *Training and development* item under *Goods and services*.

\*Note: Some amounts reflected as Transfers received do not equal the amounts reflected in Table 4.8, as a portion of the transfers is reflected against other items in the financial position.

\*\*Note: The surplus reflected relates to the accounting treatment of capital expenses and other non-cash items.

\*\*\*Note: DTPC records finance leases as borrowings

\*Note: Some amounts reflected as Transfers received do not equal the amounts reflected in Table 4.8, as a portion of the transfers is reflected against other items in the financial position.

\*\*Note: The Surplus / Deficit relates to the accounting treatment of capital and other non-cash expense items.
